**Miss Blaine's Prefect and the Golden Samovar** Olga Wojtas 2018-12-04 A librarian with deceptively dangerous skills is sent back in time to Tzarist Russia in this “laugh-out-loud farce” and homage to Muriel Spark (Publishers Weekly, starred review). Never underestimate a librarian. Comfortable padded and in her middle years, Shona McMonagle may look bookish and harmless, but her education at the Marcia Blaine School for Girls has left her with a deadly expertise in everything from martial arts to quantum physics. It has also left her with a bone-deep loathing for *The Prime of Miss Jean Brodie*, that scurrilous novel that spread scandalous untruths about the finest educational institution in Edinburgh. Shona’s skills, her deceptively mild appearance, and her passionate loyalty make her the perfect recruit for an interesting new project: time travel to Tzarist Russia, prevent a gross miscarriage of romance, and—in any spare time—see to it that only the right people get murdered. It’s a big job, but no task is too daunting for a prefect from Miss Blaine’s. “A delightful addition to the ranks of comic crime.” —The Guardian, UK

*Lethal Pursuit* Will Thomas 2019-11-12 "The true star power comes from its compatibly mismatched leads. Joy to those who discover Mr. Thomas's latest novel this holiday season." —The Wall Street Journal London, 1892—Cyrus Barker is brought into a game of international espionage by the Prime Minister himself in the newest mystery in Will Thomas's beloved series. Private enquiry agents Cyrus Barker and Thomas Llewelyn receive in the mail an unexplained key stamped with the letter Q. Barker, recognizing it for what it is, uses the key to unlock an anonymous door in the alleyway, which opens to an underground tunnel leading to Downing Street. The Prime Minister has a small task for Cyrus Barker. A Foreign Office agent stole a satchel in Eastern Europe, but was then himself murdered at Charing Cross. The satchel contains a document desperately wanted by the German government, but while the agent was killed, the satchel remains in English hands. With a cold war brewing between England and Germany, it's in England's interest to return the document contained in the satchel to its original owners and keep it out of German hands. The document is an unnamed first century gospel; the original owner is the Vatican. And the German government isn't the only group trying to get possession of it. With secret societies, government assassins, political groups, and shadowy figures of all sorts doing everything they can—attacks, murders, counter-attacks, and even massive street battles—to acquire the satchel and its contents, this small task might be beyond even the prodigious talents of Cyrus Barker.

word...humanity did not apply any more. Now in the last volume in the series, Family, a wounded Christie, Kate and Simon....more like equals than a mother and kids...must flee that world to find if there is any place that can be safe for them, any place that they can be a family. In fact, they will shake his view of the world to the core.

festival, when Milo's stable hand Bertie is found dead, that the strange characters appearing in town begin to seem more sinister, and Amory is determined to uncover the killer in the crowd.

*Medical Anthropology* Andrea S. Wiley 2009 Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

Cherringham - Snowblind Neil Richards 2014-07-03 One of the worst blizzards in years hits Cherringham, cutting off the village from the rest of the world. Just outside of town, Broadmead Grange is a struggling retirement home, housed in a gothic mansion behind towering walls. One of the home's residents, poor old Archy, becomes Cherringham's latest victim after he loses himself amongst the snow drifts. Did Archy really just fall victim to the elements, or was there foul play involved? Jack and Sarah take on the case to dig up the truth. Cherringham is a serial novel à la Charles Dickens, with a new mystery thriller released each month. Set in the sleepy English village of Cherringham, the detective series brings together an unlikely sleuthing duo: English web designer Sarah and American ex-cop Jack. Thrilling and deadly - but with a spot of tea - it's like Rosamunde Pilcher meets Inspector Barnaby. Each of the self-contained episodes is a quick read for the morning commute, while waiting for the doctor, or when curling up with a hot cuppa. For fans of Agatha Christie's Miss Marple series, Lilian Jackson Braun's The Cat Who series, Caroline Graham's Midsomer Murders, and the American TV series Murder She Wrote, starring Angela Lansbury. Co-authors Neil Richards (based in the UK) and Matthew Costello (based in the US), are known for their script work on major computer games. The Cherringham crime series is their first fictional transatlantic collaboration.
