The Zoological Record 1911 Indexes the world's zoological and animal science
literature, covering all research from biochemistry to veterinary medicine. The
database provides a collection of references from over 4,500 international
serial publications, plus books, meetings, reviews and other non-serial
literature from over 100 countries. It is the oldest continuing database of
animal biology, indexing literature published from 1864 to the present.
Zoological Record has long been recognized as the "unofficial register" for
taxonomy and systematics, but other topics in animal biology are also covered.
