*Moon Child* Simone Maroney 2005-07 The stars at Hanna's birth predict greatness, but she experiences precious little of it as the only girl growing up at an all male Monastery. Everyone there learns the same skills: how to perform basic magic spells and how to access the Memories, a pictorial historical system embedded into the brains of humans by the Ancients, a now defunct race. Even as she studies the Memories, Hanna wonders what could be so great about accessing them. Yet this ability is more exceptional than Hanna believes; most humans have lost the ability to access the Memories. Hanna earns exile for her father and herself when she inadvertently reveals that she knows the secret language of the Priests—a crime normally punishable by death. As Hanna and her father embark on their journey over frighteningly unfamiliar land and sea, searching for a safe place to make their new life, she ruefully longs for the security of the Monastery. Facing seasickness and walking distances greater than she has ever imagined, Hanna's doubts grow that she is bound for anything but despair and banishment. But the stars did speak the Truth. Greatness does await Hanna—if only she can survive being kidnapped, betrayed time and again, and can outrun a flood such as her world has never experienced before.

**AMARIS** Arlene Belmont 2020-06-10 Amaris, the Moon Child is a sequel to the author's first book, Happenstance. This Christmas tale begins with the solitary life of Amaris, the twin brother of St. Nick—aka, Santa Claus. Amaris lives with his mean stepmother, the witch, on top of Mount Hermon by the Sea of Galilee.

When Amaris was twelve years old, he grew feathers. This rather odd condition allows him to fly! Since he needs to molt to grow new feathers, he must live in a very cold climate. Mount Hermon's chilly mountain air is the perfect environment and allows Amaris a place to fly in isolation from the rest of the world. Amaris fears humans as the witch convinced him all human contact is dangerous, and if he were caught, he would be eaten! After the witch's death, Amaris discovers a handwritten note scribbled by the witch explaining how, through trickery, she stole him at birth from his natural parents and that he actually has a twin brother! Alone, abandoned, and isolated, Amaris decides to take a chance and seek his brother, hoping a reunion will bring a sense of belonging. This story takes the reader on a wild journey through the perilous desert, where Amaris encounters desert creatures and a little girl named Ruth. Ruth teaches Amaris not all humans are harmful and even gives him a clue on his twin brother's whereabouts. The story is about redemption. The reader will learn through Amari's trials that although our past does affect us, it does not have to define us. We can rise above our current circumstances and find fulfillment and a place of belonging. Amaris teaches us a brighter tomorrow awaits us if we will let go of our inner fears. We just have to believe.

**Moon Child** Serena Akeroyd 2020-08-24 Eli A goddess told me my child would change the pack. Until it happened, I didn't believe it. Not until I saw it with my own eyes. My woman is a nurturer. She's a bringer of change. A broker of the future. She deals with emotions, sees auras, and glories in the urges of her three alpha mates. To me, she's the saint. But that doesn't make me or my brothers sinners. We were fated to be together, fated to be different. There's nothing sinful in what we have, even if, in the eyes of her family, we're a disgrace. She's Roma. Born and bred. Harkens from a rich culture, as ancient as my own, but with her heritage comes gifts I could never have foreseen. Not just for her, but her siblings as well. Two are dead, the other has yet to be found. But uncovering family secrets is always dangerous without throwing mystical powers into the fray. And these mystical powers? Will change everything. A revolution is underway. We're not prepared for it. We can't be. Are you?

Japanese Fairy Tales Yei Theodora Ozaki 2022-06-09 First published in 1908, 'Japanese Fairy Tales' is a book of beautiful legends and fairy tales of Japan that were collected, translated and retold by the author, Yei Theodora Ozaki, an early translator of Japanese short stories and fairy tales. Her translations have been very popular, and were reprinted hundreds of times after her death. It is a delightful introduction to the culture of Japan through its traditional children's stories. In part, the project was the result of a suggestion made by her friend Andrew Lang, another collector of fairy stories, who printed his stories in the many Colored Fairy Books. They feature animals and humans, creatures normal and fantastical, peasants and kings. They contain 22 tales that include ghouls, goblins and ogres, sea serpents and sea kings, kindly animals and magic birds; demons and dragons; princes and princesses. Some are 'Momotaro', 'The Son of a Peach', 'The Jellyfish and the Monkey',

'The Mirror of Matsuyama', 'The Bamboo Cutter and the Moon Child', 'The Stones of Five Colors and the Empress Jokwa'.

*Vampire Films Around the World* James Aubrey 2020-10-09 Vampires are arguably the most popular and most paradoxical of gothic monsters: life draining yet passionate, feared yet fascinating, dead yet immortal. Vampire content produces exquisitely suspenseful stories that, combined with motion picture filmmaking, reveal much about the cultures that enable vampire film production and the audiences they attract. This collection of essays is generously illustrated and ranges across sixteen cultures on five continents, including the films *Let the Right One In*, *What We Do in the Shadows*, *Cronos*, and *We Are the Night*, among many others. Distinctly different kinds of European vampires have originated in Ireland, Germany, Sweden, and Serbia. North American vampires are represented by films from Mexico, Canada, and the USA. Middle Eastern locations include Tangier, Morocco, and a fictional city in Iran. South Asia has produced Bollywood vampire films, and east Asian vampires are represented by films from Korea, China, and Japan. Some of the most recent vampire movies have come from Australia and New Zealand. These essays also look at vampire films through lenses of gender, post-colonialism, camp, and otherness as well as the evolution of the vampiric character in cinema worldwide, together constituting a mosaic of the cinematic undead.

**Moon-Child** Derek Walcott 2014-06-24 In *Moon-Child*, the poet and playwright Derek Walcott returns to the island of St. Lucia for a lush and vivid tale of spirituality and the supernatural. In this lyrical new work, the crafty Planter (who may or may not be the Devil in disguise) schemes to take over the island for development. Between him and his goal lies the Bouton family, whose ailing matriarch strikes a bargain: if any of her three sons can get the Devil to feel anger and human weakness, the islanders will win the right to spend the rest of their days in wealth and peace. In a fable that reaches from St. Lucia's verdant forests to an explosive ending amid its plantation homes, Walcott has crafted a masterwork rich in flowing language and colorful Creole

patois. With roots in Caribbean folklore and an eye toward the island's postcolonial legacy and complex racial identities, *Moon-Child* marks a remarkable new addition to the canon of one of the world's most prolific Caribbean playwrights.

*Switching on the Moon* 2010 A collection of bedtime poems.
