American Indian Basketry Otis Tufton Mason 1988-01-01 The origins of basketry are lost in the mists of prehistory, but making baskets is certainly one of the oldest and most nearly universal crafts of mankind. In the Americas, basket artifacts found in caves in Utah have been dated at 7000 B.C., while twined baskets said to be at least 5,000 years old have been uncovered in Peru. In the American Southwest, an

entire Indian culture (ca. 100–700 A.D.) is known as "Basket Maker" because of the distinctive baskets it produced. This exhaustive survey (two volumes in one) of American Indian basketry, perhaps the finest book ever published on the subject, documents basketmaking throughout the Americas – in Eastern North America, Alaska and the Pacific Northwest, Western Canada, Oregon, California and the Interior Basin, as well as Mexico, Central and South America. Spanning a wide range of indigenous cultures (Aleutian, Tlinkit, Shoshonean, Athapascan, etc.), the detailed, carefully researched discussions in this book offer a wealth of information about woven and coiled basketry, watertight basketry, materials, basketmaking techniques and preparation, ornamentation and symbolism, as well as the uses of baskets as receptacles, in preparing and serving food, for gleaning and milling, in mortuary customs, in religion and social life, in trapping, carrying water, and in many other areas of Indian life. An interesting and informative chapter on collectors and collections and the preservation of baskets, followed by a helpful biography, rounds out the book. In addition, the author, once Curator of Ethnology at the U.S. National Museum (part of the Smithsonian Institution), enhanced this encyclopedic study with over 450 excellent photographs and illustrations. For collectors, preservationists, anthropologists, students of crafts and culture, modern basketmakers, this is an indispensable reference – a massively rich source of information about baskets, the peoples who made them, how they were made, and their role in native American life and culture.

Archaeologists have found traces in digs, more than 7,000 years old in the Middle East, and anywhere where ancient civilizations settled. These vestiges of baskets showed that these people used baskets as the molds for clay cooking pots. That was because the imprint of the basket weave showed clearly on the clay. Plaited basket work has also been found in the Nile Delta some of which date back as early as 8000 BC. Many museums all over the world have a priceless collection of engine basket work usually shown along with ancient and early poetry and the common factor seems to be that baskets have always been made of any material available that is pliable, native, and the design and the type is going to be largely dependent on the availability of the material. The moment anybody talks about a basket you subconsciously associated with bringing home the shopping as these are nearly always used for carrying or holding things. In fact, I would not be surprised if you have one or 2 of these woven examples in your own house in the shape of lobster pots, especially if you are a looking fisherman, potato baskets to hold vegetables, especially if you are a farmer, decorative baskets for crediting a wine bottle, containers to hold flowers and fruit, containers for your table to hold bread rolls, wicker baskets, waste paper baskets, work baskets, lampshades, baby cribs, pet baskets, picnic campers, and houseplant holders... The uses of such baskets are global and infinite bound only by your creativity and imagination! This book is going to tell you all about how you can introduce yourself to this new satisfying craft, and start basket weaving when you have some leisurely time and energy over the weekend. You are definitely not going to be disappointed at the really attractive and soul satisfying final product and who knows, this may be a start of a beautiful new business!

Hopi Basket Weaving Helga Teiwes 2016-12-15 "With the inborn wisdom that has guided them for so long through so many obstacles, Hopi men and women perpetuate their proven rituals, strongly encouraging those who attempt to neglect or disrespect their obligations to uphold them. One of these obligations is to respect the flora and fauna of our planet. The Hopi closeness to the Earth is represented in all the arts of all three mesas, whether in clay or natural fibers. What clay is to a potter's hands, natural fibers are to a basket weaver." —from the Introduction Rising dramatically from the desert floor, Arizona's windswept mesas have been home to the Hopis for hundreds of years. A people known for protecting their privacy, these Native Americans also have a long and less known tradition of weaving baskets and plaques. Generations of Hopi weavers have passed down knowledge of techniques and materials from the plant world around them, from mother to daughter, granddaughter, or niece. This book is filled with photographs and detailed descriptions of their beautiful baskets—the one art, above all others, that creates the strongest social bonds in Hopi life. In these pages, weavers open their lives to the outside world as a means of sharing an art form especially demanding of time and talent. The reader learns how plant materials are gathered in canyons and creek bottoms, close to home and far away. The long, painstaking process of preparation and dying is followed step by step. Then, using techniques of coiled, plaited, or wicker basketry, the weaving begins. Underlying the stories of baskets and their weavers is a rare glimpse of what is called "the Hopi Way," a life philosophy that has strengthened and sustained the Hopi people through centuries of change. Many other glimpses of the Hopi world are also shared by author and photographer Helga Teiwes, who was warmly invited into the homes of her collaborators. Their permission and the permission of the Cultural Preservation Office of the Hopi Tribe gave her access to people and information seldom available to outsiders. Teiwes was also granted access to some of the ceremonial observances where baskets are preeminent. Woven in brilliant reds, greens, and yellows as well as black and white, Hopi weavings, then, not only are an arresting art form but also are highly symbolic of what is most important in Hopi life. In the women's basket dance, for example, woven plaques commemorate and honor the Earth and the perpetuation of life. Other plaques play a role in the complicated web of Hopi social obligation and reciprocity. Living in a landscape of almost surreal form and color, Hopi weavers are carrying on one of the oldest arts traditions in the world. Their stories in *Hopi Basket Weaving* will appeal

to collectors, artists and craftspeople, and anyone with an interest in Native American studies, especially Native American arts. For the traveler or general reader, the book is an invitation to enter a little-known world and to learn more about an art form steeped in meaning and stunning in its beauty.
