The Global Economic Crisis Michel Chossudovsky 2010 In all major regions of the world, the economic recession is deep-seated, resulting in mass unemployment, the collapse of state social programs and the impoverishment of millions of people. The meltdown of financial markets was the result of institutionalized fraud and financial manipulation. The economic crisis is accompanied by a worldwide process of militarization, a "war without borders" led by the U.S. and its NATO allies. This book takes the reader through the corridors of the Federal Reserve, into the plush corporate boardrooms on Wall Street where far-reaching financial transactions are routinely undertaken. Each of the authors in this timely collection digs beneath the gilded surface to reveal a complex web of deceit and media distortion which serves to conceal the workings of the global economic system and its devastating impacts on people's lives.

Queen of the Owls Barbara Linn Probst 2020-04-07 A chance meeting with a charismatic photographer will forever change Elizabeth's life. Until she met Richard, Elizabeth's relationship with Georgia O'Keeffe and her little-known Hawaii paintings was purely academic. Now it's personal. Richard tells Elizabeth that the only way she can truly understand O'Keeffe isn't with her mind—it's by getting into O'Keeffe's skin and reenacting her famous nude photos. In the intimacy of Richard's studio, Elizabeth experiences a new, intoxicating abandon and fullness. It never occurs to her that the photographs might be made public, especially without her consent. Desperate to avoid exposure—she's a rising star in the academic world and the mother of young children—Elizabeth demands that Richard dismantle the exhibit. But he refuses. The pictures are his art. His property, not hers. As word of the photos spreads, Elizabeth unwittingly becomes a feminist heroine to her students, who misunderstand her motives in posing. To the university, however, her actions are a public scandal. To her husband, they're a public humiliation. Yet Richard has reawakened an awareness that's haunted Elizabeth since she was a child—the truth that cerebral knowledge will never be enough. Now she must face the question: How much is she willing to risk to be truly seen and known?

Sleeping with the Enemy Hal Vaughan 2012-08-07 This explosive narrative reveals for the first time the shocking hidden years of Coco Chanel's life: her collaboration with the Nazis in Paris, her affair with a master spy, and her work for the German military intelligence service and Himmler's SS. Gabrielle "Coco" Chanel was the high priestess of couture who created the look of the modern woman. By the 1920s she had amassed a fortune and went on to create an empire. But her life from 1941 to 1954 has long been shrouded in rumor and mystery, never clarified by Chanel or her many biographers. Hal Vaughan exposes the truth of her wartime collaboration and her long affair with the playboy Baron Hans Günther von Dincklage—who ran a spy ring and reported directly to Goebbels. Vaughan pieces together how Chanel became a Nazi agent, how she escaped arrest after the war and joined her lover in exile in Switzerland, and how—despite suspicions about her past—she was able to return to Paris at age seventy and rebuild the iconic House of Chanel.

Learning to Lead Together Janet H. Chrispeels 2004-04-05 Through real-life single and multiple case studies, Learning to Lead Together addresses how principals and their staffs struggle with the challenge of shared leadership, how they encourage teacher growth and development, and how shared leadership can lead to higher levels of student learning. The cases show how shared leadership, a powerful adaptive change, is socially constructed across contexts and evolves as teachers and principals learn how to work together. The book also illustrates how principal preparation and professional development programs that utilize problem-based learning and provide opportunities for genuine collaboration with colleagues can provide school leaders with the skills they need to share leadership and accountability effectively.

Teaching and the Case Method Carl Roland Christensen 1987 Teaching and the Case Method delves into the special role of teacher and students in the case method learning process. Schools that want to use the case method more effectively can use this book to teach groups of faculty how to apply case method techniques. For the first time, too, a book about case method teaching attempts to show how

the method can be applied in a liberal arts setting. A liberal arts module in the book presents an innovative program for instructors who want to experiment with discussion teaching in traditional arts and science areas. The book focuses on a wide range of knotty problems faced by most instructors, experienced or new, creating an opportunity for them to learn from each other. It's main purpose is to provide a rich opportunity for both professional school and liberal arts instructors to develop their own discussion leadership skills, and to further the process of learning for both themselves and their students. Effective Teaching Methods Gary D. Borich 2013-05-22 In a conversational style, this market-leading text shows how to apply effective, realistic, research-based teaching practices in today's heterogeneous classrooms. *Effective Teaching Methods: Research-Based Practice, 8/E*, prepares teachers to meet the many challenges presented by the changing face of the American school and classroom teaching today—and discover the opportunities for professional growth and advancement those changes provide. The content presented is the direct result of years of research and observation of effective teaching practices in actual classrooms. These are the experiences of real teachers in real classroom, showing teachers both what to do to meet today's teaching challenges, and how to do it. The 8th edition provides readers with new coverage of important topics including Multiple Intelligences, professional learning communities, working with parents, and standardized testing. A new chapter on Technology Integration includes information on 21st century learning technologies, why teaching with technology is important, and assessing technology integration as well as its effectiveness.

Ethics in Public Service for the New Millennium Richard Chapman 2019-07-12 This title was first published in 2000: The focus of this analysis is that of moral standards in public service, with special attention to the role(s) of officials. It presents discussion of some of the issues that seem to the contributors to be of pressing importance and that seem to have relevance for public service in the new millennium. It concentrates in particular on public officials, and the constraints imposed on them by the political environment in liberal democracies.

Digital Citizenship Education Handbook Council of Europe 2019-02-26 Digital citizenship competences define how we act and interact online. They comprise the values, attitudes, skills and knowledge and critical understanding necessary to responsibly navigate the constantly evolving digital world, and to shape technology to meet our own needs rather than to be shaped by it. The Digital citizenship education handbook offers information, tools and good practice to support the development of these competences in keeping with the Council of Europe's vocation to empower and protect children, enabling them to live together as equals in today's culturally diverse democratic societies, both on- and offline. The Digital citizenship education handbook is intended for teachers and parents, education decision makers and platform providers alike. It describes in depth the multiple dimensions that make up each of 10 digital citizenship domains, and includes a fact sheet on each domain providing ideas, good practice and further references to support educators in building the competences that will stand children in good stead when they are confronted with the challenges of tomorrow's digital world. The Digital citizenship education handbook is consistent with the Council of Europe's Reference Framework of Competences for Democratic Culture and compatible for use with the Internet literacy handbook.

Reflective Language Teaching Thomas S. C. Farrell 2015-08-28 The need for ongoing teacher development has been a recurring theme in the field of TESOL in recent years. Not everything a language teacher needs to know can be provided at the pre-service level, and the knowledge base of teaching is constantly changing. Based on cutting-edge research illustrated through case studies, this book outlines strategies for professional development through reflective practice in the language classroom. Accessible and comprehensive, the book presupposes no prior knowledge of linguistics or language teaching, and each chapter includes reflective discussion questions to help the reader apply the strategies and procedures discussed. This book will be invaluable to postgraduate students of TESOL and applied linguistics, and in-service language teachers.

The Teaching Internship Linda Darling-Hammond 1990 Using the professional internships of the engineering, psychology, architecture, and medical professions as models, this report proposes standards for teaching internship programs. The internship standards are intended to be embedded in a state's teacher licensing system. As are internships in other professions, teaching internships should be oriented more toward assistance than assessment, more toward enhancing effectiveness than screening. Teaching internships would differ from the current "sink or swim" approach in a number of

ways: (1) the intern would learn by doing and by modeling, (2) the intern would assume progressive degrees of responsibility, (3) the intern would receive regular supervision and guidance from senior teachers, and (4) the intern would be guaranteed a specified range of experience. The standards proposed here address five aspects of the internship program--the educational program, interns, administrative structure, faculty and staffing, and facilities and resources.

The Past in Question Keith Brown 2018-06-05 This book examines the relationship between national history, identity, and politics in twentieth-century Macedonia. It focuses on the reverberating power of events surrounding an armed uprising in August 1903, when a revolutionary organization challenged the forces of the Ottoman Empire by seizing control of the mountain town of Krusevo. A century later, Krusevo is part of the Republic of Macedonia and a site for yearly commemorations of 1903. In the course of the intervening hundred years, various communities have vied to establish an authoritative account of what happened in 1903--and to weave those events into a longer and wider narrative of social, cultural, and national evolution. Keith Brown examines how Krusevo's residents, refugees, and exiles have participated--along with scholars, journalists, artists, bureaucrats, and politicians--in a conversation about their vexed past. By tracing different approaches to understanding, commemorating, and narrating the events of 1903, he shows how in this small mountain town the "magic of nationalism" by which destiny is written into particular historical events has neither failed nor wholly succeeded. Stories of heroism, self-sacrifice, and unity still rub against tales of treachery, score settling, and disaster as people come to terms with the legacies of imperialism, socialism, and nationalism. The efforts of Krusevo's successive generations to transcend a past of intercommunal violence reveal how rival claims to knowledge and truth acquire vital significance during rapid social, economic, and political change.

Being Fair, Faring Better Roberta Gatti 2016-02-05 In Central and Eastern European countries, inequalities for Roma families living in marginalized communities start early and are striking. Some of these inequalities reflect hard-wired family circumstances such as being born in poverty. Others reflect lack of opportunities such as limited access to those basic goods and services that are necessary not only for realizing one's potential in life, but also for living with dignity. Gaps between Roma and non-Roma widen over the lifecycle in a way that reinforces and perpetuates disadvantage and translates into significantly unequal outcomes, despite the fact that Roma report having similar aspirations to those of their non-Roma neighbors. Promoting equal opportunities for disadvantaged Roma is not only an imperative for societies that want to call themselves fair, but it is also a smart economic choice, especially in those countries where populations are aging rapidly. Investing early, with a particular emphasis on supporting healthy and cognitive development for disadvantaged Roma children, is likely to go a long way in promoting fair chances. However, leveling the playing field in childhood is likely not enough: disadvantaged Roma continue being exposed to unequal opportunities at key nodes in their lives, such as when pursuing education or when looking for a job. Therefore, it is as important that a broader set of policies address some of the circumstances in which a large share of Roma children grow up, including access to employment and decent living conditions for their families. Implementing interventions that help overcome these interrelated barriers will require strong ownership at the national level, coordinated policies across different ministries and government levels, and an integrated delivery system that is grounded in approaches that are customized to local conditions and implemented in a participatory manner. Good practices in Europe and elsewhere show that inclusion of the most disadvantaged - including many Roma - is possible and the current programming cycle for European Funds represents a unique opportunity to fund such interventions.

The Last Lecture Randy Pausch 2008-04-08 "We cannot change the cards we are dealt, just how we play the hand."---Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Policies and Practices for Teaching Sociocultural Diversity Anne-Lise Arnesen 2010-01-01 Future teachers require specific training on democratic culture and social cohesion. By focusing on reflective thinking, training can enable them to situate themselves in diverse environments, develop a clearer sense of their ethnic and cultural identities and examine attitudes to different groups. Improving diversity management at school in Europe begins with initial teacher training establishments. This book is designed to provide a basis to help ensure that the needs of future teachers in this regard are met. It puts forward 18 "diversity competences" that were identified by a team of European specialists in teacher training between 2006 and 2009. In order to open up the debate on competences, four consultation sessions were organised in Austria, Bulgaria, Cyprus and Estonia. These sessions provided an opportunity to discuss these competences with key players (civil servants, government representatives, teacher trainers, head teachers, researchers, teachers and students) from a national and topic-based perspective

History Can Bite Denise Bantovato 2016-10-10 The volume provides critical insights into approaches adopted by curricula, textbooks and teachers around the world when teaching about the past in the wake of civil war and mass violence, discerning some of the key challenges and opportunities involved in such endeavors. The contributors discuss ways in which history teaching has acted as a political tool that has, at times, been guilty of exacerbating inter-group conflicts. It also highlights history teaching as an important component of reconciliation attempts, showcasing examples of curricular reform and textbook revision after conflict, and discussing how the contestations and difficulties surrounding such processes were addressed in different post-conflict societies.
