Thirteen years later, able finally to revisit a diary written at the time, Streeten begins translating her notes into a graphic novel. The result, a retrospective reflection from a 'healed' perspective and gut wrenchingly sad at moments, is an unforgettable portrayal of trauma and our reaction to it - and, especially, the humour or absurdity so often involved in our responses. As Streeten's story unfolds and we follow her and her partner's heroic efforts to cope with well-meaning friends and day-to-day realities, we begin to understand what she

means by her aim to create a 'dead baby story that is funny'.

We can hide, we can place our heart in a bottle and grow up . . . or we can find another special someone who understands the magic. And, in a core series of pieces, the central calamity of his life: the sudden death from meningitis of his eighteen-year-old son. 'Rather you than me' said one of the neighbours on hearing the news - a remark that Rosen records, as he does much else to do with the death, with a surprised, painful honesty which constantly brings the reader up short. Unflinching, totally lacking in mawkishness and self-pity, *Carrying the Elephant* is a triumph of imagination and curiosity.
