Charge! Digby Smith 2007-01-15 One of the leading voices on national-security issues in the US Congress demonstrates how words have been sharp and powerful weapons of victory in this compilation of great military speeches that helped turn the tide of history. Congressman Israel has included speeches that have motivated and mobilized, challenged and comforted. Some were blurted in the heat of combat, others carefully written in places far removed from the brutality of the battlefield, but all will inspire readers with the courage that moved people forward against all odds. This dramatic sweep of military history in the words of history's military leaders serves to reinforce the concept that the pen is mightier than the sword. Congressman Steve Israel represents New York's second district and is a member of the House Appropriations Committee and former member of the Armed Services Committee.

**Forgotten Wars** Włodzimierz Borodziej 2021-03-31 Włodzimierz Borodziej and Maciej Górny set out to salvage the historical memory of the experience of war in the lands between Riga and Skopje, beginning with the two Balkan conflicts of 1912–1913 and ending with the death of Emperor Franz Joseph in 1916. The First World War in the East and South-East of Europe was fought by people from a multitude of different nationalities, most of them dressed in the uniforms of three imperial armies: Russian, German, and Austro-Hungarian. In this first volume of *Forgotten Wars*, the authors chart the origins and outbreak of the First World War, the early battles, and the war's impact on ordinary soldiers and civilians through to the end of the Romanian campaign in December 1916, by which point the Central Powers controlled all of the Balkans except for the Peloponnese. Combining military and social history, the authors make extensive use of eyewitness accounts to describe the traumatic experience that established a region stretching between the Baltic, Adriatic, and Black Seas.

*Schiller: National Poet – Poet of Nations* 2016-08-09 To mark the 200th anniversary of Schiller's death, leading scholars from Germany, Canada, the UK and the USA have contributed to this volume of commemorative essays. These were first presented at a symposium held at the University of Birmingham in June 2005. The essays collected here shed important new light on Schiller's standing as a national and transnational figure, both in his own lifetime and in the two hundred years since his death. Issues explored include: aspects of Schiller's life and work which contributed to the creation of heroic and nationalist myths of the poet during the nineteenth and early twentieth centuries; his activities as man of the theatre and publisher in his own, pre-national context; the (trans-)national dimensions of Schiller's poetic and dramatic achievement in their contemporary context and with reference to later appropriations of national(ist) elements in his work. The contributions to this volume illuminate Schiller's achievements as poet, playwright, thinker and historian, and bring acute insights to bear on both the history of his impact in a variety of contexts and his enduring importance as a point of cultural reference.

**"The City is served Batholomew!" to the American Prison!** William Alexander Patterson, 4th 2010-06-01 UC Berkeley English professor Robert Hass - winner the Pulitzer Prize and the National Book Critics Circle Awards - has written that "Alex Patterson is a very gifted young writer." The book is about how children, in a heavenly state, begin to know the earthly world. How much of an illusion are both. How our vital instincts create these illusions. How our subjectivity reigns upon our lives. The book is a remarkable piece of art. -- Marian Apostol. Professor, Department of Theoretical Physics, Institute of Atomic Physics, Magurele-Bucharest. July, 2009. This essay is not a term paper on prisons in America. Rather, it is a document of personal disclosure. Mr. Patterson has engaged passionately with his American tradition. This is to the degree of an exceptionality that is remarkably exposed in this work. He has wrestled so intensely with America that he has taken to exile in Europe. This is the second exceptionality remarked here. I write criticism of academic physics, and do it with some flair. But Alex addresses a bigger culture and hierarchy, writing with such passion, poetry and structure as to make the third exceptionality of this work. I think that this all amounts to a ponderance worthy of your time. -- Michael J. Burns. October 30, 2009

**The Northern Wars** Robert I. Frost 2014-09-25 This book provides an accessible study of the neglected but highly important series of wars fought for control of the Baltic and Northeastern Europe during the period 1558-1721. It is the first comprehensive history which considers the revolution in military strategy which took place in the battlefields of Eastern Europe. Robert Frost examines the impact of war on the very different social and political systems of Sweden, Denmark, Poland-Lithuania and Russia and he explains why it was Russia that emerged victorious from these wars. Based on extensive primary and secondary research (including much material that is unfamiliar in English) this book makes an important contribution to the debate on military change and political development in early modern Europe.

**Between the Wars 1919-1939** Dr Roy Douglas 2016-02-04 First Published in 1992. 'Between the wars' was the great age of the cartoon character. The adventures of Mickey Mouse, Popeye, and Donald Duck were followed avidly by millions. Even the political leaders of the grim world of the 1920s and 1930s were known to millions as cartoon characters - gawky, bespectacled Woodrow Wilson, the balloon-like Mussolini, and the moustache men Hitler, Stalin, Neville Chamberlain and Ramsay MacDonald. Comic, mordant, and irreverent, political cartoons reveal more about popular concerns in the world of the slump, of rising nationalism and aggression, than either official documents or the work of most journalists. Published in newspapers or magazines with a wide circulation, they 'made sense' to the ordinary reader.

More than half a century on, that sense of immediate identification has been lost, and political cartoons of the period now need detailed explanation. Roy Douglas, author of the acclaimed *The World War: The Cartoonist's Vision*, now applies the same skills to the interwar period. His scope is international, and he has selected his cartoons from many different countries. Douglas covers all the great political and social issues of the period as they revealed themselves through the cartoonist's eyes. His greatest gift is for concise, clear explanation, setting each cartoon into its historical context. Throughout this book it is easy to trace the decay of hope in the 1920s, through the fear of war in the 1930s, to the determination at its end that fascism 'must be stopped'. These cartoons, intended for the man and woman 'in the street', in Europe, North America, in the Soviet Union and in Asia mirror their changing attitudes and beliefs, as their nations shaped up for war.

*War Is a Force that Gives Us Meaning* Chris Hedges 2014-04-08 As a veteran war correspondent, Chris Hedges has survived ambushes in Central America, imprisonment in Sudan, and a beating by Saudi military police. He has seen children murdered for sport in Gaza and petty thugs elevated into war heroes in the Balkans. Hedges, who is also a former divinity student, has seen war at its worst and knows too well that to those who pass through it, war can be exhilarating and even addictive: "It gives us purpose, meaning, a reason for living." Drawing on his own experience and on the literature of combat from Homer to Michael Herr, Hedges shows how war seduces not just those on the front lines but entire societies—corrupting politics, destroying culture, and perverting basic human desires. Mixing hard-nosed realism with profound moral and philosophical insight, *War Is a Force that Gives Us Meaning* is a work of terrible power and redemptive clarity whose truths have never been more necessary.

**Worship Wars in Early Lutheranism** Joseph Herl 2008 How important was music to Martin Luther? Drawing on hundreds of liturgical documents, contemporary accounts of services, books on church music, and other sources, Joseph Herl rewrites the history of music and congregational song in German Lutheran churches. Herl traces the path of music and congregational song in the Lutheran church from the Reformation to 1800, to show how it acquired its reputation as the "singing church." In the centuries after its founding, in a debate that was to have a strong impact on Johann Sebastian Bach and his contemporaries, the Lutheran church was torn over a new style of church music that many found more entertaining than devotional. By the end of the eighteenth century, Lutherans were trying to hold their own against a new secularism, and many members of the clergy favored wholesale revision or even abandonment of the historic liturgy in order to make worship more relevant in contemporary society. Herl paints a vivid picture of these developments, using as a backdrop the gradual transition from a choral to a congregational liturgy. The author eschews the usual analyses of musical repertoire and deals instead with events, people and ideas, drawing readers inside the story and helping them sense what it must have been like to attend a Lutheran church in the sixteenth through eighteenth centuries. Parallel developments in Catholic churches are discussed, as are the rise of organ accompaniment of hymns and questions of musical performance practice. Although written with academic precision, the writing is clear and comprehensible to the nonspecialist, and entertaining anecdotes abound. Appendixes include translations of several important historical documents and a set of tables outlining the Lutheran mass as presented in 172 different liturgical orders. The bibliography includes 400 Lutheran church orders and reports of ecclesiastical visitations read by the author.

**The Acquisition of German Modal Particles** Martina Möllering 2004 Following the rationale that corpora have an important part to play in fostering language awareness, this monograph investigates the use of spoken corpora in the teaching of German as a foreign language. Corpus-based research has had an increasing influence on language teaching pedagogy, with regard to linguistic content as well as to teaching methodology. While the majority of studies reporting on corpus-based teaching approaches refer to English, only a small number of studies have discussed such an approach for German. In this study, the exploitation of language corpora is proposed in order to arrive at authentic teaching materials which facilitate the comprehension of German modal particles, which pose numerous problems for learners of German as a foreign language. The approach is twofold: first, the frequency of those word

forms which may function as modal particles is established. Secondly, concordance data of the more frequently occurring particles are analysed qualitatively. Teaching materials based on these analyses are developed referring to patterns of use which can be relayed to language learners in order to provide them with tools for the decoding of particle meaning.

**German Grammar: Reviewed and Retold** Ulf Schütze 2021-11-29 German Grammar: Reviewed and Retold is a user-friendly grammar/workbook designed to give German learners a great basis to build an in-depth knowledge of spoken and written German. Bridging the gap between grammar, storytelling, and culture, learners of the German language discover Germany's cultural history as well as life in Germany today, while absorbing grammatical structures through reading and practice. This grammar is based on recent Second Language Acquisition (SLA) research and word frequency, to embed vocabulary and grammar into a language-specific cultural context. A key component of this approach is consistency and relevance, enabling students to apply grammatical structures to their language learning, as well as talking about the past, present, and future. Aimed at ACTFL levels Novice (all) to Intermediate (middle)/CEFR A1 to B1, this is the perfect grammar for post-beginners, combining storytelling with grammar acquisition.
