Writing Instruction in the Culturally Relevant Classroom Maisha T. Winn 2011

The National Council of Teachers of English and Cold War Education Policies Curtis Mason 2020-02-01 The launching of Sputnik in 1957 sparked an education movement that stressed the importance of curricular rigor and standardization as a means to improve education and bolster national defense. Within six months of Sputnik's launch, Congress passed the National Defense Education Act (NDEA) that approved an unprecedented amount of federal funding toward the math, science, and foreign language disciplines. The teaching of English was left out and through the leadership of the National Council of Teachers of English (NCTE), the discipline maneuvered public relations and political connections in its quest to acquire federal funds. In doing so, the NCTE mimicked strategies that galvanized funding for math, science, and foreign language disciplines by arguing the importance of the teaching of English for national security and advocating for a teaching model that aligned with Cold War Era pedagogical trends. These tactics marked a major shift in how the NCTE advocated for the teaching of English. In the early twentieth century, the organization embraced student-centered education practices connected to the ideas of progressive educators. This perspective continued with the creation and expansion of life adjustment education during the 1930s and 40s. During this era, many NCTE authors recommended this movement that advocated connecting education to future adult experiences. Following Sputnik, NCTE leaders supported content-centered reforms. Instead of curriculum recommendations based in discovering and fostering relevant student experiences, the NCTE's focus became adjusting student learning to predefined skills it thought all students should possess. This trend was supported by conceptions of Cold War education models, including those advocated by their rival English organization, the Modern Language Association (MLA). The MLA had successfully worked with federal actors in attaining funding for foreign language training institutes and the NCTE's collaboration with the MLA represented a shift in adopting ideas it was previously opposed to promoting. Despite their efforts, the NCTE was not a part of NDEA reauthorization in 1961 the federal government, led by U.S. Commissioner of Education, Sterling McMurrin, funded teacher-training institutes for the study of English through a program called "Project English." The 1960s continued with the NCTE representing stronger content-centered ideas before shifting in less than a decade as indicated by the materials produced by the 1966 AngloAmerican Conference on English at Dartmouth. Here, NCTE leaders reassessed their beliefs after meeting with British educators who advocated student-centered curriculum models and reintroduced benefits of experiential education. These ideas would manifest into studentcentered curriculum models during the late 1960s and 1970s.

Teacher Education for Change Josef Huber 2011-01-01 What is the main role for teachers today? Why is the Council of Europe dealing with education, and teacher education in particular? How is educational thinking guided by visions of a future society desirable for all? How, in the midst of a fierce battle for curriculum time, can education for human rights, democracy and mutual understanding be embedded in the existing curricula? What are the values underlying our educational visions? The aim of this publication is to offer a few answers to these and many other questions. Above all, its purpose is to contribute to the ongoing debate, more necessary than ever, on the role of teachers and teacher education in the broader context of teaching and learning for a sustainable democratic society.

Preparing Teachers National Research Council 2010-07-25 Teachers make a difference. The success of any plan for improving educational outcomes depends on the teachers who carry it out and thus on the abilities of those attracted to the field and their preparation. Yet there are many questions about how teachers are being prepared and how they ought to be prepared. Yet, teacher preparation is often treated as an afterthought in discussions of improving the public education system. *Preparing Teachers* addresses the issue of teacher preparation with specific attention to reading, mathematics, and science. The book evaluates the characteristics of the candidates who enter teacher preparation programs, the sorts of instruction and experiences teacher candidates receive in preparation programs, and the extent that the required instruction and experiences are consistent with converging scientific evidence. *Preparing Teachers* also identifies a need for a data collection model to provide valid and reliable information about the content knowledge, pedagogical competence, and effectiveness of graduates from the various kinds of teacher preparation programs. Federal and state policy makers need reliable, outcomes-based information to make sound decisions, and teacher educators need to know how best to contribute to the development of effective teachers. Clearer understanding of the content and character of effective teacher preparation is critical to improving it and to ensuring that the same critiques and questions are not being repeated 10 years from now.

How Writing Shapes Thinking Judith A. Langer 1987 In the belief that effective writing instruction can be a critical component in successful learning, and to better understand the role that writing plays in content area learning, this book presents an extensive study of writing assignments in the secondary school curriculum. Following an introduction, the book provides an overview of the project, chapters 1 and 2 highlighting the data gathered and analytical methods used. The third chapter of the book provides a detailed introduction to the observations of teachers and their students, with some general findings about ways in which they used writing in the teaching of academic subjects. The fourth chapter describes the types of writing activities that worked in a variety of content-area classrooms. Chapter 5 shifts focus

away from the activities provided and toward the redefinition of teaching and learning that occurred in the classrooms where writing worked best to foster learning. Chapters 6 through 8 examine the kinds of thinking promoted by different types of writing in the classroom. The final chapter brings together concerns about the roles of teacher and learner in the instructional interaction, providing a theoretical framework, practical suggestions for an alternative model of instruction, and a discussion of the constraints that must be addressed if wide-scale use of writing to support learning is to become a reality. A five-page reference list and two appendices are included. (HTH)

Believing Anita Hill 2021-09-28 “An elegant, impassioned demand that America see gender-based violence as a cultural and structural problem that hurts everyone, not just victims and survivors... It's at times downright virtuosic in the threads it weaves together.”—NPR Winner of the 2022 ABA Silver Gavel Award for Books From the woman who gave the landmark testimony against Clarence Thomas as a sexual menace, a new manifesto about the origins and course of gender violence in our society; a combination of memoir, personal accounts, law, and social analysis, and a powerful call to arms from one of our most prominent and poised survivors. In 1991, Anita Hill began something that's still unfinished work. The issues of gender violence, touching on sex, race, age, and power, are as urgent today as they were when she first testified. *Believing* is a story of America's three decades long reckoning with gender violence, one that offers insights into its roots, and paths to creating dialogue and substantive change. It is a call to action that offers guidance based on what this brave, committed fighter has learned from a lifetime of advocacy and her search for solutions to a problem that is still tearing America apart. We once thought gender-based violence--from casual harassment to rape and murder--was an individual problem that affected a few; we now know it's cultural and endemic, and happens to our acquaintances, colleagues, friends and family members, and it can be physical, emotional and verbal. Women of color experience sexual harassment at higher rates than White women. Street harassment is ubiquitous and can escalate to violence. Transgender and nonbinary people are particularly vulnerable. Anita Hill draws on her years as a teacher, legal scholar, and advocate, and on the experiences of the thousands of individuals who have told her their stories, to trace the pipeline of behavior that follows individuals from place to place: from home to school to work and back home. In measured, clear, blunt terms, she demonstrates the impact it has on every aspect of our lives, including our physical and mental wellbeing, housing stability, political participation, economy and community safety, and how our descriptive language undermines progress toward solutions. And she is uncompromising in her demands that our laws and our leaders must address the issue concretely and immediately.

Counting Descent Clint Smith 2017-01-06 Black Harvard Doctorate in Poetics launches poetry that explores modern blackness. Clint Smith's debut poetry collection, *Counting Descent*, is a coming of age story that seeks to complicate our conception of lineage and tradition. Smith explores the cognitive dissonance that results from belonging to a community that unapologetically celebrates black humanity while living in a world that often renders blackness a caricature of fear. His poems move fluidly across personal and political histories, all the while reflecting on the social construction of our lived experiences. Smith brings the reader on a powerful journey forcing us to reflect on all that we learn growing up, and all that we seek to unlearn moving forward. - Winner, 2017 Black Caucus of the American Library Association Literary Award - Finalist, 2017 NAACP Image Awards - 2017 'One Book One New Orleans' Book Selection

Teaching Reading with YA Literature Jennifer Buehler 2016 Jennifer Buehler shows how to implement a YA pedagogy--one that revolves around student motivation while upholding the goals of rigor and complexity. Jennifer Buehler knows young adult literature. A teacher educator, former high school teacher, and host of ReadWriteThink.org's Text Messages podcast, she has shared her enthusiasm for this vibrant literature with thousands of teachers and adolescents. She knows that middle and high school students run the gamut as readers, from nonreaders to struggling readers to reluctant readers to dutiful readers to enthusiastic readers. And in a culture where technological distractions are constant, finding a way to engage all of these different kinds of readers is challenging, no matter the form of delivery. More and more, literacy educators are turning to YA lit as a way to transform all teens into enthusiastic readers. If we want to meet the needs of all students as readers, we have to offer books they can--and want to--read. Today's YA lit provides the books that speak to the world of teens even as they draw them out into the larger world. But we have to do more than put YA titles in front of students and teach these books as we've traditionally taught more canonical works. Instead, we can implement a YA pedagogy--one that revolves around student motivation while upholding the goals of rigor and complexity. Buehler explores the three core elements of a YA pedagogy with proven success in practice: (1) a classroom that cultivates reading community; (2) a teacher who serves as book matchmaker and guide; and (3) tasks that foster complexity, agency, and autonomy in teen readers. With a supporting explication of NCTE's Policy Research Brief Reading Instruction for All Students and lively vignettes of teachers and students reading with passion and purpose, this book is designed to help teachers develop their own version of YA pedagogy and a vision for teaching YA lit in the middle and secondary classroom.
