Dynamics of Critical Internet Culture (1994-2001) Geert Lovink 2009 This study examines the dynamics of critical Internet culture after the medium opened to a broader audience in the mid 1990s. It is Geert Lovink's PhD thesis, submitted late 2002, written in between his two books on the same topic: Dark Fiber (2002) and My First Recession (2003). The core of the research consists of four case studies of non-profit networks: the Amsterdam community provider, The Digital City (DDS); the early years of the nettime mailinglist community; a history of the European new media arts network Syndicate; and an analysis of the streaming media network Xchange. The research describes the search for sustainable community network models in a climate of hyper growth and increased tensions and conflict concerning moderation and ownership of online communities.

*A Cultural History of the Modern Age Vol. 3* Egon Friedell Volume three of A Cultural History of the Modern Age finishes a journey that begins with Descartes in the first volume and ends with Freud and the psychoanalytical movement in the third volume. Friedell describes the contents of these books as a series of performances, starting with the birth of the man of the Modern Age, followed by flowering of this epoch, and concludes with the death of the Modern Age. This huge landscape provides an intertwining of the material and the cultural, the civil and the military, from the high points of creative flowering in Europe to death and emptiness. The themes convey multiple messages: romanticism and liberalism opens the cultural scene, encased in a movement from The Congress of Vienna and its claims of peaceful co-existence to the Franco-German War. The final segment covers the period from Bismarck's generation to World War I. In each instance, the quotidian life of struggle, racial, religious, and social class is seen through the lens of the mighty figures of the period. The works of the period's great figures are shown in the new light of the human search for symbolism, the search for superman, the rise of individualism and decline of history as a source for knowledge. This third volume is painted in dark colors, a foreboding of the world that was to come, of political extremes, and intellectual exaggerations. The author looks forward to a postmodern Europe in which there is a faint glean of light from the other side. What actually appeared was the glare of Nazism and Communism, each claiming the future.

You're So Dead Ash Parsons 2021-06-15 "Fans of Karen M. McManus and Katie Alender will devour this darkly funny, fast-paced mystery."--SLJ A hilarious Agatha Christie-inspired YA thriller-comedy about three best friends who sneak into an influencers-only festival event (gone wrong), only to discover a killer is in their midst--and they have to uncover the truth and solve the mystery before it's too late. Perfect for fans of One of Us Is Lying and Truly Devious. Plum Winter has always come in second to her sister, the unbelievably cool, famous influencer Peach Winter. And when Peach is invited to an all-expenses-paid trip to a luxurious art-and-music festival for influencers on a private island in the Caribbean, Plum decides it's finally her time to shine. So she intercepts the invite--and asks her two best friends, Sofia and Marlowe, to come along to the fest with her. It'll be a spring break they'll never forget. But when Plum and her friends get to the island, it's not anything like it seemed in the invite. The island is run-down, creepy, and there doesn't even seem to be a festival--it's just seven other quasi-celebrities and influencers, and none of the glitz and glamour she expected. Then people start to die...

**In Search of the Culprit** Lukas Rösli 2021-12-06 Despite various poststructuralist rejections of the idea of a singular author-genius, the question of a textual archetype that can be assigned to a named author is still a common scholarly phantasm. The Romantic idea that an author created a text or even a work autonomously is transferred even to pre-modern literature today. This ignores the fact that the transmission of medieval and early modern literature creates variances that could not be justified by means of singular authorships. The present volume offers new theoretical approaches from English, German, and Scandinavian studies to provide a historically more adequate approach to the question of authorship in premodern literary cultures. Authorship is no longer equated with an extra-textual entity, but is instead considered a narratological, inner- and intertextual function that can be recognized in the retrospectively established beginnings of literature as well as in the medial transformation of texts during the early days of printing. The volume is aimed at interested scholars of all philologies, especially those dealing with the Middle Ages or Early Modern Period.

**Landscape's Revenge** Caio Yurgel 2018-11-05 Landscape, as it appears and is described throughout the works of Bernardo Carvalho and Robert Walser, provides an excellent--yet virtually unexplored--pathway to the authors' literary projects. The landscape functions here as a synthetic and unifying figure that

triggers, at first, through the analysis of its description per se, the main and most evident elements of the authors' works. However, when sustained as a methodological figure beyond the scope of its own description, the landscape soon reveals a darker, far more fascinating and far less explored side of the authors' oeuvres: a vengeful, seemingly defeatist resentment against the status quo, which gives way to the more latent and biting elements of the authors' prose, such as irony, the unheimlich, an anti-heroic agenda, the apocalyptic aesthetics of a disaster-prone fictional world, as well as an understanding of history and literature through the figures of failure and marginality. By drawing from diverse critical traditions from Latin-America and Europe, this comparative text seeks to unravel, in all of its complexity and scope, the fictional stage upon which Walser's and Carvalho's characters narrate, with their dying breath, a world that is slowly undoing itself.

**Hitler's Women** Guido Knopp 2003 In his latest book for Sutton, Guido Knopp turns the spotlight on the leading women of the Third Reich and the role they played in the Nazi regime. To illustrate this theme he has painted vivid pen portraits of six famous women who were all bound up with Hitler's regime: Eva Braun, Hitler's mistress; Magda Goebbels, wife of the Reich Propaganda Minister; Winifred Wagner, grand-daughter of composer Richard Wagner; Leni Riefenstahl, Nazi film director; Zarah Leander, Nazi film star; and the legendary screen goddess Marlene Dietrich. The lives of these women prove how the Nazis envisaged the future of 'German womanhood' and how things looked in reality. Supported by previously unpublished photographs and the words of close friends and colleagues of those portrayed, Knopp brings back to life a generation who, with a few courageous exceptions, succumbed to enticement and violence.

*In My Brother's Shadow* Uwe Timm 2006 Uwe Timm was born in Germany in 1940. Just three years later his brother, Karl-Heinz, who was sixteen years his senior and a sapper in the elite SS Death's Head Division, was killed. His notebook was returned to the family, and the last entry read- 'I close my diary here because I don't see any point in recording the cruel things that sometimes happen.' When Timm decided to write this astonishing memoir, he feared the possibility that his brother's unit had taken part in the shooting of civilians and Jews. Yet he wanted to piece together his brother's experience, and also that of his nation, which once considered the qualities of an SS man so exemplary. As Timm unleashes his memories of this devastating time, he also pinpoints the questions that his parents' generation seemed unable to face, and offers new insights into the impact of the war on ordinary Germans.

*The Terrors of Ice and Darkness* Christoph Ransmayr 1996-05 A brilliant interweaving of journeys and voyages--geographical, historical, psychological-- The Terrors of Ice and Darkness is the riveting account of a narrator obsessed with a certain Josef Mazzini, a young Italian "lost in the arctic winter of 1981" who is himself obsessed with the Imperial Austro-Hungarian North Pole Expedition of 1873: "At first it was nothing more than a game to try to reduce the circumstances of his disappearance to some sort of explanation, any

explanation. But every clue yielded a new unanswered question. Quite involuntarily I found myself taking one step after the other. . . . Cumulus clouds mirrored in a shop window became calving glaciers, patches of old snow in city parks became great floes of ice. The Arctic Ocean lay at my window. Much the same thing must have happened to Mazzini." Painstakingly retracing Mazzini's steps, the narrator simultaneously reconstructs the dramatic and fantastic story of the nineteenth-century journey, using actual letters and diaries of the members of that harrowing expedition. These documents--sometimes surprisingly poetic and moving--combine in the narrator's imagination to evoke as never before the awful beauty of the world's farthest northern reaches. In a novel as crystalline as the polar ice, as penetrating as the arctic cold, Christopher Ransmayr spins an adventure tale both spellbinding and paradoxical in its subversive undermining of conventional notions of heroism and exploration.

**Die Auswirkung von Social Media auf die Gesellschaft. Eine soziologische Betrachtung** Laura Reitz 2022-06-08 Studienarbeit aus dem Jahr 2021 im Fachbereich Soziologie - Medien, Kunst, Musik, Hochschule Fulda, Sprache: Deutsch, Abstract: Das Thema Social Media und dessen Auswirkung auf die Gesellschaft ist nicht neu. Jedoch entwickelt sich das Internet und deren Social Media Plattformen stetig weiter. Neue Plattformen erobern den Markt, Alte verschwinden. Social Media dient zur Selbstdarstellung und bringt Bestätigung durch Likes und Klicks. Je mehr Likes und Klicks, desto mehr Bestätigung bekommt ein Nutzer und das hat auch Einfluss auf den sozialen Status in der Gesellschaft. Mittlerweile kann ein Nutzer auf Social Media Plattformen Geld verdienen - durch Werbung. Der Begriff Influencer taucht auf. Weltweit nutzen 4,4 Milliarden Menschen Social Media Plattformen und im Durchschnitt verbringen sie 144 Minuten pro Tag dort. In Deutschland ist Facebook, Twitter, Xing, Linkes, Instagram, Pinterest, YouTube, WhatsApp und TikTok vertreten. Wenn Menschen so viel Zeit im Internet auf Social Media Plattformen verbringen in der es um Selbstdarstellung geht muss es eine Auswirkung auf die Gesellschaft haben. Ganze Generationen wachsen mit Social Media auf und ihre Stars sind Influencer. Allerdings wird Social Media Plattformen auch für Politische Statements genutzt, für ganze Bewegungen gegen Rassismus, wie Black Life Matter, Skandale bekommen ein mehr Aufmerksamkeit und können durch Social Media schneller verbreitet werden. Menschen können sich einer Gruppe Zugehörig fühlen. All das löst etwas in jedem einzelnen Individuum aus und hat Folgen für die Gesellschaft. In dieser Hausarbeit soll der Fokus auf die Auswirkung der Social Media Plattformen auf die Gesellschaft liegen. Dem nach wird auch die Corona Pandemie im Jahre 2019 eine Rolle spielen, da sie die Social Media Plattformen auf den Kopf gestellt haben. Zunächst beschäftige ich mich mit der Definition von Social Media und kläre die Frage, was Social Media überhaupt ist. Danach soll es um die NutzerInnen gehen, welche Altersgruppe auf welchen Plattformen vertreten sind, dazu schaue ich mir verschiedene Statistiken an. Daraufhin erläutere ich die Veränderung von dem

Internet und definiere das Web 2.0. Dann erkläre ich die Mediensozialisation und was das bedeutet für die Identitätsfindung. Anschließend geht es um die Folgen von der Nutzung der Social Media Plattformen. Zum Schluss schließe ich die Hausarbeit mit einem Fazit ab, indem ich nochmals die Vor und Nachteile abwäge von Social Media.

The Life of August Wilhelm Schlegel, Cosmopolitan of Art and Poetry Roger Paulin 2016-02-01 This is the first full-scale biography, in any language, of a towering figure in German and European Romanticism: August Wilhelm Schlegel whose life, 1767 to 1845, coincided with its inexorable rise. As poet, translator, critic and oriental scholar, Schlegel's extraordinarily diverse interests and writings left a vast intellectual legacy, making him a foundational figure in several branches of knowledge. He was one of the last thinkers in Europe able to practise as well as to theorise, and to attempt to comprehend the nature of culture without being forced to be a narrow specialist. With his brother Friedrich, for example, Schlegel edited the avant-garde Romantic periodical *Athenaeum*; and he produced with his wife Caroline a translation of Shakespeare, the first metrical version into any foreign language. Schlegel's *Lectures on Dramatic Art and Literature* were a defining force for Coleridge and for the French Romantics. But his interests extended to French, Italian, Spanish and Portuguese literature, as well to the Greek and Latin classics, and to Sanskrit. August Wilhelm Schlegel is the first attempt to engage with this totality, to combine an account of Schlegel's life and times with a critical evaluation of his work and its influence. Through the study of one man's rich life, incorporating the most recent scholarship, theoretical approaches, and archival resources, while remaining easily accessible to all readers, Paulin has recovered the intellectual climate of Romanticism in Germany and traced its development into a still-potent international movement. The extraordinarily wide scope and variety of Schlegel's activities have hitherto acted as a barrier to literary scholars, even in Germany. In Roger Paulin, whose career has given him the knowledge and the experience to grapple with such an ambitious project, Schlegel has at last found a worthy exponent.

**Poetic Fragments** Karoline von Günderrode 2016-09-23 Bilingual English-German edition of second collection published by the German poet, dramatist, and philosopher Karoline von Günderrode (1780–1806). The second collection of writings by the German poet, dramatist, and philosopher Karoline von Günderrode (1780–1806), *Poetic Fragments* was published in 1805 under the pseudonym "Tian." Günderrode's work is an unmined source of insight into German Romanticism and Idealism, as well as into the reception of Indian, Persian, and Islamic thought in Europe. Anna C. Ezekiel's introductions highlight the philosophical significance of the texts, demonstrating their radical and original

consideration of the nature of the universe, death, religion, power, and gender roles. The dramas "Hildgund" and "Muhammad, the Prophet of Mecca" are two of Günderröde's most important works for her accounts of agency, recognition, and the status of women. The three poems included in the collection, "Piedro," "The Pilgrims," and "The Kiss in the Dream," represent the wide range of forms in which Günderröde wrote. They reflect themes of erotic longing and union with the divine, and point to her radical reimagining of death. This bilingual English-German edition is the first volume of Günderröde's work to appear in English, and will help unearth this rich, complex, and innovative writer for English readers. Anna C. Ezekiel is an independent scholar living in Singapore.

**The German-Jewish Experience Revisited** Steven E. Aschheim 2015-09-14 In the past decades the "German-Jewish phenomenon" (Derrida) has increasingly attracted the attention of scholars from various fields: Jewish studies, intellectual history, philosophy, literary and cultural studies, critical theory. In all its complex dimensions, the post-enlightenment German-Jewish experience is overwhelmingly regarded as the most quintessential and charged meeting of Jews with the project of modernity. Perhaps for this reason, from the eighteenth century through to our own time it has been the object of intense reflection, of clashing interpretations and appropriations. In both micro and macro case-studies, this volume engages the multiple perspectives as advocated by manifold interested actors, and analyzes their uses, biases and ideological functions over time in different cultural, disciplinary and national contexts. This volume includes both historical treatments of differing German-Jewish understandings of their experience – their relations to their Judaism, general culture and to other Jews – and contemporary reflections and competing interpretations as to how to understand the overall experience of German Jewry.

**Aesthetic Revolutions and Twentieth-Century Avant-Garde Movements** Aleš Erjavec 2015-05-08 This collection examines key aesthetic avant-garde art movements of the twentieth century and their relationships with revolutionary politics. The contributors distinguish aesthetic avant-gardes –whose artists aim to transform society and the ways of sensing the world through political means—from the artistic avant-gardes, which focus on transforming representation. Following the work of philosophers such as Friedrich Schiller and Jacques Rancière, the contributors argue that the aesthetic is inherently political and that aesthetic avant-garde art is essential for political revolution. In addition to analyzing Russian constructivism, surrealism, and Situationist International, the contributors examine Italian futurism's model of integrating art with politics and life, the murals of revolutionary Mexico and Nicaragua, 1960s American art, and the Slovenian art collective NSK's construction of a fictional political state in the 1990s. *Aesthetic Revolutions and Twentieth-Century Avant-Garde Movements* traces the common foundations and goals shared by these disparate arts communities and shows how their art worked towards effecting political and social change. The latter three parts present a comprehensive account of the

history of the Prometheus myth, from Hesiod and Aeschylus to Gide and Kafka. **Strategies of Humor in Post-Unification German Literature, Film, and Other Media** Jill Twark 2011-01-18 The fourteen chapters in this anthology feature original analyses of contemporary German-language literary texts, films, political cartoons, cabaret, and other types of performance. The artworks display a wide spectrum of humor modes, such as irony, satire, the grotesque, Jewish humor, and slapstick, as responses to unification with the accompanying euphoria, but also alienation and dislocation. Kerstin Hensel's Lärchenau, Christoph Hein's Landnahme, and vignette collections by Jakob Hein (Antrag auf ständige Ausreise und andere Mythen der DDR) and Wladimir Kaminer (Es gab keinen Sex im Sozialismus) are interpreted as examples of the grotesque. The popular films Lola rennt, Sonnenallee, Herr Lehmann, NVA, Alles auf Zucker!, and Mein Führer—Die wirklich wahrste Wahrheit über Adolf Hitler are reexamined through the lens of traditional and more recent humor or comic book theories. The contributors focus on how each artwork enriches four prominent postwall German cultural trends: post-unification identity reconstruction, Vergangenheitsbewältigung (including Hitler humor), New German Popular Literature (Christian Kracht's ironic subtexts), and immigrant perspectives (a "third voice" in the East-West binary reflected here pointedly in Eulenspiegel cartoons). To date, no other scholarly work provides as comprehensive an overview of the diverse strategies of humor used in the past two decades in German-speaking countries.

**Mythen und Realitäten des digitalen Zeitalters** Göttrik Wewer 2022-11-03 Die Geschichte des Internets und der digitalen Plattformen wird von vielen Mythen begleitet, die dazu geführt haben, dass die datengetriebenen Geschäftsmodelle, die in der digitalen Ökonomie vorherrschen, von den meisten als alternativlos angesehen werden. Zu diesen Erzählungen gehört, das Internet sei unregulierbar und ein Instrument der Aufklärung und die Sozialen Medien seien soziale Medien. Diese Mythen verschleiern Machtverhältnisse und halten allesamt einem Realitätscheck nicht stand. Das immer wieder zu zeigen, kann zum Nachdenken anregen, wie eine bessere digitale Welt aussehen könnte. In diesem Sinne werden im Buch zwanzig Mythen des digitalen Zeitalters auf ihren Realitätsgehalt hin abgeklopft.

**Ideology and Politics** Martin Seliger 2019-12-06 First published in 1976. Ideology plays an important role in many fields of human activity and has therefore been dealt with directly and indirectly in a vast number of studies, but a generally accepted definition of the term is lacking even in the various branches of social and political science. This book - the first since Mannheim to elaborate a comprehensive theory of ideology - seeks to offer a generally applicable definition, a task which of necessity involves taking issue with the logical and political implications of the conceptions in current use and which

touches on central problems of politics and political science. Professor Seliger's theory is based on an approach and conceptualizations which will appeal both to 'traditionalists' and 'behaviourists' since he gives due weight to both kinds of literature. Indeed, this book reflects throughout a detachment and independence of thought which are refreshing and opens up the way for both theorists and practising politicians to re-examine ideological tenets in the light of actual and feasible policy orientations and embark upon ideological reconstruction.
