The Velvet Underground Sean Albiez 2022-09-08 Though The Velvet Underground were critically and commercially unsuccessful in their time, in ensuing decades they have become a constant touchstone in art rock, punk, post-punk, indie, avant pop and alternative rock. In the 1970s and 80s Lou Reed, John Cale and Nico produced a number of works that traveled a path between art and pop. In 1993 the original band members of Reed, Cale, Morrison and Tucker briefly reunited for live appearances, and afterwards Reed, Cale and briefly Tucker, continued to produce music that travelled the idiosyncratic path begun in New York in the mid-1960s. The influence of the band and band members, mediated and promoted through famous fans such as David Bowie and Brian Eno, seems only to have expanded since the late 1960s. In 1996 the Velvet Underground were inducted into the Rock and Roll Hall of Fame, demonstrating how far the band had traveled in 30 years from an avant-garde cult to the mainstream recognition of their key contributions to popular music. In these collected essays, Pattie and Albiez present the first academic book-length collection on The Velvet Underground. The book covers a range of topics including the band's relationship to US literature, to youth and cultural movements of the 1960s and beyond and to European culture - and examines these contexts from the 1960s through to the present day.

Social Work in Europe Charlotte Williams 2013-09-13 It is an acknowledged if not accepted fact that all European societies are being fundamentally transformed, and indeed perceptively unsettled, by increased migrations across nations and by the asserted presence of established minorities within their borders. The scale and speed at which these transformations have taken place have brought in their wake considerable social impacts and no small measure of fear and anxiety. Encounters with such diversity are part and parcel of the social work task, and learning how to negotiate them should be a de facto aspect of the training and continuous professional development of social workers and other social professions. However, the moral and political dimensions of the role, scope and nature of the social work task in responding appropriately to these changed and changing realities are rather more contested. This volume addresses many dimensions of the response to issues of race and ethnicity in social work practice in Europe. It extends the debates on inter-cultural and race equality practice in social work through a stimulating and innovative collection of contributions. This book was originally published as a special issue of the European Journal of Social Work.

Encyclopedia of French Film Directors Philippe Rège 2009-12-11 Cinema has been long associated with France, dating back to 1895, when Louis and Auguste Lumi_re screened their works, the first public viewing of films anywhere. Early silent pioneers Georges MZli_s, Alice Guy BlachZ and others followed in the footsteps of the Lumi_re brothers and the tradition of important filmmaking continued throughout the 20th century and beyond. In *Encyclopedia of French Film Directors*, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death; information on the individual's education and professional training; and other pertinent details, such as real names (when the filmmaker uses a

pseudonym). The entries also provide complete filmographies, including credits for feature films, shorts, documentaries, and television work. Commander Maryam “May” Knox awakes from a medically induced coma alone, adrift in space on a rapidly failing ship, with little to no memory of who she is or why she’s there. Slowly, she pieces together that she’s the captain of the ship, *Hawking II*; that she was bound for Europa—one of Jupiter’s moons—on a research mission; and that she’s the only survivor of either an accident—or worse, a deliberate massacre—that has decimated her entire crew. With resources running low, and her physical strength severely compromised, May must rely on someone back home to help her. The problem is: everyone thinks she’s dead. Back on Earth, it’s been weeks since *Hawking II* has communicated with NASA, and Dr. Stephen Knox is on bereavement leave to deal with the apparent death of his estranged wife, whose decision to participate in the Europa mission strained their marriage past the point of no return. But when he gets word that NASA has received a transmission from May, Stephen comes rushing to her aid. What he doesn’t know is that not everyone wants May to make it back alive. Even more terrifying: she might not be alone on that ship. Featuring a twisting and suspenseful plot and compelling characters, *Across the Void* is a moving and evocative thriller that you won’t be able to put down.
