We are an institution of higher learning; we need to be the best with everything we do. We are preparing the next generation of heroes for the greatest fighting force on the planet - the 8404 Hospital Corpsman assigned to the United States Marine Corps. They operate at the tip-of-the spear providing combat medicine to our operational forces; they are critical to the success of the Navy & Marine Corps Medicine Team. What each one of us does on a daily basis matters, regardless of our job. We all contribute to the mission. No one job is more important than the other. If just one link (team member) in this chain fails to perform a portion of the mission to standard, we all fail. You have the ability to make a positive difference in peoples' lives every day. Every member of this team should ask themselves, "Am I living by our core values and making decisions that are consistent with these values when I interact with students, staff and the American public." Key points: - Know your chain of command and how to use it. You have not exhausted your chain of command at FMTB-West until the issue reaches me. - If you are lacking something to perform your mission, bring it to the attention of

leadership so we can promptly address it. - Any safety issue should immediately be brought to leadership. - Continually strive to improve processes; ask for help before it's too late (in all aspects of your life and career). - If you see a problem, fix it or bring it to the attention of someone who can. Don't ignore it. - Supporting each other is just as important as supporting the mission. - Continue the relentless pursuit of customer satisfaction; feedback is a valuable tool in life and career. - Basic military courtesy should be a part of everyday life. - Always strive to do the right thing, even when no one is looking or when tempted to take the "easy" wrong. As a leader, I believe all members of the team are important. Our civilian shipmates are essential to the success of our mission. As a military leader, I believe, as the Sailor creed says, "I proudly serve my country's Navy combat team with Honor, Courage and Commitment. I am committed to excellence and the fair treatment of all". I cannot over emphasize the importance of leadership from E-1 to O-6, everyone has a part; I expect officers to lead from the front by setting the example. Be sure that regularly scheduled performance counseling sessions are conducted for military and civilian employees. Cover the good which should be sustained as well as the areas which need improvement. Although I like to be informed, I believe in allowing leaders to lead, managers to manage. A big part of my job is to provide you the support systems necessary for you to accomplish your mission. Tell me what you need and don't worry how it will be resourced. Let me worry about that.

**Little Runs Big World** Chris Bolender 2017-12-15 Crashing through the Atlantic Ocean on board a goliath aircraft carrier, looking out at Virginia Beach from the top of a mountain made of trash, and peering inside a sea cave on a hidden turquoise beach in Okinawa are some of the last places most people would think about running. In an entrancing memoir, we join Chris Bolender on his little runs as a child tortured by running, a navy sailor, a college football player, a marine officer candidate, a nervous lieutenant, a hospitalized captain, a comedian, an absent father, a lonely commander, the son and grandson of war heroes, a supervisor of drill instructors, a retired marine, and a present father. This modern-day Renaissance man gives his readers the access given only to a service member behind the perimeters. Readers will see the gorgeous places Bolender has traveled around the globe, while feeling the heavy stresses placed on him. All his little runs tie together to form a narrative that begins as an insecure teenage kid joins the navy and finishes with an enlightened marine

officer-with a few wrinkles and gray hairs. Over the course of sixteen years, each run is an escape and a reconnection with nature that keeps him sane and strong enough to overcome the challenges at hand. Over time his bond with running grows stronger and stronger-enough that he adopts it into his daily routine-for life. Little Runs, Big World: A Marine's Path to Peace is sure to be an enjoyable, witty read for people who are interested in fitness, running, the military, travel, and spirituality.

Integration of the Armed Forces, 1940-1965 Morris J. MacGregor 2020-06-18 "In the quarter century that followed American entry into World War II, the nation's armed forces moved from the reluctant inclusion of a few segregated Negroes to their routine acceptance in a racially integrated military establishment. Nor was this change confined to military installations. By the time it was over, the armed forces had redefined their traditional obligation for the welfare of their members to include a promise of equal treatment for black servicemen wherever they might be. In the name of equality of treatment and opportunity, the Department of Defense began to challenge racial injustices deeply rooted in American society. For all its sweeping implications, equality in the armed forces obviously had its pragmatic aspects. In one sense it was a practical answer to pressing political problems that had plagued several national administrations. In another, it was the services' expression of those liberalizing tendencies that were permeating American society during the era of civil rights activism. But to a considerable extent the policy of racial equality that evolved in this quarter century was also a response to the need for military efficiency. So easy did it become to demonstrate the connection between inefficiency and discrimination that, even when other reasons existed, military efficiency was the one most often evoked by defense officials to justify a change in racial policy."\_x000D\_ Morris J. MacGregor, Jr., received the A.B. and M.A. degrees in history from the Catholic University of America. He continued his graduate studies at the Johns Hopkins University and the University of Paris on a Fulbright grant. Before joining the staff of the U.S. Army Center of Military History in 1968 he served for ten years in the Historical Division of the Joint Chiefs of Staff.

The Blue Cascade Mike Scotti 2012-05-15 In this searing and beautifully written memoir, Marine Lieutenant and CNN Op-Ed contributor Mike Scotti charts a course from the front lines of Iraq back home to New York, showing how sometimes the hardest battle is the one after the war. Sometimes the hardest battle is the one after the war. As one of the soldiers on the front line of Operation Iraqi Freedom, Lieutenant Scotti was taught that weakness is what gets you killed: no hesitation, focus your energies on your objective, and complete the mission. Upon returning from war, Scotti approached his new life the same way. He ignored the creeping depression and numbness he called "The Blue Cascade" and charged ahead toward his goal to get an MBA, secure a high-paying finance job, and retire young and rich. But he was being eaten away inside, and scenes of

drunken emotion and raging violence were becoming more and more frequent. Years after returning from active combat, he eventually found himself contemplating suicide. Through a series of powerful events, Scotti was ultimately able to find a path to healing and begin his journey back to life, finally emerging with the following wisdom for fellow sufferers of post-traumatic stress: It's ok if you are not ok.

American Sniper Chris Kyle 2013-02-26 NOW A BLOCKBUSTER MOTION PICTURE DIRECTED BY CLINT EASTWOOD—NOMINATED FOR SIX ACADEMY AWARDS, INCLUDING BEST PICTURE He is the deadliest American sniper ever, called "the devil" by the enemies he hunted and "the legend" by his Navy SEAL brothers . . . From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. The Pentagon has officially confirmed more than 150 of Kyle's kills (the previous American record was 109), but it has declined to verify the astonishing total number for this book. Iraqi insurgents feared him so much they placed a bounty on his head. Kyle earned legendary status among his fellow U.S. warriors, whom he protected with deadly accuracy from rooftops and stealth positions. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.

Three Stars and a Crow Robert J. Walker 2011-09 Three Stars and a Crow is the story of Bob Walker, a man who loved the U.S. Navy from the moment he met it, and who set out to become the best by devoting himself to serving his country and the men and women who serve. From a typical American childhood raised on a farm, Bob's character was instilled by his parents. He played quarterback in high school and won a nationwide speaking contest that helped him and others realize he was destined to lead. After joining the Navy at 19, Walker rocketed through the enlisted ranks to achieve chief in just eight years. His was the Navy of spit and polish, chain of command, and an absolute dedication to quality and performance. In this book, Walker lays out the principles that led him to go toe to toe with all who threatened his Navy. Read about the courage it took to speak the truth and demand changes to a system that had lost the polish of the past. Find out why his family managed to love him and believe in him in spite of the separation and demands he placed on them. Filled with typical no-bull Walker language and humor, Three Stars is sure to become a classic guide for enlisted who want to rise fast and make a difference. This book describes how Walker did it, and why so many Sailors have such respect for the man who brought respect back to the Navy, the man who loved them beyond reason, and who became a living legend in the United States Navy.

*Admirals of the World* William Stewart 2014-11-26 This work provides biographies of more than 500 men and women who have served as admiral, vice admiral, or rear admiral. While officers from the U.S., British, French and Japanese navies make up the bulk of the work, officers from 22 countries, including Australia, Canada, Germany, India, Italy, the Netherlands, Russia, and Spain, are also included. The main criterion for inclusion is that each person must have actively served in the rank of at least rear admiral, but not necessarily in enemy action. This effectively rules out people who were granted the rank on retirement, as a courtesy title or posthumously. The book also includes lists of admirals organized by nationality and by year of birth.

**The Bluejacket's Manual** Thomas J. Cutler 2017-11-15 From the days of oars and coal-fired engines to the computerized era of the 21st century, The Bluejacket's Manual has been an essential part of the American Sailor's sea bag for over one hundred years, serving as an introduction to the Navy for new recruits and as a reference book for Sailors of all ranks. Written by a Sailor whose decades of naval service included sea duty in patrol craft, destroyers, cruisers, and aircraft carriers as both an officer and a "white hat," this newest edition has been overhauled to reflect the current state of the ever-evolving United States Navy and includes chapters on ships and aircraft, uniforms, weapons, damage control, communications, naval customs and ceremonies, security, leadership, pay and benefits, naval missions, military fundamentals, and seamanship. Since Lieutenant Ridley McLean wrote the first edition of this perennial classic, the Navy has grown from fledgling sea power to master of the world's oceans, and both technology and American culture have changed in ways probably unimaginable in his day. Although The Bluejacket's Manual has necessarily evolved (through more than twenty revisions) to reflect those changes, its original purpose has remained steadfastly on course. Like its predecessors, this new edition makes no attempt to be a comprehensive textbook on all things naval—to do so today would require a multivolume set that would defy practicality—but it continues to serve two very important purposes. First, it serves as a primer that introduces new recruits to their Navy and helps them make the transition from civilian to Sailor. Second, it serves as a handy reference that Sailors can rely on as a ready source of basic information as they continue their service, whether for only one "hitch" or for an entire career. To that end, this 25th edition has been reorganized to more efficiently reflect those dual purposes, with the first part of the book consisting of "Chapters" that provide introductions and basic explanations that Sailors new to the Navy will find most helpful, and the second part consisting of "Tabs" that deal with specifics—often mere tables—that seasoned Sailors will find useful for reference purposes. Also unique to this latest edition has been the creation of an accompanying website that will serve to keep the book current and provide valuable supplementary material. In total, this latest edition of a recognized Navy classic continues to serve today's "Bluejackets" and "Old Salts" in the traditional manner while providing a fresh approach that will be welcomed by potential recruits, Navy buffs, and a growing number of Bluejacket Manual collectors.

**Afterwar** Nancy Sherman 2015-04-08 Movies like *American Sniper* and *The Hurt Locker* hint at the inner scars our soldiers incur during service in a war zone. The moral dimensions of their psychological injuries--guilt, shame, feeling responsible for doing wrong or being wronged--elude conventional treatment. Georgetown philosophy professor Nancy Sherman turns her focus to these moral injuries in *Afterwar*. She argues that psychology and medicine alone are inadequate to help with many of the most painful questions veterans are bringing home from war. Trained in both ancient ethics and psychoanalysis, and with twenty years of experience working with the military, Sherman draws on in-depth interviews with servicemen and women to paint a richly textured and compassionate picture of the moral and psychological aftermath of America's longest wars. She explores how veterans can go about reawakening their feelings without becoming re-traumatized; how they can replace resentment with trust; and the changes that need to be made in order for this to happen--by military courts, VA hospitals, and the civilians who have been shielded from the heaviest burdens of war. 2.6 million soldiers are currently returning home from war, the greatest number since Vietnam. Facing an increase in suicides and post-traumatic stress, the military has embraced measures such as resilience training and positive psychology to heal mind as well as body. Sherman argues that some psychological wounds of war need a kind of healing through moral understanding that is the special province of philosophical engagement and listening.

**They Were Heroes** David Devaney 2014-02-27 Sergeant Major Devaney's They Were Heroes presents moving portraits of warriors who have not been fully celebrated. His stories recognize the heroism of those who fought in these deadly conflicts and placed their lives at risk to assure the safety of their fellow Marines. For these Marines, no Medal of Honor is enough for their bravery. Nonetheless, though not his main purpose, Devaney calls attention to the practice of awarding medals itself, that often these warriors received awards that were below what their deeds merited. No less disturbing is the revelation that medals were often awarded by rank, and not always by action. The lives presented in Devaney's book call attention to the fact that many heroes of these deadly conflicts have gone unrecognized.

**United States Marine Corps - The Basic School - Warrant Officer Basic Course Materials** Over 2,200 total pages !!! WARRANT OFFICER BASIC COURSE (WOBC) 1-18 INFORMATION Congratulations on your selection as a Warrant Officer of Marines. You are about to embark upon a truly remarkable journey as an officer of Marines. That journey begins with your successful completion of the Warrant Officer Basic Course (WOBC) at The Basic School (TBS) in Quantico, Virginia. Warrant Officers and Title 10: Warrant Officer (WO) is an appointed rank, vice a commissioned one. Chief Warrant Officers (Marine Gunners and Recruiting Officers) are commissioned. All Chief Warrant Officers and Warrant Officers must successfully complete the WOBC in order to retain their appointment or commission. Title 10 U.S.C. Section 1165 states: THE SECRETARY OF THE NAVY HAS THE AUTHORITY TO TERMINATE THE REGULAR APPOINTMENT OF ANY PERMANENT REGULAR WO AT ANY TIME WITHIN THREE YEARS AFTER THE DATE WHEN THE OFFICER ACCEPTED HIS ORIGINAL PERMANENT APPOINTMENT. A MARINE WHOSE APPOINTMENT IS TERMINATED MAY, UPON HIS REQUEST AND AT THE DISCRETION OF THE SECRETARY OF THE NAVY, BE ENLISTED IN A GRADE NOT LOWER THAN THAT HELD IMMEDIATELY PRIOR TO APPOINTMENT. THEREFORE, THE FIRST THREE YEARS AS A WO IS A PROBATIONARY PERIOD AND THE APPOINTMENT TO WO WILL BE TERMINATED IF A MARINE DOES NOT COMPLETE THE REQUIREMENTS OF THE WOBC. WOBC MISSION STATEMENT: Train and educate newly appointed warrant officers in the high standards of professional knowledge esprit-de-corps, and leadership required to transition from enlisted Marine to officer with particular emphasis on the duties, responsibilities and warfighting skills required of a provisional rifle platoon commander. The Warrant Officer Basic Course: The WOBC is an eighteen-week course that focuses on the transition from enlisted Marine to Marine officer. TBS and the WOBC focus on five horizontal themes that define expectations of all Marine Officers: (1) a man/woman of exemplary character, (2) devoted to leading Marines 24/7, (3) able to decide, communicate, and act in the fog of war, (4) a Warfighter who embraces the Corps' warrior ethos, and (5) mentally strong and physically tough. The universal concept that Marine Officers must be able to assess situations, weigh the pros and cons of various decisions, make a decision, develop a plan, communicate that plan effectively, and supervise its execution is stressed and exercised throughout the course. The course will teach the science and art required for service of Marine Officers with an

emphasis on decision making throughout. Provisional infantry and planning subjects are together used as the means or vehicle to teach and evaluate this process. Since all students are evaluated on leadership as Marine Officers; physical, mental, and emotional stress are incorporated throughout the course in order to evaluate the ability to lead in chaotic and stressful environments. Some individuals will be pushed close to their failing point, but the WOBC is designed to give students an opportunity to display positive leadership qualities in the face of adversity. The WOBC is not a "check in the block." It is a course designed to provide students with the learning experiences necessary to effectively transition to service as a Marine Officer. Students who do not successfully complete the course face a variety of administrative actions, including repetition of the course, recycle to a six month lieutenant Basic Officer Course, revocation of appointment, or separation from the service. The WOBC curriculum is an academically rigorous, provisional infantry and staff planning based program of instruction (POI) which consists of approximately 935 hours of formal instruction. The POI includes classroom instruction, field exercises, sand table exercises, and discussion groups. Classroom instruction is designed around the flipped classroom model.

**Manuals Combined: U.S. Navy Journalist Basic, Journalist Advanced And Journalist 3 & 2 Training Publications** Over 1,300 total pages ... To the young man or woman choosing a Navy career field, whether for one enlistment or for 30 years, the journalist rating offers endless avenues for an imaginative, yet mature, thinker. Many of the duties and responsibilities of the journalist rank among Americans' favorite hobbies and pastimes, such as writing, broadcasting and photography. The Navy journalist learns and practices a distinguished profession and becomes an official representative of the Navy in public affairs matters. The first enlisted specialists to work full time in the field of Navy

journalism were Naval Reserve personnel selected during the early years of World War II. They were designated Specialist X (Naval Correspondents). In 1948, under a major overhaul affecting almost every enlisted rating, the journalist (J0) rating was established. MAJOR TASKS AND RESPONSIBILITIES  
LEARNING OBJECTIVE: Identify the major tasks and responsibilities of the Navy journalist, the personal traits required for one to best perform the duties of the rating, the applicable NECs, and the purpose of the J0 3 & 2 training manual (TRAMAN). In our democratic society, government depends on the consent of the governed. This important principle means that, in the long run, the United States government does only what the people want it to do. Therefore, we can have a Navy only if the people know and understand the importance of the Navy and support it. The Navy, like the other services, depends on this country's citizens for the four key tools of its trade – personnel, money, materials and the authority to carry out its mission. As a Navy journalist, your main function will be to make the facts about your Navy available to the Navy's three main publics – the people at your ship or station, Navy people in general and the people of the United States as a whole.
