Across the Void S.K. Vaughn 2019-07-02 A visceral space thriller—perfect for fans of *Arrival* and *The Martian*—following the sole survivor of a catastrophic accident in space that leaves her drifting in the void with only the voice of her estranged husband, a NASA scientist, to guide her back to Earth. Commander Maryam “May” Knox awakes from a medically induced coma alone, adrift in space on a rapidly failing ship, with little to no memory of who she is or why she's there. Slowly, she pieces

together that she's the captain of the ship, Hawking II; that she was bound for Europa—one of Jupiter's moons—on a research mission; and that she's the only survivor of either an accident—or worse, a deliberate massacre—that has decimated her entire crew. With resources running low, and her physical strength severely compromised, May must rely on someone back home to help her. The problem is: everyone thinks she's dead. Back on Earth, it's been weeks since Hawking II has communicated with NASA, and Dr. Stephen Knox is on bereavement leave to deal with the apparent death of his estranged wife, whose decision to participate in the Europa mission strained their marriage past the point of no return. But when he gets word that NASA has received a transmission from May, Stephen comes rushing to her aid. What he doesn't know is that not everyone wants May to make it back alive. Even more terrifying: she might not be alone on that ship. Featuring a twisting and suspenseful plot and compelling characters, *Across the Void* is a moving and evocative thriller that you won't be able to put down.

*Slave Trade and Abolition* Vanessa S. Oliveira 2021-01-26 Well into the early nineteenth century, Luanda, the administrative capital of Portuguese Angola, was one of the most influential ports for the transatlantic slave trade. Between 1801 and 1850, it served as the point of embarkation for more than 535,000 enslaved Africans. In the history of this diverse, wealthy city, the gendered dynamics of the merchant community have frequently been overlooked. Vanessa S. Oliveira traces how existing commercial networks adapted to changes in the Atlantic slave trade during the first half of the nineteenth century. *Slave Trade and Abolition* reveals how women known as donas (a term adapted from the title granted to noble and royal women in the Iberian Peninsula) were often important cultural brokers. Acting as intermediaries between foreign and local people, they held high socioeconomic status and even competed with the male merchants who controlled the trade. Oliveira provides rich evidence to explore the many ways this Luso-African community influenced its society. In doing so, she reveals an unexpectedly nuanced economy with regard to the dynamics of gender and authority.

**My Struggle for Freedom** Hans Küng 2005-01-01 Hans Küng is undoubtedly one of the most important theologians of our time, but he has always been a controversial figure, and as the result of a much-publicized clash over papal infallibility had his permission to teach revoked by the Vatican. Yet at seventy-five he is also something like a senior statesman, one of the 'Group of Eminent Persons' convened by the UN Secretary-General Kofi Annan, and a friend of heads of government like Tony Blair and President Mubarak of Egypt. In this fascinating autobiography he gives a frank and outspoken account of the first four decades of his life. He tells of his youth in Switzerland and his decision to become a priest; his doubts and struggles as he studied in Rome and Paris, and his experiences as a professor in Tübingen, where he received a chair at the amazingly early age of thirty-one. Most importantly, as one of the last surviving eye-witnesses he gives an authentic account of the struggles behind the scenes at the Second Vatican Council, in which he took part as a theological expert. Here it becomes clear just how major an influence he was, to the point of shaping the Council's agenda and drafting speeches for bishops to deliver in plenary sessions. With its rich thought and vivid narrative, Küng's book paints a moving picture of his personal convictions, and his struggle for a Christianity characterized not by the domination of an official church but by Jesus.

After many years of enforced silence, as a result of a solemn promise given to Scott, Jane Sherwood reveals his true identity, namely, Colonel T. E. Lawrence (Lawrence of Arabia). Post-Mortem Journal opens at the moment of Lawrence's death when he finds himself lying at the roadside by his shattered motorbike, unaware that he is actually 'dead'. It continues over the years and shows us the development and salvation of a tortured and guilty man who, for the first time, is forced into admitting his weaknesses and vanities during his earthly life and is only now able to come to terms with himself. Such revelations are both harrowing and magnificent. 'As to the validity', says Jane Sherwood, 'of the information contained in "Scott's" journal I can only vouch for my own honesty; what I have received is here set down without addition or modification. The readers must judge of its probability for themselves.'

*Remembering the Future* Wendy Grossman 1997 The computer industry is young and still changing fast. The 'information revolution' has already made a major impact on our lives, perhaps comparable with that of the industrial revolution, but the fast and furious pace of developments has left little time for reflection or for looking back on what has happened. Why did the industry develop the way it did? What were the hopes, dreams and aspirations of the people involved? Who got it right and - equally interesting - who got it spectacularly wrong? *Remembering the Future* provides a fascinating insight into the growth of the computer industry during the past few years, through a series of in-depth interviews with the very people responsible for building it.

**What Your Aches and Pains Are Telling You** Michel Odoul 2018-01-09 Reveals the precise correspondences between specific emotional and mental tensions and the illnesses and traumas of the body • Explains how physical complaints--energetic disturbances that lead to ailments or chronic conditions--are your soul speaking to you • Shows how the body part affected as well as which side it is on pinpoints what your soul is trying to tell you and what you need to work through emotionally • Explains the Yin-Yang energetic correspondences of the body: the Yang axis of the shoulders, the Yin axis of the hips, and the Yin-Yang maternal/paternal connections Our body speaks. Physical complaints--allergies, fever, sore throat, inflammation, cysts, backache, migraines, sinus problems, sciatica, dizzy spells, and even cancer--are all signs of deep tensions inside of us are seeking expression. This is why, given the same genetic foundation, one individual develops a specific illness while another remains in good health. Drawing on 20 years of experience and several thousand individual consultations with patients, Michel Odoul shows the "proof" of this lies in the clear correspondences between emotional and mental tensions and specific ailments. The author reveals how every illness or trauma is a signal of incredible precision: The part of the body affected pinpoints what your inner being is trying to tell you and what you need to work through emotionally. Providing a reference grid of body-mind connections, he explains, for example, how skin conditions reflect difficulties with aggression from the outside world and knee problems indicate inflexibility or tension in relationships. He shows not only how each side of the body has specific meanings and connections to emotions, relationships, and family but also how the upper and lower halves of the body have specific connections--together forming four quadrants with

unique Yin-Yang balances, where Yin represents emotional issues and Yang represents action/inaction. He also explores the role of the meridians of Chinese medicine in distributing emotional and mental energy throughout the body. Offering keys to decipher what the body is trying to tell us, the author shows that we can learn to see physical ailments not as something caused by chance or fate but as a message from our heart and soul. By releasing the energies and patterns they point to, we can return to a state of health and forward movement on our path through life.
