What about You? Karen Phillips 2009 This book is crammed with questions you've never thought of before. Amazingly, you already know all the right answers. That's because every question on every page is about you. And nobody is a bigger expert on you than you. What About You? features 20 different surveys for tween girls to take and share with friends. Subjects range from food to fashion to friendship to the monumental Love, Crushes, & Stuff. Some of the questions are seriously thought-provoking, some are just plain silly, and all of them center on the most spellbinding subject in the world: you. The book itself is a functional three-ring binder, with a generous notepad of response forms mounted on the inside back cover. Writing on the response forms, not the book pages, means the same survey can be taken over and over again, by you, by your friends, by your family -- basically, anyone who is willing to share too much information. And using the translucent, glittery, bendy pencil makes answering the wacky questions even more fun... like that's even possible.
