In Search of Lost Time by Marcel Proust (Illustrated) Marcel Proust 2021-03-17 No library's complete without the classics! The first volume of Proust's seven-part novel "In Search of Lost Time," also known as "A Remembrance of Things Past," "Swann's Way" is the auspicious beginning of Proust's most prominent work. A mature, unnamed man recalls the details of his commonplace, idyllic existence as a sensitive and intuitive boy in Combray. For a time, the story is narrated through his younger mind in beautiful, almost dream-like prose. In a subsequent section of the volume, the narrator tells of the excruciating romance of his country neighbor, Monsieur Swann. The narrator reverts to his childhood, where he begins a similarly hopeless infatuation with Swann's little daughter, Gilberte. More than this apparently fragmented narrative, however, is the importance of the themes of memory, time, and art that connect and interweave the man's memories. Considered to be one of the twentieth century's major novels, Proust ultimately portrays the volatility of human life in this sweeping contemplation of reality and time. Intelligence is for Commanders Robert Rigby Glass 1948 Centuries ago Sun Tzu wrote ?Know the enemy as you know yourself?. The urgency of this maxim is even

greater today. A commander who boldly determines- without knowledge of the enemy or the battleground- to close tit the doe and destroy him wherever he might be, is like a boxer who is in the ring blindfolded. This book is written primarily for commanders, because intelligence is for commanders. Intelligence is not an academic exercise nor is it an end in itself. The prime purpose of intelligence is to help the commander make a decision, and thereby to proceed more accurately and more confidently with the accomplishment of his mission. Mobile Technologies of the City Mimi Sheller 2006-04-18 Mobile communications technologies are taking off across the world, while urban transportation and surveillance systems are also being rebuilt and updated. Emergent practices of physical, informational and communicational mobility are reconfiguring patterns of movement, co-presence, social exclusion and security across many urban contexts. This book brings together a carefully selected group of innovative case studies of these mobile technologies of the city, tracing the emergence of both new socio-technical practices of the city and of a new theoretical paradigm for mobilities research.

Digital Diaries Natacha Merritt 2004 A new mode of masturbating into the next millennium Anyone who has seen her Digital Diaries has intimate knowledge of Natacha Merritt. And of her friends, male and female, and her acquaintances as well. But Merritt's favourite motif is herself: she poses almost every minute of the day for her camera, taking photographs of herself in bed, in the shower, having sex with her friend, masturbating with and without accessories, from every imaginable angle and with the camera usually at arm's length. Merritt, born 1977, works with a digital camera, the Polaroid of the 90s, breaking down the most intimate details into universally accessible bits of information. Eric Kroll came across Natacha Merritt by chance in the internet, where she had put several of her photographs. This was something that left the tradition of classical pin-up and fetish photography, in which Kroll himself works, far behind it.

Anthropology with an Attitude Johannes Fabian 2001 This book collects published and unpublished work over the last dozen years by one of today's most distinguished and provocative anthropologists. Johannes Fabian is widely known outside of his discipline because his work so often overcomes traditional scholarly boundaries to bring fresh insight to central topics in philosophy, history, and cultural studies. The first part of the book addresses questions of current critical concern: Does it still make sense to search for objectivity in ethnography? What do we gain when we invoke "context" in our interpretations? How does literacy change the work of the ethnographer, and what are the boundaries between ethnology and history? This part ends with a plea for recuperating negativity in our thinking about culture. The second part extends the work of critique into the past by examining the beginning of modern ethnography in the exploration of Central Africa during the late nineteenth century: the justification of a scientific attitude, the collecting of ethnographic objects, the presentation of knowledge in narration, and the role of recognition--given or denied--in encounters with Africans. A final essay examines how the Congolese have returned the "imperial gaze" of Belgium by the work of critical memory in popular history. The ten chapters are framed by two meditations on the relevance of theory and the irrelevance of the millennium.

Frontiers of Citizenship Yuko Miki 2018-02-08 An engaging, innovative history of Brazil's black and indigenous people that redefines our understanding of slavery, citizenship, and national identity. This book focuses on the interconnected histories of black and indigenous people on Brazil's Atlantic frontier, and makes a case for the frontier as a key space that defined the boundaries and limitations of Brazilian citizenship.

RG-742 Coby Ingram "So, ya coming or not?" Slipper was leaning against the shop bay door, chewing on a toothpick. He'd invited Grokka aboard his ship. "It'll be fun," he said. Just a short trip, He was running a load of contraband out to Chunzur, the Orange Planet, and picking a load up. Give her a tour of the ship, and a chance to see what a pirate's job was like. "Besides," he said. "I could really use somebody to take a look at the engines." Off world, that's what he had said. He seemed to feel about this planet the way she felt about her shop. A little hole in the wall in a dark corner of the universe, good for working on engines and storing spare parts, but not nearly as interesting as the world outside. A thrill went through her. No Mokhra had ever been off planet. Especially not her. She did not really want to go. This was her world. She felt safe here. All his talk about yellow suns and year-round summer made her nervous. She wanted to stay in her shop and tune engines. Her idea of adventure was two months' vacation to help with the breadnut harvest. No way. She was not going. "I'll go." She said it quickly, and ran a hand over the engine she was working on. Slipper's engine, for the third sled. Static electricity crackled under her fingers. She didn't look up. "Great," he said, and unfolded his long thin body to a standing position. "See you in the morning." She turned around and squinted through the dim light. He was gone already. "What am I doing?" She shook her head. She hadn't wanted to say yes. But she did. What was it? The thought of a world where long winters and blazing-hot summers didn't force you into the caves? Or was it what Slipper had said? Agriculture and Industry in Brazil Albert Fishlow 2020-08-04 Agriculture and Industry in Brazil is a study of the economics of Brazilian agriculture and industry, with a special focus on the importance of innovation to productivity growth. Albert Fishlow and José Eustáquio Ribeiro Vieira Filho examine technological change in Brazil, highlighting the role of public policy in building institutions and creating an innovation-oriented environment. Fishlow and Vieira Filho tackle the theme of innovation from various angles. They contrast the relationship between state involvement and the private sector in key parts of the Brazilian economy and compare agricultural expansion with growth in the oil and aviation sectors. Fishlow and Vieira Filho argue that modern agriculture is a knowledge-intensive industry and its success in Brazil stems from public institution building. They demonstrate how research has played a key role in productivity growth, showing how prudent innovation policies can leverage knowledge not only within a particular company but also across whole sectors of the economy. The book discusses whether and how Brazil can serve as a model for other middle-income countries eager to achieve higher growth and a more egalitarian distribution of income. An important contribution to comparative, international, and development economics, Agriculture and Industry in Brazil shows how the public success in agriculture became a prototype for advance elsewhere.

The Spectacle of the Races Lilia Moritz Schwarcz 1999-09-08 "Lilia Moritz Schwarcz shows how Brazil's philosophers, politicians, and scientists gratefully accepted social Darwinist ideas about innate racial differences, yet feared the havoc such ideas would have wrought in Brazil. In the end, Brazil's intellectuals could not condemn the miscegenation which had so long been an essential feature of Brazilian society - and which lay at the very heart of the country's new national structures. Schwarcz illustrates how the work of these "men of science" was crucial to Brazil's modernization and to the development of its sense of national destiny."--BOOK JACKET.

Consumers and Citizens Néstor García Canclini 2001 Nestor Garcia Canclini, the best-known and most innovative cultural studies scholar in Latin America, maps the critical effects of urban sprawl, global media, and commodity markets on citizens. The complex results mean not only a shrinkage of certain traditional rights (particularly those of the welfare or client state) but also indicate new openings for expanding citizenship.

Rilke Shake Angélica Freitas 2015 Rilke Shake's title, a pun on milkshake, means in Portuguese just what it does in English. With frenetic humor and linguistic innovation, Angélica Freitas constructs a temple of delight to celebrate her own literary canon. In this whirlwind debut collection, first published in Portuguese in 2007, Gertrude Stein passes gas in her bathtub, a sushi chef cries tears of Suntory Whisky, and Ezra Pound is kept "insane in a cage in pisa." Hilary Kaplan's translation is as contemporary and lyrical as the Portuguese-language original, a considerable feat considering the collection's breakneck pace. WINNER OF THE 2016 BEST TRANSLATED BOOK AWARD! WINNER OF THE 2016 NATIONAL TRANSLATION AWARD! FINALIST FOR THE 2016 PEN POETRY TRANSLATION PRIZE! "No fabled saudade here, but the sound of an ocarina underwater in the Orinoco." --Paul Hoover "Wry, painfully funny and moving, Kaplan's translation captures the formal invention and deadpan beauty of the original perfectly." --Sasha Dugdale

The Brutality of Things Lorena Preta 2019-08-02T00:00:00+02:00 In every psychic experience, even in the production of a work of art, there exists a nucleus that is impossible to transform. It resists any and every action against itself. We are used to dealing with these irreducible and radical othernesses by adapting them to our own way of knowing and our experience. In reality, they make up the ugly material of our living and, hence, of our humanity. We can, however, transform them in some way, without altering their substance, but rather organizing them in different configurations, which generate new forms. Psychoanalysis can aid in this difficult and risky process, providing resilient equipment, much like a sophisticated spacesuit, allowing one to travel the cosmic spaces of psychic life and of human reality without bursting into flames. In the actual world we meet with disorganized and fragmentary conflict, to which psychoanalysis attempts to answer adopting an open, non-defensive procedure, aiming to widen the field of experience rather than reducing it. For this reason, the interweaving of various forms of knowledge is necessary in order to link the diverse aspects and levels of psychic and external reality. The author examines this theme through the psychoanalytic approach, as well as through philosophy, science and art, and using stories based on personal life and clinical experiences.

Psychology and the East C.G. Jung 2018-09-03 'These writings of his are strongly alive; in most instances Jung does not present us with final solutions and last words about any of the great East-West problems, but rather with suggestions for a deeper kind of approach, thus opening up new planes of investigation.' - Journal of Analytical Psychology "My own world of European consciousness had become peculiarly thin... it is quite possible that India is the real world and that the white man lives in a madhouse of abstractions." C.G. Jung was inspired to write these words after his very first visit to India. Long concerned with the hold that myth and archetype had on the human psyche, it was inevitable that the legendary psychoanalyst would turn his attention to Eastern modes of thought. Psychology and the East collects together many of Jung's most memorable writings on the subject, including his Psychological commentaries on the I Ching and The Tibetan Book of the Dead, his thoughts on Buddhism and Islam and a full travelogue of that fateful first encounter with India in 1936.

Trinity and Society Leonardo Boff 2005-04-11 In this book, Brazilian Leonardo Boff, Franciscan priest and professor of theology, joins other contemporary theologians in defending both the truth and the practical value of the doctrine of the Trinity. For Boff, the community of Father, Son, and Holy Spirit is not only the truth about God; it is also the prototype of human community dreamed of by those who wish to improve society, the model for any just, egalitarian (while respecting differences) social organization. Frequently expressing agreement with Moltmann's 'The Trinity and the Kingdom', Boff argues that true and relevant Trinitarian faith must begin not with the oneness, but with the threeness of God; not with theistic speculation about God as the solitary One, but with openness to the self-revelation of God as a community or society of divine persons, who are what they are in their co-existence, co-relatedness, and self-surrender to each other. Boff also suggests how a social doctrine of

the Trinity enables us to overcome the conflict between individualistic capitalism and collectivistic socialism, oppressor and oppressed, male and female, church authorities and church members.
