Mythic Skills Jason Nelson 2015-03-19 A Spectacular Enhancement to the Skill System *Mythic Skills* introduces a system of skill exploits that take the basic tasks your skills allow you to perform and dials them up to amazing levels. In addition, every skill in the *Pathfinder Roleplaying Game Core Rulebook* also gets brand-new skill exploits, as well as greater exploits that only the most skilled masters would even attempt. This book contains rules for using these enhanced skills with mythic characters but also provides an alternative system for use in non-mythic *Pathfinder* campaigns! This system allows your characters to focus on their skills as a key part of their character construction and to invest more of their character's abilities in their character itself, rather than the character's gear or magical tools. You can use these rules generally with mythic characters, allowing them to attempt all manner of skill-based exploits, or you can limit the ability to pull off these amazing skill stunts to those mythic characters that have really invested in making their skills a key part of their character's identity. The mythic rules offer an opportunity to magnify what makes a character special, and the skills they choose to hone as part of their background narrative and throughout the course of the campaign should be just as important in defining them as their marvelous magic and fabulous feats. With *Mythic Skills* in your hands, your skills will be just as spectacular!"

*Relief Map* Rosalie Knecht 2016-03-27 A small town swept up in a manhunt for a fugitive from foreign soil and a teenage girl struggling to make the right choices with little information and less time. In the heat of a stifling summer in her sixteenth year, Livy Marko spends her days in the rust-belt town of Lomath, Pennsylvania, babysitting, hanging out with her best friend, Nelson, and waiting for a bigger life to begin. These simple routines are disrupted when the electricity is cut off and the bridges are closed by a horde of police and FBI agents. A fugitive from the Republic of Georgia, on the run from an extradition order, has taken refuge in nearby hills and no one is able to leave

or enter Lomath until he is found. As the police fail to find the wanted man and hours stretch into days, the town of Lomath begins to buckle under the strain. Like Russian dolls, each hostage seems to be harboring a captive of their own. Even Livy's parents may have something to conceal, and Livy must learn that the source of danger is not always what it appears. Rosalie Knecht's wise and suspenseful debut evokes the classics while conjuring the contemporary paranoia of the post-terrorist age. Relief Map doesn't loosen its grip until the consequences of this catastrophic summer, and the ways in which a quiet girl's fate can be rerouted and forever changed, are made fully apparent.
