Democratic Republic of São Tomé And Príncipe International Monetary Fund. African Dept. 2020-04-29 This paper presents São Tomé and Príncipe's Request for Disbursement Under the Rapid Credit Facility (RCF). The authorities of São Tomé and Príncipe have moved swiftly to develop a plan to address the major challenges posed by the coronavirus disease 2019 pandemic. The authorities plan to increase well-targeted health and social spending to assist the most vulnerable, support the unemployed, incentivize private businesses to retain workers, and enhance fiscal transparency and good governance. These steps would help cushion the economic impact while ensuring that public funds are spent appropriately. Prudent loan restructuring while maintaining prudential standards will help alleviate liquidity pressures and safeguard financial stability. The authorities' policies focus on immediate measures to protect against the virus, assistance to the most vulnerable, and countercyclical measures during this crisis. Public financial management will be reinforced to ensure the disbursement is used appropriately and steps will be taken to speed up the recovery next year. The IMF staff assesses that the eligibility requirements for the RCF are met and supports the authorities' request. While the country is in debt distress due to long-standing external arrears, the debt level is deemed sustainable, and there is adequate capacity to repay the IMF. The financing would help prevent a much more severe and prolonged contraction, with a substantial social impact.

Social Institutions and Gender Index SIGI 2019 Global Report Transforming Challenges into Opportunities OECD 2019-03-08 Over the past decade, the Social Institutions and Gender Index (SIGI) has consistently shown that governments need to look at discriminatory laws, social norms and practices to achieve gender equality and promote women's empowerment. This 2019 global report provides an overview of the main outcomes of the SIGI in relation to women and the family, their physical integrity, access to productive and financial resources and their civic rights.

Credit Facility Arrangement and Financing Assurances Review-Press Release; Staff Report; and Statement by the Executive Director International Monetary Fund. African Dept. 2021-09-08 São Tomé and Príncipe has maintained macroeconomic stability in the period since the previous ECF review (February 2021). International support and the authorities' swift actions helped mitigate the impact of the pandemic so far. Growth is estimated at 3 percent in 2020, supported by externally-financed spending. Growth is projected to slow to 2 percent in 2021, reflecting delays in the return of tourists, and to strengthen to 3 percent in 2022. The economic outlook is subject to high uncertainty and downside risks, notably the evolution of the pandemic.

Democratic Republic of São Tomé International Monetary Fund. African Dept. 2021-03-03 The COVID-19 pandemic is having a severe impact on São Tomé and Príncipe's economy, exacerbating fiscal and external imbalances. Tourism activities and external remittances dropped sharply, while lockdown measures further deepened the recession. The authorities' swift actions and unprecedented international financial support are helping the country weather the emergency. The economy began to reopen in the fall, but the outlook for 2021 remains challenging and subject to significant uncertainty.

Sustainability, growth, and poverty alleviation Stephen A. Vosti 2007-01-01 Developing countries are under pressure to produce more food for their growing populations, conserve natural resources, and reduce poverty. In the short term, however, these goals may compete with one another. This book focuses on the interactions between agricultural growth and environment and between environment and poverty. The chapters analyze and illustrate these interactions with case study evidence from the developing world in general and from specific agroclimatic zones in Africa, Asia, and Latin America. The contributors also discuss what these links mean for development policies, agricultural technologies, and social and economic institutions. With a clearer picture of how these goals interact, policymakers and researchers can design strategies for working more effectively to meet them.

Delivering on Debt Relief Nancy Birdsall 2002-04-17 This study brings readers up to date on the complicated and controversial subject of debt relief for the poorest countries of the world. What has actually been achieved? Has debt relief provided truly additional resources to fight poverty? How will the design and timing of the "enhanced Heavily Indebted Poor Country (HIPC) initiative" affect the development prospects of the world's poorest countries and their people? The study then moves on to address several broader policy questions: Is debt relief a step toward more efficient and equitable government spending, building better institutions, and attracting productive private investment in the poorest countries? Who pays for debt relief? Is there a case for further relief? Most important, how can the case for debt relief be sustained in a broader effort to combat poverty in the poorest countries?

pandemic exacerbated long-standing socio-economic vulnerabilities, which were further compounded by persistent energy shortages and damages from the floods in end-2021. Growth declined in 2021 with power outages, while a targeted expansion of the cash transfer and food support programs provided needed relief to the most vulnerable. Strong grant financing remains critical for mitigating the impact of the pandemic. Vaccinations are proceeding, although the new COVID-19 variants pose risks for protracting the impact of the pandemic and require renewed actions to mitigate those risks. Parliamentary elections are expected in October 2022.
