Conversations with God, Book 4 Neale Donald Walsch 2018-08-23 We're in Trouble. But There Is Help . . . If We Listen. In the middle of the night on August 2, 2016, Neale Donald Walsch found himself drawn into a new and totally unexpected dialogue with God in which he suddenly faced two questions: Is the human race being offered help by Highly Evolved Beings from Another Dimension? Is there a key role that humans are being invited to play in advancing their own evolution by joining in a mutual mission to assist the planet during the critical times ahead? He was told that the answer to both questions is yes. Then he was given 16 specific examples of how Highly Evolved Beings respond to life differently than humans do--and how adopting even a few of those behaviors could change the course of world history for the better forever. That information makes up the body of this work. A striking invitation to every reader sets the stage for the extraordinary explorations that follow. Picking up where Book 3 in the Conversations with God Trilogy series left off, the revelations about Highly Evolved Beings and about how ordinary humans can answer the call to help awaken the species on Earth will breathtakingly expand your view of both your personal and your

collective future. Which is exactly what the dialogue was intended to do.

Christina, Book 1: Twins Born as Light Bernadette von Dreien 2019-01-19 Book 1 of the best selling book series about Christina von Dreien – now in English translation: Christina (born 2001) is a young woman from Toggenburg, Switzerland. She was born with greatly expanded consciousness and thus belongs to a new generation of young evolutionary thinkers who recognise, describe and live human existence as a complexity of quantum physics, neuropsychology and spirituality. She has always shown remarkable insight into today's world events and one cannot help but be astonished by her high ethics, her wisdom and inner peace that hint at a new dimension of being human. Without being overchallenged in any way, Christina displays a completely natural handling of a multitude of paranormal gifts such as multi-dimensional perception, aura perception, clairvoyance, telepathy, telekinesis, contact with other levels of existence, animal and plant communication and the like. From birth, she has also been consciously connected to higher dimensional spheres and civilisations of light. A harbinger of a new stage in human evolution, Christina, together with her twin sister Elena, incarnated on Earth to spread light and peace. She says, "The lights are already here, all over the world. It just needs someone to press the 'On' button." The first book tells the story of Christina's extraordinary birth, childhood and youth up to the age of 16, from the perspective of her mother, Bernadette. For Christina, it was a time of becoming accustomed to three-dimensionality, of being trained and tested in order to prepare herself for her life's task. Christina summarises this task with the three core concepts of freedom, truth and love.

Ninth City Burning J. Patrick Black 2016 "We never saw them coming. Entire cities disappeared in the blink of an eye, leaving nothing but dust and rubble. When an alien race came to make Earth theirs, they brought with them a weapon we had no way to fight, a universe-altering force known as thelemity. It seemed nothing could stop it--until we discovered we could wield the power, too. Five hundred years later, the Earth is locked in a grinding war of attrition"--

The Heretical Perspectives of Jan Patocka (1907-1977) Ludger Hagedorn 2018-10-11 This special issue of the *Journal Labyrinth* is dedicated to the philosophy of Jan Patocka. It commemorates not only the 110th anniversary of his birth but also the 40th anniversary of his tragic death in 1977. In that year Patocka became one of the first spokespersons of the civil rights movement Charter 77 - an engagement marked by confrontation with the communist regime, which ultimately cost him his life. The issue's title invokes this double commemoration and alludes to his most famous and most heartily debated book, "Heretical Essays in the Philosophy of History." These essays, written towards the end of his life, in some sense can be seen as the culmination of his inquiries and long-term aspirations in the philosophy of history. Yet, it is by no means unequivocal why the author deemed these six essays to be "heretical."

The God Solution Neale Donald Walsch 2020-12-01 What is needed now is for humanity to agree on the most important topic in human history. We could produce spectacular results if we did so, changing life on Earth for the better - forever. And this is not out of our reach. We could bring an end to anger, violence, disagreements between people and nations, financial hardships, poverty, starvation, and the suffering of millions. We could bring peace, prosperity, security, opportunity, and joy to people around the world. In short, all that humanity has ever hoped for or dreamt of and what we were truly meant to experience could be ours. This could happen virtually overnight. And it could be done with the embracing of a single idea.

Christina, Book 2: The Vision of the Good Bernadette von Dreien 2019-10-01 The second book continues the story again from the perspective of her mother, Bernadette of Christinas development: the end of her school days, the revelation of her life plan and the impressive start of her work in public. Further topics in Book 2 are: the universal rules of life; how to follow our individual soul path and unfold our personal potential; support from our spiritual companions; practical tips for increasing individual and collective vibration frequency; the silent revolution of unconditional love; the importance of grounding for time-change people; the essential link between lateral thinking and spirituality; holistic science and positive technology; four possible consciousness orientation choices; the five-dimensional future of humanity on earth and the approaching golden age. I am here to help human beings to reach a state of expanded consciousness. With an expanded horizon, they will be able to see what is not working properly on this planet today for themselves. Then they can develop new solutions and perspectives in every area of life that will be successful in the long term. But human beings have free will. The decision is theirs alone. (Christina von Dreien) We are all equal in our innermost core. No one is more advanced than anyone else, no light is brighter than any other, and no task in life is more important than any other. We are all divine beings who are experiencing being human, and not human beings who are becoming divine. (Christina von Dreien)

The Awakened Woman Tererai Trent 2017-10-03 Winner of a 2017 NAACP Image Award for Outstanding Literary Work, this moving manifesto "empowers women to access a fearlessness that will enable community progress" (Essence). Through one incredible woman's journey from a small Zimbabwe village to becoming one of the world's most recognizable voices in women's empowerment and education, this book "can help any

woman achieve her full potential” (Kirkus Reviews). Before Tererai Trent landed on Oprah’s stage as her “favorite guest of all time,” she was a woman with a forgotten dream. As a young girl in a cattle-herding village in Zimbabwe, she dreamed of receiving an education but instead was married young and by eighteen, without a high school graduation, she was already a mother of three. Tererai encountered a visiting American woman who assured her that anything was possible, reawakening her sacred dream. Tererai planted her dreams deep in the earth and prayed they would grow. They did, and now not only has she earned her PhD but she has also built schools for girls in Zimbabwe, with funding from Oprah. *The Awakened Woman: A Guide for Remembering & Igniting Your Sacred Dreams* is her accessible, intimate, and evocative guide that teaches nine essential lessons to encourage all women to reexamine their dreams and uncover the power hidden within them—power that can recreate our world for the better. Tererai points out that there is a massive, untapped, global resource in women who have, for one reason or another, set aside their wisdom, their skills, and their dreams in order to take care of the personal business of their lives. Not only is this a type of invisible suffering experienced by countless women, this rich resource is a secret weapon for improving our world. Women have the capacity to inspire, to create, to transform—and Tererai’s call to action “shines as a beacon of hope to women everywhere” (Danica McKellar, actress and New York Times bestselling author).

History of Western Astrology Kocku von Stuckrad 2013-12-31 Astrology numbers among mankind’s oldest sciences. It played a prominent role not only in the advanced civilizations of antiquity but also in the cultural history of Europe. It contributed to the development of the natural sciences, primarily astronomy, physics and chemistry, was an integral element of philosophies and religions and influenced political decisions, some of which had substantial consequences. Kocku von Stuckrad masterfully interweaves the disparate aspects of this often neglected or gingerly approached field and provides a thorough synopsis of a central stream in the European history of science and ideas. Not least, this well organized and highly informative book will serve as a first-class introduction to systems of astrological interpretation. It includes a glossary which defines the most important concepts. A must for all who are interested in astrology today or in historical times, regardless of whether they are searching for relationships between the vault of heaven and the earth. In this first comprehensive history of astrology Kocku von Stuckrad describes how celestial science emerged in Mesopotamia and played a significant role in ancient Egypt. Over the course of antiquity, the Middle Ages and the Renaissance, knowledge of the course of planets and stars grew more sophisticated. The author examines the role of astrology in various philosophical systems and in major religions, and he discusses the new approaches astrology took in modern times after its legitimacy increasingly came under fire.
