Why Do Lobsters Eat Each Other? Therese M. Shea 2018-07-15 There are few behavioral adaptations that seem more odd to us than cannibalism. Scientists have noticed the rising incidence of lobster cannibals in recent years, and the reason may be connected to global warming. Readers will find the odd information about these and other crustaceans to be a fascinating study in animal adaptations, a crucial component of the elementary science curriculum. Vivid photographs and informative sidebars reinforce the engaging text.

Polar Bears Laura Marsh 2013 Presents an introduction to polar bears, describing their habitat, physical characteristics, life cycle, eating habits, and behaviors, and looks at the life of a polar bear cub.

Just Joking 3 - National Geographic Kids Ruth A. Musgrave 2013 Presents a variety of jokes and facts, including knock-knocks, tongue twisters, riddles, and traditional question and answer jokes.

In My Garden Ruth Musgrave 2017 Introduces gardens and gardening, including how a seed grows into a plant, how fruits and vegetables form, and what animals and insects also live in a garden.

Whales Laura Marsh 2010 Introduces sperm whales, including their different body parts, how they travel in groups, what they eat, and how they care for their young.

Look Up Ruth Musgrave 2016 Explores the different things that can be seen when looking up, including kites, birds, and rainbows.

National Geographic Kids Little Kids First Board Book: Animals on the Go Ruth A. Musgrave 2019-04-30 National Geographic spins off its best-selling Little Kids First Big Book series into engaging new board books to introduce even the littlest kids to high-quality nonfiction. These sturdy pages showcase animals and how they move, with amazing photographs, super-simple facts, and lively, age-appropriate language to keep babies and toddlers--and their grown-ups--fascinated by every colorful page. Stunning photos of wildlife in action introduce babies and toddlers to creatures that creep, crawl, hop, slither, soar, and more. Watch how fluffy and scaly creatures, both big and small, move from place to place. Designed to be the stepping stone to the popular Little Kids First Big Book series, these board books take similar subjects and distill them down to the simplest nonfiction concepts for the youngest audience. Not only will readers learn how animals move, they can also find recurring shapes and patterns in the art, while adults can keep their eyes open for occasional funny commentary from the animals. Sidebar text offers additional learning for older siblings or those ready for more complex information. With their square shape, bright and playful design, awesome photography, clear text, and cues to encourage interactive learning, the Little Kids First Board Books mirror the beloved First Big Books while taking a fresh new approach to excite a baby's sense of wonder and make learning about nature and science fun.

National Geographic Kids Ruth Musgrave 2011 "In Everything Sharks, exciting photos depict great whites, hammerheads, and more. Scientists tell hair-raising tales about encounters. With its awesome facts and action-packed images, this book brings kids close to the mysterious lives of sharks."--Amazon.com.

National Geographic Readers: Snakes! Melissa Stewart 2012-07-24 They're SSSSLITHERY! SLIPPERY! They creep us out! But get to know them and you'll find snakes private, quiet types who just want a cool, shady place to call home. From the tip of their forked tongues, to skin that sheds, to the rattles on certain tails, these creatures have secrets all kids will love. Cool photos and fun facts slip us inside their surprising world.

Somebunny Loves Me Parry Gripp 2017 This adorable new title from Emmy Award-winning singer-

songwriter (and animal lover) Parry Gripp shows us the magical world of furry friendship and teaches young readers to be kind to animals of all shapes and sizes. Through adorable, uplifting photographs, and sweet, silly text, kids will learn not only how to interact with animals, but also just what makes you a good friend for your fuzzy, feathered, or scaly new bud. This fun book will inspire young animal lovers to understand their perfect new pal, giving kids lessons on being gentle with pets, making sure to care and love them, how to be patient, and more. Lyrical text illustrates the fun and companionship that dogs, cats, lizards, fish, rabbits, and all sorts of animal friends can offer. Parents and families considering or who've just gotten a new pet will have fun sharing and learning all about animals together. Plus, turn each page and sing along with Parry with an original song and music video!

Snake Attack Lisa Owings 2011-08-01 Sometimes danger creeps at your feet, especially in the case of snakes. Many are completely harmless, but others can deliver a lethal bite or suffocating squeeze. Once a slithering serpent has a hold on you, it's nearly impossible to escape. Hear a couple gripping stories of survival while you sink your fangs into this title.

Polar Bears Norbert Rosing 2010 Photographs and captions present the life of polar bears across the four seasons of the year. Topics covered include habitat activities, diet, anatomy, and survival.

Sea Turtle Rescue Karen Romano Young 2015 True adventure stories, sumptuous photography and hands-on activity suggestions combine in an introduction to the sea turtle and the ongoing efforts of conservationists to protect the species. Simultaneous.

National Geographic Readers: Ponies Laura Marsh 2012-07-24 Ponies is replete with brilliant photographs and catchy content that will both teach and entertain. Children will be captivated as they watch a brand new baby foal walk within minutes of being born then quickly turn into one of the most graceful animals on Earth. Like all of our level 1 readers written by skilled children's books authors, this title invites kids to learn more about their favorite topics in a familiar format that instills success. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information. From the Trade Paperback edition.

The Evolution of Fish Carol Hand 2018-12-15 The Evolution of Fish explores what we know about fish evolution, from theories of the past to recent breakthroughs in research. This title also looks at the science behind the research, from studying fossils to analyzing DNA. Features include a glossary, references, websites, source notes, and an index. Aligned to Common Core Standards and correlated to state standards. Essential Library is an imprint of Abdo Publishing, a division of ABDO.

Bear Attack Lisa Owings 2011-08-01 Never come between a mother bear and her cubs. She will violently maul you until you are no longer a threat. Even if you're fortunate enough to survive her attack, you will likely leave with severe wounds. In this title, hear about people who learned this lesson firsthand and lived to tell their tale.

Look Outside! - National Geographic Kids National Geographic Kids 2017 Young readers will be introduced to the concept of the changing weather through the view from their very own window. Children will learn about rain, clouds, sunshine, and more in simple, age-appropriate language paired with colourful photos. Look and Learn introduces children to the subject on one page and then shows it in real-life context on the next.

Bull Shark Attack Lisa Owings 2011-08-01 You may think you're safe from a shark attack if you stay out

of the ocean...but you're not! There's a shark that can lurk in rivers as well as the sea; a shark known for beginning its attack with a head-butt. Beware the bull shark!

Birds National Geographic Kids 2017 In this engaging board book, young readers will meet birds of all colours, shapes, and sizes. Look and Learn books introduce the subject on one spread and then show it in real-life context on the next, using simple, age-appropriate language paired with colourful photos.

Jellyfish Melissa Gish 2015-09-01 "A look at jellyfish, including their habitats, physical characteristics such as their bells, behaviors, relationships with humans, and their overabundance in the world today"--

National Geographic Readers: Great Migrations Elephants Laura Marsh 2012-07-24 This exciting reader follows the story of the longest and the most demanding elephant migration on the planet. Living at the furthest corners of the hot and dry Sahara Desert, the very margins of where elephants can survive, hundreds of these great creatures make a dangerous but necessary journey as their main source of food and water dries up and they must go in search of more. Battling 120-degree heat, sandstorms, and fierce thunderstorms, these amazing animals travel 35 miles a day in a race against time in search of the bare essentials of life. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.
