Indian Architectural Theory and Practice Vibhuti Chakrabarti 2013-01-11 In this ground-breaking study the traditional Indian science of architecture and house-building, Vastu Vidya, is explored in terms of its secular uses, at the levels of both theory and contemporary practice. Vastu Vidya is treated as constituting a coherent and complete architectural programme, still of great relevance today. Chakrabarti draws on an impressive amount of textual material, much of it only available in Sanskrit, and presents several extremely valuable illustrations in support of the theories expounded. Each chapter deals with one architectural aspect, and chapters are divided into three sections. For each aspect, the first section explains the prescriptions of the traditional texts; the second section deals with the rather arbitrary use of that aspect by contemporary Indian architects trained in the western manner but striving to relate to Indian roots; while the last section in each chapter explores the selected use of that particular aspect by contemporary Vastu pundits, with their disregard for architectural idiom.

Stri Jataka : Female Horoscopy Dr S.P. Bhagat 2016-10-18 Female horoscopy. Humanity is divided into 3 main divisions, viz., masculine, feminine and eunuch. There are any number of sub-divisions among them and the phenomena of potency or vitality among the above three classes are remarkable. There are men with perfect masculine development, but almost without powers of erection or penetration. There are some women who have hardly any sexual excitements and desire for copulation. They evade or reject sexual offers and applications. On the other hand, there are Napumsakas or eunuchs who have strong sexual excitements, and desires, but without suitable organs for such functions. Again there are men and women, who have tremendous sexual energy and who are not satisfied with ordinary sexual embraces and seek gratification even in unnatural ways. This book will discuss astrologically combinations for such happenings.

The Art of Interpreting Horoscopes Gayatri Devi Vasudev 2011-01-01 A comprehensive guide to the techniques of astrological interpretation The Art of Interpreting Horoscopes gives, for the first time ever, the definition of a Graha in astrology. Shows how ancient classical dicta can be adapted and applied to contemporary charts to analyse: * Prim-Ministerial Yogas * Neechabhanga Raja Yoga * Adhi Yoga and Celebrity Status * Cases of Crime and Criminals * Crime Investigation * Possibility of Children and IVF * Loss of Children * Marriage from Navamsa Clues * Factors for Love Marriage * Swearing-in charts * Loss of Children India has always been an astrological society but at some point of time in the early part of the 20th century, the educated began to develop a certain distaste for this ancient science, largely because of the educational system in the country which distanced itself from the traditional branches of learning under a mistaken notion that by doing so, it was proving its rational credentials. However astrology being as good a science as any other of the modern ones, has stood the test of time and in recent years has made a resurgent reappearance as a result of my revered father, Father of Modern Astrology, the Late Dr. B. V. Raman's relentless efforts to propagate it as an academic subject. Astrology has now captured the interest of large segments of the educated public. The wave of resurgence has swept away this pseudo-rationalist resistance bringing with it the realization of the invaluable role astrology can play in helping cope with the ills of modern society. There has been some kind of snowballing effect in educated circles, both in our own country as well as in the west, primarily the United States of America, in their eagerness to retrieve, revive and restore Jyotish to its pristine glory. The ancient classical works on the subject are now being eagerly lapped up but the problem begins because of the times when the astrological rules were first formulated being so different from our own. The author has made effort to adapt and apply these rules in the form of dicta, Yogas and combinations to contemporary life in the process seeking to bridge the gap between the ancient rules and their application value to the present.

Domestic Vastu Pramod Kumar Sinha This book talks about the fundamentals of domestic vastu. The word Vastu originated from the Sanskrit word "Vas" and the meaning of this word is to live life or to reside. The word "Vasu" originated from "Vas" and finally this word "Vastu" originated from "Vasu". Meaning of the word Vastu is a place where a person resides. The meaning of Shastra is a book which deals with the mysterious and systematic explanation of a subject, therefore the meaning of Vastushastra is a book related to the residence. The origin and anatomy of Vastushastra is based on the principle of the five elements of creation. As our body is also made up of these five elements, if enough attention is paid to the incorporation of these five elements in the construction of a house then the people residing in the building shall reside happily. These five elements are- Earth, Water, Fire, Air and Space. Our universe also is made up of these five elements only. Therefore the saying goes – (Yatpindetatbramhande). God (bhagwan) has given these five gifts to us– from (bha) bhumi (land), from (ga) gagan (sky, ether), from (va) vayuq (air), from (na) neer (water). God is represented by the symbol (Om). These five elements are present in this Om also. "Aa" is Agni (fire), "Au" is Jal (water), "Ma" is Vayu (air), " W " (ardhachandra) is Bhoomi (land) and "0" is Akash (ether, sky). Similarly the word Vastu also denotes these five elements. From "Va" Vayu

(air), from "Aa" Agni (fire), from "Sa" "Srishti" Bhoomi (land), from "Ta" Tat means Akash (ether/ sky) and from "Au" Jal (water). These five elements also are represented by the five planets. 1. Earth is represented by Mars 2. Water is represented by Venus 3. Fire is represented by Sun 4. Air is represented by Saturn 5. Ether is represented by Jupiter. Similarly mind is controlled by Moon. Intelligence is controlled by Mercury. Ego and arrogance is controlled by Rahu and moksha or spirituality by Ketu. Disbalance of these elements in the body produces ill health and disease. In a similar manner the disbalance of these elements in a house creates varied kind of troubles for the persons living in it. There are unlimited forces present in nature. Some of these forces influence us, for example the gravitational force of earth, the magnetic and electrical energy of the universe and the electromagnetic force present everywhere. These energies also exist in the constructed house and they continue influencing the electromagnetic force present in the human body. This produces the auspicious or inauspicious results. These results vary from place to place depending on the geographical location. For these reasons the results of vastu principles are not the same all over the world. They differ according to the longitude and latitude of the place. They also differ according to the horoscope of the person concerned. If man goes along with the flow of nature's energies, it produces good health, progress and prosperity. If he goes against the flow of nature, he faces hurdles and obstructions everywhere. Hence it is utmost important and necessary for us to organize our lives according to nature, only then we can live happily. Halayudha kosha says that, Vastu is that art of house construction, which starts from Ishan kona etc and which protects the residents of the house from natural calamities and obstructions.

Parashar Hora Vol 1 Om Prakash Paliwal 2021-09-20 This is Vol 1 of total 2 Volumes in this Title. The special focus of this book is to make the ardent readers aware of the salient features of this Vedic text on astrology and how it is distinct from the other transcripts on the subject, available thus far. Great concerted efforts were made to collect, collate and combine all the available manuscripts and other related published material contributed by the eminent contemporary writers and commentators and then the sequence of subject matters is aligned to make it comprehensible and authentic. The name of this holistic text is also as per the ancient statement and record, namely 'Parasara Hora'. This book adduces certain critical and important features which were never attempted before. This book in one hundred chapters falls in line with the description or narration: "ॐ नमो भगवते वासुदेवाय" verse as appeared in the Uttara Khanda of the text collated by Shridhar. Amongst the other contemporary writers of such treatise, Sitaram Jha, Devchandra Jha, Tarachand Shastri to name a few, have formatted this text covering between 71

and 101 chapters, but in most of the cases 20 odd chapters were not from 'Hora Shastra'. These details are available in the introductory note: 'The specialties of this book'. This note also minutely explains the deletion of inapt Shlokas, the addition of relevant Shlokas and also some Shlokas have been rearranged purposefully so are the chapters. Besides, the treatment of some of the subjects is so unique that will fill the void for the readers to experience. These 20 odd supplementary researched chapters culled out of the published and manuscript materials are unavailable in any text of the Brihat Parasara Hora Shastra (BPHS) of the present time. Trust with this value addition, the esteem readers will get immensely benefited.

Can Astrology be a science? Velayudhan A P 2015-01-05 "Astrology was born as a cosmic and celestial observational concept. The invasion of irrelevances, superstitions and irrationalities have given it the concept of a vague myth; a mystical concept. This book reveals the flaws, exposes the malfunctioning and misuses by quacks and fakes. It proposes reforms in order to once again make Astrology a believable, consistent, near accurate and more importantly an acceptable science. It propounds tested and proven modules for practical Astrological usage. The book is not only meant for practising astrologers, but also the general public who are curious to know about other related subjects, vastu, palmistry and numerology."
