

Mont Saint Michel And Chartres Penguin Classics

Thank you very much for downloading **mont saint michel and chartres penguin classics**. Maybe you have knowledge that, people have look numerous times for their favorite books like this mont saint michel and chartres penguin classics, but end up in malicious downloads.

Rather than enjoying a good book with a cup of coffee in the afternoon, instead they juggled with some malicious virus inside their computer.

mont saint michel and chartres penguin classics is available in our book collection an online access to it is set as public so you can get it instantly.

Our digital library saves in multiple countries, allowing you to get the most less latency time to download any of our books like this one.

Kindly say, the mont saint michel and chartres penguin classics is universally compatible with any devices to read

The Montefeltro Conspiracy Marcello Simonetta 2008-06-03 A brutal murder, a nefarious plot, a coded letter. After five hundred years, the most notorious mystery of the Renaissance is finally solved. The Italian Renaissance is remembered as much for intrigue as it is for art, with papal politics and infighting among Italy's many city-states providing the grist for Machiavelli's classic work on take-no-prisoners politics, *The Prince*. The attempted assassination of the Medici brothers in the Duomo in Florence in 1478 is one of the best-known examples of the machinations endemic to the age. While the assailants were the Medici's rivals, the Pazzi family, questions have always lingered about who really orchestrated the attack, which has come to be known as the Pazzi Conspiracy. More than five hundred years later, Marcello Simonetta, working in a private archive in Italy, stumbled upon a coded letter written by Federico da Montefeltro, the Duke of Urbino, to Pope Sixtus IV. Using a codebook written by his own ancestor to crack its secrets, Simonetta unearthed proof of an all-out power grab by the Pope for control of Florence. Montefeltro, long believed to be a close friend of Lorenzo de Medici, was in fact conspiring with the Pope to unseat the Medici and put the more malleable Pazzi in their place. In *The Montefeltro Conspiracy*, Simonetta unravels this plot, showing not only how the plot came together but how its failure (only one of the Medici brothers, Giuliano, was killed; Lorenzo survived) changed the course of Italian and papal history for generations. In the course of his gripping narrative, we encounter the period's most colorful characters, relive its tumultuous politics, and discover that two famous paintings, including one in the Sistine Chapel, contain the Medici's astounding revenge.

Pilgrimage Derry Brabbs 2017-10-26 Ten great historic pilgrim routes of Western Europe, inspiration for today's long distance walker. Pilgrimage in Europe is thriving on a massive scale. This century the cathedral at Santiago de Compostela alone has seen 40 times the number of pilgrim visits. Author Derry Brabbs' previous book, *Roads to Santiago*, focused exclusively on the 'camino' through France and Spain to Santiago de Compostela; *Pilgrimage* revisits this classic route, and nine other inspirational journeys across Europe. Whether you're truly making a pilgrimage, exploring the world, or simply hiking, *Pilgrimage* will lead you along deeply historical routes like the 'Jakobsweg' in Germany, between Cologne and Trier. You'll find great walks in Britain and France, like St. Cuthbert's Way which winds around the Scottish Borders to the holy island of Lindisfarne, and the World Heritage Site of Mont-St-

Michel built on the tiny island off the coast of Normandy. The most notable addition to the rejuvenated era of pilgrimage is the Via Francigena, now a very well established path through Switzerland and Italy. The Italian section begins on the bleak summit of the Great St Bernard Pass where a hospice still caters to the needs of passing pilgrims before heading down to Rome through some of Italy's most beguiling countryside interspersed with medieval hilltop towns and villages. Astounding photographs combine with an absorbing text that describes the history and key features of each route, as well as brief details of the distances and the number of days it takes to walk, and a list of websites to help plan your journey.

Democracy Henry Adams 1925

Sacred Power, Sacred Space Jeanne Halgren Kilde 2008-07-21 Jeanne Halgren Kilde's survey of church architecture is unlike any other. Her main concern is not the buildings themselves, but rather the dynamic character of Christianity and how church buildings shape and influence the religion. Kilde argues that a primary function of church buildings is to represent and reify three different types of power: divine power, or ideas about God; personal empowerment as manifested in the individual's perceived relationship to the divine; and social power, meaning the relationships between groups such as clergy and laity. Each type intersects with notions of Christian creed, cult, and code, and is represented spatially and materially in church buildings. Kilde explores these categories chronologically, from the early church to the twentieth century. She considers the form, organization, and use of worship rooms; the location of churches; and the interaction between churches and the wider culture. Church buildings have been integral to Christianity, and Kilde's important study sheds new light on the way they impact all aspects of the religion. Neither mere witnesses to transformations of religious thought or nor simple backgrounds for religious practice, church buildings are, in Kilde's view, dynamic participants in religious change and goldmines of information on Christianity itself.

The Civilization of the Renaissance in Italy Jacob Burckhardt 2012-03-07 A distinguished scholar explores innovations in art and attitudes in this classic of cultural history. It chronicles the revival of humanism, church/empire conflicts, and the rise of modern government and individualism.

Storied Places Virginia Reinburg 2019-04-30 Pilgrim shrines were places of healing, holiness, and truth in early modern France. This book explains how this came about.

The History and Topography of Ireland Gerald of Wales 2006-06-29 Gerald of Wales was among the most dynamic and fascinating churchmen of the twelfth century. A member of one of the leading Norman families involved in the invasion of Ireland, he first visited there in 1183 and later returned in the entourage of Henry II. The resulting *Topographia Hiberniae* is an extraordinary account of his travels. Here he describes landscapes, fish, birds and animals; recounts the history of Ireland's rulers; and tells fantastical stories of magic wells and deadly whirlpools, strange creatures and evil spirits. Written from the point of view of an invader and reformer, this work has been rightly criticized for its portrait of a primitive land, yet it is also one of the most important sources for what is known of Ireland during the Middle Ages.

Girl in a Green Gown Carola Hicks 2012-09 Pág. web del editor: "The Arnolfini portrait, painted by Jan van Eyck in 1434, is one of the world's most famous paintings. It intrigues all who see it. Scholars and the public alike have puzzled over the meaning of this haunting gem of medieval art, a subtle and beautiful double portrait of a wealthy Bruges merchant and his wife. The enigmatic couple seem to be conveying a message to us across the centuries, but what? Is the painting the celebration of marriage or pregnancy, a memorial to a wife who died in childbirth, a fashion statement or a status symbol? Using

her acclaimed forensic skills as an art historian, Carola Hicks set out to decode the mystery, uncovering a few surprises along the way. She also tells the fascinating story of the painting's survival through fires, battles, hazardous sea journeys, and its role as a mirror reflecting the culture and history of the time - from jewel of the Hapsburg empire to Napoleonic war trophy. Uniquely, for a masterpiece this old, it can be tracked through every single owner, from the mysterious Mr Arnolfini via various monarchs to a hard-up Waterloo war hero, until it finally came to rest in 1842 as an early star of the National Gallery. These owners, too, have cameo parts in this enthralling story of how an artwork of genius can speak afresh to each new generation."

London Under Peter Ackroyd 2011-11-01 In this vividly descriptive short study, Peter Ackroyd tunnels down through the geological layers of London, meeting the creatures that dwell in darkness and excavating the lore and mythology beneath the surface. There is a Bronze Age trackway below the Isle of Dogs, Anglo-Saxon graves rest under St. Pauls, and the monastery of Whitefriars lies beneath Fleet Street. To go under London is to penetrate history, and Ackroyd's book is filled with the stories unique to this underworld: the hydraulic device used to lower bodies into the catacombs in Kensal Green cemetery; the door in the plinth of the statue of Boadicea on Westminster Bridge that leads to a huge tunnel packed with cables for gas, water, and telephone; the sulphurous fumes on the Underground's Metropolitan Line. Highly imaginative and delightfully entertaining, *London Under* is Ackroyd at his best.

Architecture and Modern Literature David A Spurr 2017-05-09 Architecture and Modern Literature explores the representation and interpretation of architectural space in modern literature from the early nineteenth century to the present, with the aim of showing how literary production and architectural construction are related as cultural forms in the historical context of modernity. In addressing this subject, it also examines the larger questions of the relation between literature and architecture and the extent to which these two arts define one another in the social and philosophical contexts of modernity. *Architecture and Modern Literature* will serve as a foundational introduction to the emerging interdisciplinary study of architecture and literature. David Spurr addresses a broad range of material, including literary, critical, and philosophical works in English, French, and German, and proposes a new historical and theoretical overview of this area, in which modern forms of "meaning" in architecture and literature are related to the discourses of being, dwelling, and homelessness.

Novels, Mont Saint Michel, the Education Henry Adams 1983

Victorious Century David Cannadine 2019-02-19 A sweeping history of nineteenth-century Britain by one of the world's most respected historians. "An evocative account . . . [Cannadine] tells his own story persuasively and exceedingly well." —The Wall Street Journal To live in nineteenth-century Britain was to experience an astonishing and unprecedented series of changes. Cities grew vast; there were revolutions in transportation, communication, science, and work—all while a growing religious skepticism rendered the intellectual landscape increasingly unrecognizable. It was an exhilarating time, and as a result, most of the countries in the world that experienced these changes were racked by political and social unrest. Britain, however, maintained a stable polity at home, and as a result it quickly found itself in a position of global leadership. In this major new work, leading historian David Cannadine has created a bold, fascinating new interpretation of nineteenth-century Britain. Britain was a country that saw itself at the summit of the world and, by some measures, this was indeed true. It had become the largest empire in history: its political stability positioned it as the leader of the new global economy and allowed it to construct the largest navy ever built. And yet it was also a society permeated

with doubt, fear, and introspection. Repeatedly, politicians and writers felt themselves to be staring into the abyss and what is seen as an era of irritating self-belief was in fact obsessed with its own fragility, whether as a great power or as a moral force. Victorious Century is a comprehensive and extraordinarily stimulating history--its author catches the relish, humor and staginess of the age, but also the dilemmas faced by Britain's citizens, ones we remain familiar with today.

Rosslyn Chapel Decoded Alan Butler 2012-01-01 Rosslyn Chapel is a deeply enigmatic 15th-century Gothic masterpiece, situated near Edinburgh. Although generally referred to as a 'chapel' and acting as a local parish church these days, Rosslyn is actually much more than either - and in fact most people who have studied the site in detail come to the conclusion that those who created the structure in the 15th century were not, in reality, intent on building a Christian church at all. In fact, nothing at Rosslyn is what it seems. With its overpowering air of mystery, its superlative stone carvings and its strong Templar and Freemasonic connections, Rosslyn represents one of the most absorbing historical puzzles in Britain. The discovery of new evidence by the authors puts a new slant on the motivations of those who decided to create a New Jerusalem in the Scottish Lowlands. The signs pointed the authors to a lost holy relic - the skull of St Matthew the Evangelist, in whose name the chapel is dedicated. There is startling evidence that this skull came to Rosslyn in the early 15th century, brought there by polymath, librarian and all-round genius Sir Gilbert Hay, who also put together a substantial library. What follows is no less than an adventure, using the clues from the lost books to locate St Matthew's skull - now in Washington, DC. The authors also embark on a thorough examination of Rosslyn Chapel's credentials, both a Christian church and as an icon of the impending Renaissance, a reconstruction of King Solomon's Temple and an astronomical observatory - all suffused with ancient beliefs that would have had the chapel's builders burned at the stake if their true motivations had been discovered.

The Renaissance Paul Johnson 2013-10-31 A fresh and vigorous appreciation of the intellectual liberation and artistic triumphs of the Italian Renaissance. The development of the first universities from the 12th century onwards, growing wealth and patronage in certain cities, and above all the invention of printing and cheap paper, provided essential conditions for the Renaissance. And it was in literature and scholarship that it began, in the rebirth of classical culture that loosened the Church's iron grip on visual art. Paul Johnson tells the story, in turn, of Renaissance literature, sculpture, building and painting. Despite the critical importance of inventions outside Italy - printing in Germany and oil painting in Holland - he locates the Renaissance firmly in Italy and in Florence above all, between 1400 and 1560. There are memorable sketches of the key figures - the frugal and shockingly original Donatello, the awesome Michelangelo, the delicacy of Giovanni Bellini. The final part of the book charts the spread and decline of the Renaissance, as the Catholic Church repositioned itself to counter the Reformation which the Renaissance had itself helped to produce.

The Greatest Minds and Ideas of All Time Will Durant 2002-11-07 A wise and witty compendium of the greatest thoughts, greatest minds, and greatest books of all time -- listed in accessible and succinct form -- by one of the world's greatest scholars. From the "Hundred Best Books" to the "Ten Greatest Thinkers" to the "Ten Greatest Poets," here is a concise collection of the world's most significant knowledge. For the better part of a century, Will Durant dwelled upon -- and wrote about -- the most significant eras, individuals, and achievements of human history. His selections have finally been brought together in a single, compact volume. Durant eloquently defends his choices of the greatest minds and ideas, but he also stimulates readers into forming their own opinions, encouraging them to shed their surroundings and biases and enter "The Country of the Mind," a timeless realm where the heroes of our species dwell. From a thinker who always chose to exalt the positive in the human species, *The Greatest Minds and Ideas of All Time* stays true to Durant's optimism. This is a book

containing the absolute best of our heritage, passed on for the benefit of future generations. Filled with Durant's renowned wit, knowledge, and unique ability to explain events and ideas in simple and exciting terms, this is a pocket-size liberal arts and humanist curriculum in one volume.

What Maisie Knew Henry James 1908 An innocent young girl who is caught between her divorced parents attempts to understand life and its injustices.

Mont-Saint-Michel and Chartres Henry Adams 1986-06-03 Mont Saint Michel and Chartres is a record not of a literal journey but of a meditative journey across time and space into the medieval imagination. Using the architecture, sculpture, and stained glass of the two locales as a starting point, Adams breathes life into what others might see merely as monuments of a past civilization. With daring and inventive conceits, Adams looks at the ordinary people, places, and events in the context of the social conventions and systems of thought and belief of the thirteenth century turning the study of history into a kind of theater. As Raymond Carney discusses in his introduction, Adams' freedom from the European traditions of study lends an exuberance—and puckish wit—to his writings. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Education of Henry Adams Henry Adams 1918 A scion of the famous Adams family of American statesmen, historian Henry Adams crafted this well-known autobiographical work, which reflects his constant search for order in a world of chaos. He cast himself as a modern everyman, seeking coherence in a fragmented universe and concluding that his education was inadequate for the demands of modern society.

The Books in My Life Henry Miller 1969 In this unique work, Henry Miller gives an utterly candid and self-revealing account of the reading he did during his formative years.

Mont St Michel Michael Kenna 2008

History of the United States of America During the First Administration of Thomas Jefferson Henry Adams 1889

Mont-Saint-Michel, Montjoie! Regina Creary Molinelli 2020-09-17 In 1415, ten thousand Frenchmen lay dead on the battlefield of Agincourt. Henry V unleashed a savage English assault which devastated nearly all of Medieval France. With a mad king and a people torn by political feuds, France had one hope: Mont-Saint-Michel. Could a monastery of 70 monks, a squire, a cynical knight and an enigmatic damsel save France?

Mont-Saint-Michel and Chartres Henry Adams 1986-06-03 Mont Saint Michel and Chartres is a record not of a literal journey but of a meditative journey across time and space into the medieval imagination. Using the architecture, sculpture, and stained glass of the two locales as a starting point, Adams breathes life into what others might see merely as monuments of a past civilization. With daring and inventive conceits, Adams looks at the ordinary people, places, and events in the context of the social conventions and systems of thought and belief of the thirteenth century turning the study of history into a kind of theater. As Raymond Carney discusses in his introduction, Adams' freedom from

the European traditions of study lends an exuberance—and puckish wit—to his writings. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

England's Magnificent Gardens Roderick Floud 2021 "An altogether different kind of book on English gardens--the first of its kind--a look at the history of England's magnificent gardens as a history of Britain itself, from the 17th century gardens of Charles II to those of Prince Charles' today; how gardens transformed England; what they cost in their time and the billion-dollar industry they created."-Publisher's description.

The Last American Aristocrat David S. Brown 2020-11-24 A “marvelous...compelling” (The New York Times Book Review) biography of literary icon Henry Adams—one of America’s most prominent writers and intellectuals, who witnessed and contributed to the United States’ dramatic transition from a colonial society to a modern nation. Henry Adams is perhaps the most eclectic, accomplished, and important American writer of his time. His autobiography and modern classic *The Education of Henry Adams* was widely considered one of the best English-language nonfiction books of the 20th century. The last member of his distinguished family—after great-grandfather John Adams, and grandfather John Quincy Adams—to gain national attention, he is remembered today as an historian, a political commentator, and a memoirist. Now, historian David Brown sheds light on the brilliant yet under-celebrated life of this major American intellectual. Adams not only lived through the Civil War and the Industrial Revolution but he met Abraham Lincoln, bowed before Queen Victoria, and counted Secretary of State John Hay, Senator Henry Cabot Lodge, and President Theodore Roosevelt as friends and neighbors. His observations of these powerful men and their policies in his private letters provide a penetrating assessment of Gilded Age America on the cusp of the modern era. “Thoroughly researched and gracefully written” (The Wall Street Journal), *The Last American Aristocrat* details Adams’s relationships with his wife (Marian “Clover” Hooper) and, following her suicide, Elizabeth Cameron, the young wife of a senator and part of the famous Sherman clan from Ohio. Henry Adams’s letters—thousands of them—demonstrate his struggles with depression, familial expectations, and reconciling with his unwanted widower’s existence. Offering a fresh window on nineteenth century US history, as well as a more “modern” and “human” Henry Adams than ever before, *The Last American Aristocrat* is a “standout portrait of the man and his era” (Publishers Weekly, starred review).

Henry Adams and the Making of America Garry Wills 2007-08 A profile of nineteenth-century historian Henry Adams assesses his influence on the study of history, discussing his use of archival sources, firsthand reportage, and eyewitness accounts that transformed historical study.

Mont-Saint-Michel and Chartres Henry Adams 2020-12-01 Using architecture, sculpture, culture and history, Adams humanizes the medieval period and provides valuable insight on religious philosophy. *Mont-Saint Michel and Chartres* provides a background and description of the construction of two French landmarks built in the 11th century. The Mont-Saint Michel cathedral was built during a militant time; it was not enough to simply be steadfast in one’s own beliefs, but also to make others believe them. Religious conversion was a form of defense. Mont-Saint Michel was built in a period where faith was aggressive, almost violent, and to accommodate this, Mont-Saint Michel was built in honor of a warrior angel. In contrast, the Chartres cathedral, another French monument built in the Gothic period, was built as a shrine to Mary, the mother of God. Using Mary’s image and inspiration, this church set a

welcoming tone. While the cathedral of Mont-Saint Michel represents a more aggressive side of faith, the cathedral of Chartres is the embodiment of love and peace. In the same way that this contrast exists between the two cathedrals, a similar duality is present in the Christian faith. It is both a safe haven and a weapon wielded by the religious in order to conform others to their faith. Through descriptions and comparisons between Mont-Saint Michel and Chartres, Adams provides thoughtful reflection on both Christianity and the magnificent structures of the Gothic period. Mont-Saint Michel and Chartres by Henry Adams is a subjective and personal view on history written in beautiful prose. With the stories behind two grand French cathedrals, Mont-Saint Michel and Chartres explore themes of Christianity, gender, and medieval culture with eloquent and enlightened discourse on history and the politics within Christianity. Now in a modern, readable font and new, striking cover design, Mont-Saint Michel and Chartres by the prolific American author and philosopher, Henry Adams provides meaningful meditation on the duality of religion and insight on the French Gothic period.

The Family Tree Historical Maps Book - Europe Allison Dolan 2015-04-13 Journey to the Old Country From Ireland to Italy, Portugal to Poland, Germany to Greece, and everywhere in between, explore your ancestors' European homelands through more than 200 gorgeous reproductions of 18th-century maps, 19th-century and early 20th-century maps. These full-color period maps--covering the peak years of European immigration to America--will help you understand changing boundaries in ancestral countries, and inform your search for genealogical records. Inside you'll find: • Historical maps of the European continent showing how national borders evolved over three centuries • Detailed country maps illustrating key geographical units--provinces, counties, regions, cities and more • Time lines of important events in each country's history • Lists of administrative divisions by country for easy reference • A complete index to aid in viewing maps of interest in greater detail online This country-by-country atlas is an indispensable tool for European genealogy. Put your ancestral origins in geographical context, unravel the boundary changes that trip up genealogists, and envision the old country as your ancestors knew it. The book is also a valuable reference for teachers, homeschooling parents and anyone with an interest in European history. Time travel across the continent with the Family Tree Historical Maps Book: Europe.

The Museum of Whales You Will Never See A. Kendra Greene 2020-05-12 "Filled with charming illustrations, this delightful book about Iceland's 265 museums is as quirky and mesmerizing as the country's dreamscape itself." —Forbes Mythic creatures, natural wonders, and the mysterious human impulse to collect are on beguiling display in this poetic tribute to the museums of an otherworldly island nation. Iceland is home to only 330,000 people (roughly the population of Lexington, Kentucky) but more than 265 museums and public collections. They range from the intensely physical, like the Icelandic Phallogical Museum, which collects the penises of every mammal known to exist in Iceland, to the vaporously metaphysical, like the Museum of Icelandic Sorcery and Witchcraft, which poses a particularly Icelandic problem: How to display what can't be seen? In *The Museum of Whales You Will Never See*, A. Kendra Greene is our wise and whimsical guide through this cabinet of curiosities, showing us, in dreamlike anecdotes and more than thirty charming illustrations, how a seemingly random assortment of objects--a stuffed whooper swan, a rubber boot, a shard of obsidian, a chastity belt for rams--can map a people's past and future, their fears and obsessions. "The world is chockablock with untold wonders," she writes, "there for the taking, ready to be uncovered at any moment, if only we keep our eyes open."

Basilica R. A. Scotti 2007-05-29 In this dramatic journey through religious and artistic history, R. A. Scotti traces the defining event of a glorious epoch: the building of St. Peter's Basilica. Begun by the ferociously ambitious Pope Julius II in 1506, the endeavor would span two tumultuous centuries,

challenge the greatest Renaissance masters—Michelangelo, Raphael, and Bramante—and enrage Martin Luther. By the time it was completed, Shakespeare had written all of his plays, the Mayflower had reached Plymouth—and Rome had risen with its astounding basilica to become Europe's holy metropolis. A dazzling portrait of human achievement and excess, *Basilica* is a triumph of historical writing.

The Fourth Genre Robert L. Root 2002 *The Fourth Genre: Contemporary Writers of/on Creative Nonfiction, 2/e* is a comprehensive and indispensable introduction and guide to the way creative nonfiction is written today. The selections represent a wide range of contemporary creative nonfiction, including examples in essay, memoir, literary journalism, and cultural criticism. These readings establish a thorough grounding in the nature of the genre and provide excellent models for writing. The articles about nonfiction forms, issues, and writing strategies in Part II, mostly written by authors whose work appears in Part I, give readers an inside view of the writers' creative processes. Part III consists of essays and memoirs paired with articles by their authors discussing the essays' creation and the writers' methods and strategies. Introductions to each part provide an overview of that section, preparing readers for the selections to come. Two alternative tables of contents organize the readings by subgenres and approaches, connecting the three distinctive sections of the book. For anyone interested in writing creative non-fiction.

The Cult of the Black Virgin Ean Begg 2017-01-01

The Keys of the Kingdom A J Cronin 2016-02-01 *The Keys of the Kingdom* is the unforgettable story of the Reverend Francis Chisholm and his fight against the snares of the world he has given up . . . his forbidden attraction to women . . . his struggle with his superiors... One of Cronin's most famous characters, he strives for humility and strength to follow the path he sees as the true one for himself and the Church. From the pen of the author of *The Citadel*, *Hatter's Castle*, *The Stars Look Down*, *Shannon's Way* and *The Spanish Gardener* comes this compelling tale of an ordinary man of the people.

Vanished Kingdoms Norman Davies 2012-01-05 An evocative account of fourteen European kingdoms—their rise, maturity, and eventual disappearance. There is something profoundly romantic about lost civilizations. Europe's past is littered with states and kingdoms, large and small, that are scarcely remembered today, and while their names may be unfamiliar—Aragon, Etruria, the Kingdom of the Two Burgundies—their stories should change our mental map of the past. We come across forgotten characters and famous ones—King Arthur and Macbeth, Napoleon and Queen Victoria, right up to Stalin and Gorbachev—and discover how faulty memory can be, and how much we can glean from these lost empires. Davies peers through the cracks in the mainstream accounts of modern-day states to dazzle us with extraordinary stories of barely remembered pasts, and of the traces they left behind. This is Norman Davies at his best: sweeping narrative history packed with unexpected insights. *Vanished Kingdoms* will appeal to all fans of unconventional and thought-provoking history, from readers of Niall Ferguson to Jared Diamond.

Standing in the Spaces Philip M. Bromberg 2014-03-05 Early in these essays, Bromberg contemplates how one might engage schizoid detachment within an interpersonal perspective. To his surprise, he finds that the road to the patient's disavowed experiences most frequently passes through the analyst's internal conversation, as multiple configurations of self-other interaction, previously dissociated, are set loose first in the analyst and then played out in the interpersonal field. This insight leads to other discoveries. Beneath the dissociative structures seen in schizoid patients, and also in other personality disorders, Bromberg regularly finds traumatic experience -- even in patients not otherwise viewed as

traumatized. This discovery allows interpersonal notions of psychic structure to emerge in a new light, as Bromberg arrives at the view that all severe character pathology masks dissociative defenses erected to ward off the internal experience of trauma and to keep the external world at bay to avoid retraumatization. These insights, in turn, open to a new understanding of dissociative processes as intrinsic to the therapeutic process per se. For Bromberg, it is the unanticipated eruption of the patient's relational world, with its push-pull impact on the analyst's effort to maintain a therapeutic stance, that makes possible the deepest and most therapeutically fruitful type of analytic experience. Bromberg's essays are delightfully unpredictable, as they strive to keep the reader continually abreast of how words can and cannot capture the subtle shifts in relatedness that characterize the clinical process. Indeed, at times Bromberg's writing seems vividly to recreate the alternating states of mind of the relational analyst at work. Stirring evocative in character and radiating clinical wisdom infused with compassion and wit, *Standing in the Spaces* is a classic destined to be read and reread by analysts and therapists for decades to come.

Madness and Civilization Michel Foucault 2013-01-30 Michel Foucault examines the archeology of madness in the West from 1500 to 1800 - from the late Middle Ages, when insanity was still considered part of everyday life and fools and lunatics walked the streets freely, to the time when such people began to be considered a threat, asylums were first built, and walls were erected between the "insane" and the rest of humanity.

The LEGO Architect Tom Alphin 2015-09-01 Travel through the history of architecture in *The LEGO Architect*. You'll learn about styles like Art Deco, Modernism, and High-Tech, and find inspiration in galleries of LEGO models. Then take your turn building 12 models in a variety of styles. Snap together some bricks and learn architecture the fun way!

The Ugly Renaissance Alexander Lee 2014-10-07 A fascinating and counterintuitive portrait of the sordid, hidden world behind the dazzling artwork of Michelangelo, Leonardo da Vinci, Botticelli, and more. Renowned as a period of cultural rebirth and artistic innovation, the Renaissance is cloaked in a unique aura of beauty and brilliance. Its very name conjures up awe-inspiring images of an age of lofty ideals in which life imitated the fantastic artworks for which it has become famous. But behind the vast explosion of new art and culture lurked a seamy, vicious world of power politics, perversity, and corruption that has more in common with the present day than anyone dares to admit. In this lively and meticulously researched portrait, Renaissance scholar Alexander Lee illuminates the dark and titillating contradictions that were hidden beneath the surface of the period's best-known artworks. Rife with tales of scheming bankers, greedy politicians, sex-crazed priests, bloody rivalries, vicious intolerance, rampant disease, and lives of extravagance and excess, this gripping exploration of the underbelly of Renaissance Italy shows that, far from being the product of high-minded ideals, the sublime monuments of the Renaissance were created by flawed and tormented artists who lived in an ever-expanding world of inequality, dark sexuality, bigotry, and hatred. *The Ugly Renaissance* is a delightfully debauched journey through the surprising contradictions of Italy's past and shows that were it not for the profusion of depravity and degradation, history's greatest masterpieces might never have come into being.

The Book in the Cathedral Christopher de Hamel 2020-08-06 From the bestselling author of *Meetings With Remarkable Manuscripts*, a captivating account of the last surviving relic of Thomas Becket. The assassination of Thomas Becket in Canterbury Cathedral on 29 December 1170 is one of the most famous events in European history. It inspired the largest pilgrim site in medieval Europe and many works of literature from Chaucer's *Canterbury Tales* to T. S. Eliot's *Murder in the Cathedral* and Anouilh's *Becket*. In a brilliant piece of historical detective work, Christopher de Hamel here identifies

the only surviving relic from Becket's shrine: the Anglo-Saxon Psalter which he cherished throughout his time as Archbishop of Canterbury, and which he may even have been holding when he was murdered. Beautifully illustrated and published to coincide with the 850th anniversary of the death of Thomas Becket, this is an exciting rediscovery of one of the most evocative artefacts of medieval England.

Magna Carta David Carpenter 2015-01-15 'David Carpenter deserves to replace Sir James Holt as the standard authority, and an unfailingly readable one too.' Ferdinand Mount, TLS 'An invaluable new commentary' Jill Leopore, New Yorker With a new commentary by David Carpenter "No free man shall be seized or imprisoned, or stripped of his rights or possessions, or outlawed or exiled, or deprived of his standing in any other way, nor will we proceed with force against him, or send others to do so, except by the lawful judgment of his equals or by the law of the land." Magna Carta, forced on King John in 1215 by rebellion, is one of the most famous documents in world history. It asserts a fundamental principle: that the ruler is subject to the law. Alongside a new text and translation of the Charter, David Carpenter's commentary draws on new discoveries to give an entirely fresh account of Magna Carta's text, origins, survival and enforcement, showing how it quickly gained a central place in English political life. It also uses Magna Carta as a lens through which to view thirteenth-century society, focusing on women and peasants as well as barons and knights. The book is a landmark in Magna Carta studies. 2015 is the 800th anniversary of Magna Carta's creation - an event which will be marked with exhibitions, commemorations and debates in all the countries over whose constitutions and legal assumptions the shadow of Magna Carta hangs.
