Black Ghost of Empire Kris Manjapra 2022-04-19 If the 1619 Project illuminated the ways in which life in the United States has been shaped by the existence of slavery, this "historical, literary masterpiece" (Kiese Laymon, author of *Heavy*) focuses on emancipation and how its afterlife further codified the racial caste system—instead of obliterating it. To understand why the shadow of slavery still haunts us today, we must look closely at the way it ended. Between the 1770s and 1880s, emancipation processes took off across the Atlantic world. But far from ushering in a new age of human rights and universal freedoms, these emancipations further codified the racial caste systems they claimed to disrupt. In this paradigm-altering book, acclaimed historian and professor Kris Manjapra identifies five types of emancipations across the globe and reveals that their perceived failures were not failures at all, but the predictable

outcomes of policies designed first and foremost to preserve the status quo of racial oppression. In the process, Manjapra shows how, amidst this unfinished history, grassroots Black organizers and activists have become custodians of collective recovery and remedy; not only for our present, but also for our relationship with the past. *Black Ghost of Empire* will rewire readers' understanding of the world in which we live. Timely, lucid, and crucial to our understanding of contemporary society, this book shines a light into the gap between the idea of slavery's end and the reality of its continuation—exposing to whom a debt was paid and to whom a debt is owed.

Arts & Crafts Architecture Peter Davey 1997-11-09 A major survey of architects of the Arts and Crafts movement. This major survey gives an incisively critical account of the lives, theories and work of the architects of the Arts and Crafts movement, which began in England and quickly influenced Europe and North America. It highlights the complex contradictions they tried to resolve in accommodating or rejecting the developments of the new machine age, and in meeting the cost of materials and craftsmanship, which forced them to work mainly for a wealthy elite class. This volume shows with enthusiasm and sophistication how the ideas of this fascinating movement influenced the California and Prairie Schools and Art Nouveau, and how it led ultimately to the development of neo-Georgianism and the growth of the machine-worshipping Modern movement after World War I.

The Shadow of Imana Véronique Tadjo 2015-03-04 As evidence emerged of the genocide in Rwanda in 1994, the outside world reeled in shock. What could have motivated these individual and collective acts of evil? In 1998, Véronique Tadjo traveled to Rwanda to try to find out. She started with the premise that what happened in Rwanda concerns us all: "We need to understand. Our humanity is in peril." *The Shadow of Imana* is a reminder that humankind the world over is capable of genocide. Records of what the author saw—sites of massacres, corpses, weapons dumps—are combined with personal stories of traumatized returnees, bereaved survivors, rape victims, orphans, lawyers faced with the impossible task of doing justice, prisoners. But Tadjo's story goes beyond mere reportage of death and cruelty. Her poetically wrought account incorporates traditional tales, explores the spiritual legacy of the genocide, and uncovers a healing vitality as well as a commitment to forgiveness. Véronique Tadjo was born in Paris and grew up in Côte d'Ivoire. *The Shadow of Imana* has been translated from the French by Véronique Wakerley.

Exhibit A Guy Bourdin 2001 Guy Bourdin, who died in 1991, was a legend in the world of fashion photography. He was the most radical and audacious photographer of his generation but his reputation has been surrounded in secrecy - he rarely allowed his photographs to appear outside the pages of French Vogue. No book of his work has previously been published. His estate was frozen by the courts until 1997, after which his son, Samuel, gained control of his work as a result of which this long-awaited book can be published. Bourdin was originally a painter and a friend of Man Ray. His fashion photographs began to incorporate his surrealist influences. Fashion photography became an arena for his personal obsessions. The results are as shocking and astonishing as any commercial photograph ever published. They were executed meticulously. Despite his intense eroticism, subversion and, as Cecil Beaton described, 'his grotesque little gamines', Beaton referred to him in 1975 as 'unquestionably the most interesting fashion photographer in Paris today'. His work was said to have represented 'the look of an era -glamorous, hard-edged, cleverly spiced with vulgarity.. .rich with implied narratives and strong erotic undercurrents'

The Bible and Sexual Violence Against Men Chris Greenough 2020-10-23 At least 1 in 6 men have experienced some form of sexual violence. *The Bible and Sexual Violence Against Men* argues that the shame and stigma around male sexual abuse are interwoven with contemporary social and cultural concepts of masculinity, and are also found in the ancient world and biblical texts themselves. This book is interdisciplinary and has three main areas of exploration: #MenToo? Exploring the myths around

sexual violence against men Sexual violence against men in the Hebrew Bible Reading Jesus' enforced nudity at the crucifixion as sexual violence. Given the enduring importance of the Bible in contemporary society, this book explores the biblical texts that depict sexual violence against men.
