Telecommunications Law and Regulation takes these changes into account, including an examination of the EU New Regulatory Framework, as well as the establishment of the Body of European Regulators for Electronic Communications (BEREC). There are also new chapters on spectrum management (radio frequencies), and consumer protection rules. The access and interconnection chapter addresses the issues surrounding the high capacity broadband widely provided by Next Generation Networks. The chapter on licensing and authorisation has been refocused to reflect the increasing regulatory focus on the mobile sector.
