Dark Mother Earth Kristian Novak 2020-01-14 An amnesiac writer's life of lies and false memories reaches a breaking point in this stunning English-language debut from an award-winning Croatian author. As a novelist, Matija makes things up for a living. Not yet thirty, he's written two well-received books. It's his third that is as big a failure as his private life. Unable to confine his fabrications to fiction, he's been abandoned by his girlfriend over his lies. But all Matija has is invention. Especially when it comes to his childhood and the death of his father. Whatever happened to Matija as a young boy, he can't remember. He feels frightened, angry, and responsible... Now, after years of burying and reinventing his past, Matija must confront it. Longing for connection, he might even win back the love of his life. But discovering the profound fears he has suppressed has its risks. Finally seeing the real world he emerged from could upend it all over again.

Little Face Sophie Hannah 2007-10-01 "Little Face is a wonderful work, a brilliant use of mirrors and the writer's magic. Chilling, tantalizing, and ultimately fair and deeply satisfying."—Barbara D'Amato, author of *Death of a Thousand Cuts* "Hannah adapts to crime fiction with arresting aplomb: Her characters are vivid, the novel's challenging double narrative is handled with flair, and its denouement is ingenious."—The Sunday Times (London) "Outstandingly chilling."—The Spectator "Superb . . . good, old-fashioned spine-tingling stuff, but also a fine modern thriller."—The Times (London) "A terrifying mystery of manipulation, counter-manipulation and, finally, astounding revelation. It's a haunting story told with bewitching skill."—The Scotsman "Impressive."—The Mail on Sunday The first time she goes out after their daughter is born, Alice leaves the two-week-old infant at home with her husband, David. When she returns two hours later, she insists that the baby in the crib is not her child. Despite her apparent distress, David is adamant that she is wrong. The police are called to the scene. Detective Constable Simon Waterhouse is sympathetic, but he doubts Alice's story. His superior, Sergeant Charlie Zailer, thinks Alice must be suffering from some sort of delusion brought on by postpartum depression. With an increasingly hostile and menacing David swearing she must either be mad or lying, how can Alice make the police believe her before it's too late? Sophie Hannah is an award-winning and best-selling poet in the United Kingdom. She has also previously published fiction. This is her first psychological crime novel. She lives in West Yorkshire with her husband and two children.

Body Language for Competent Teachers Chris Caswell 2003-09-02 Non-verbal skills are invaluable for teachers in getting their own messages across to classes and understanding the messages pupils are sending them. Here an educational psychologist and a classroom teacher join forces to show new teachers in particular how to use gesture, posture, facial expression and tone of voice effectively to establish a good relationship with the classes that they teach. Each chapter is illustrated with clear drawings of pupils and teachers in common classroom situations and accompanied by training exercises aimed at improving the new teacher's ability to observe both her class and her own practice. A section at the end of the book gives suggested solutions to some of the exercises and the final chapter, addressed to staff responsible for their colleagues' professional development, provides suggestions for half and whole day courses.

Education In Drama David Hornbrook 2012-11-12 Hornbrook, referring to current legislation, argues the case for an organized curricular framework for drama in the 1990s which develops in children the activities of designing, directing, acting, writing and evaluating - all within the range of the historic context of dramatic work. He asserts that recent drama teaching in Britain has been child-centred and psychological, and viewed as a learning medium rather than as an aesthetic study in itself. This, he believes, has had the effect of cutting children off from the variegated world of the theatre and, in the broader

sense, from any collective aesthetic or historical dimension. This book is intended mainly for the use of primary and secondary school teachers.

Though written for younger readers, *Look for Me Under the Rainbow* will appeal to anyone who cherishes our beautiful planet and wishes to protect its treasures. Postmodern Narrative Theory Mark Currie 2010-12-09 How have developments in literary and cultural theory transformed our understanding of narrative? What has happened to narrative in the wake of poststructuralism? What is the role and function of narrative in the contemporary world? In this revised, updated and expanded new edition of an established text, Mark Currie explores these central questions and guides students through the complex theories that have shaped the study of narrative in recent decades. *Postmodern Narrative Theory, Second Edition*: • establishes direct links between the workings of fictional narratives and those of the non-fictional world • charts the transition in narrative theory from its formalist beginnings, through deconstruction, towards its current concerns with the social, cultural and cognitive uses of narrative • explores the relationship between postmodern narrative and postmodern theory more closely • presents detailed illustrative readings of known literary texts such as Stevenson's *Dr Jekyll and Mr Hyde* and Conrad's *Heart of Darkness*, and now features a new chapter on Coetzee's *Elizabeth Costello* and *Slow Man*. Approachable and stimulating, this is an essential introduction for anyone studying postmodernism, the theory of narrative or contemporary fiction.

Judith Marko Marulić 1991 From the preeminent writer of Taiwanese nativist fiction and the leading translator of Chinese literature come these poignant accounts of everyday life in rural and small-town Taiwan. Huang is frequently cited as one of the most original and gifted storytellers in the Chinese language, and these selections reveal his genius. In "The Two Sign Painters," TV reporters ambush two young workers from the country taking a break atop a twenty-four-story building. "His Son's Big Doll" introduces the tortured soul inside a walking advertisement, and in "Xiaoqi's Cap" a dissatisfied pressure-cooker salesman is fascinated by a young schoolgirl. Huang's characters—generally the uneducated and disadvantaged who must cope with assaults on their traditionalism, hostility from their urban brethren and, of course, the debilitating effects of poverty—come to life in all their human uniqueness, free from idealization.

From Dawn till Dusk Evangelos D. Protopapadakis 2019-11-15 From Dawn till Dusk embraces the conceptual challenges often associated with Bioethics by taking the reader on a journey

that embodies the circle of life and what it means to be human. The beginning and the end of life have always been an impossible riddle to humans. Bioethics does not aspire to unveil utter truths regarding the purpose of our existence; on the contrary, its task is to settle controversial issues that arise within this finite, very fragile and vulnerable life, yet a life we still have to live. This book discusses thorny ethical issues that transcend time and are related to the dawn and the dusk of life: abortion and infanticide, genetic engineering, human reproductive cloning, the fear of death, rational suicide, and the right to die. The book's highest aspiration, though, is to both provide the reader with an opportunity to see the world from different perspectives and to showcase the irresistible charms of bioethical debates.

``This book brings contemporary issues in bioethics into conversation with different philosophical views, both ancient and modern. The result is a rewarding and very readable discussion on a range of important questions about life and death." Peter Singer, Princeton University & University of Melbourne ``Evangelos D. Protopapadakis' book is a philosophically rich discussion of major topics in bioethics about issues of life and death. The work is original and important. I believe the author is correct to argue that the central issues of bioethics at its core in these areas should be understood as moral in nature and should not be framed as principally legal or scientific." Tom L. Beauchamp, Georgetown University

``Bioethics is - in philosophical terms - a new field. But it builds on centuries of thought on the human condition, the meaning of life, and the fundamental ethical question: What should we do? Evangelos D. Protopapadakis' masterful volume traces modern bioethical debates, with all their increasing scientific complexity, back through ancient and modern philosophical thought. The result is a sparkling and engaging journey through the history of ideas and the current ethical challenges at the beginning and end of life." Julian Savulescu, Uehiro Chair in Practical Ethics, University of Oxford ``As the Head of the Greek Unit of the Chair, but also as an ethicist and a bioethicist, Professor Protopapadakis has never been weary to contribute to philosophically nuanced bioethical debates. This inspiring book is the manifestation of his attitude towards Bioethics." Amnon Carmi, Holder of the UNESCO Chair in Bioethics (Haifa)

``This book presents important connections between current positions and classical approaches in ethics, written in a lively way." Hans-Werner Ingensiep, Universität Duisburg-Essen ``Evangelos Protopapadakis' book provides nuanced insights describing the complex ethical problems which clinicians and society must address. This creative analysis incorporates ancient and contemporary historical examples to illuminate the disparate arguments used to justify conflicting philosophical responses." Susan M. Miller MD, MPH

Fathers and Forefathers Slobodan Selenic 2011-06-08 A touching story of cultural difference and tested loyalties. Set in Belgrade before WWII, *Fathers and Forefathers* tells the story of the marriage between a Steven, a Serb, and Elizabeth, an Englishwoman. After meeting at an English university they marry and leave England to build their life together. Steven's narrative and Elizabeth's letters home reveal two very different personal accounts of the difficulties this involves. Raised in Serbia their son, Mihajlo, is ashamed of his mixed parentage and rebels against his non-Serbian ancestry. On the eve of the war, Steven's loyalties are challenged when his counsel is sought by both the Serbian king and the opposition. He resolves to keep his distance from the conflict, but Mihajlo's more radical response forces him to become involved, and tragedy engulfs the family.

Growing Community Health Literacy through Libraries Prudence W. Dalrymple 2020-08-24 The capacity to understand and communicate health information is a major international health concern. Sponsored by the Health and Biosciences Section of International Federation of Library Associations, this book highlights the contribution that librarians are making to improving health literacy and enabling citizens to be active participants in the management of their own health. Knowledge is power and the World Health Organization recognizes that health literacy, involving effective access to and understanding of health information, is essential to health and well-being in society by empowering and enabling citizens to participate in their own healthcare. The book presents inspiring studies from an international group of authors showing how libraries and librarians are partnering with diverse sectors of society including universities, hospitals, public health clinics, community-based organisations, voluntary bodies and government agencies, to help citizens understand and manage their health. It provides guidance by example to suggest how libraries can help citizens participate in their healthcare and their communities by collaborating with others to increase health literacy in society.
