**Living in Utopia** Lucy Sargisson 2016-11-28 Utopia is, literally, the good place that is no place. Utopias reveal people's dreams and desires and they may gesture towards different and better ways of being. But they are rarely considered as physical, observable phenomena. In this book Sargisson and Sargent, both established writers on utopian theory, turn their attention to real-life utopian communities. The book is based on their fieldwork and extensive archival research in New Zealand, a country with a special place in the history of utopianism. A land of opportunity for settlers with dreams of a better life, New Zealand has, per capita, more intentional communities - groups of people who have chosen to live and sometimes work together for a common purpose - than any country in the world. Sargisson and Sargent draw on the experiences of more than fifty such communities, to offer the first academic survey of this form of living utopian experiment. In telling the story of the New Zealand experience, *Living in Utopia* provides both transferable lessons in community, cooperation and social change and a unique insight into the utopianism at the heart of politics, society, and everyday life.

Slipping into Paradise Jeffrey Moussaieff Masson 2008-12-30 In the tradition of *Under the Tuscan Sun* and *A Year in Provence*, here is Jeffrey Moussaieff Masson's ode to his personal paradise—his adopted home, New Zealand. After living in California, why did Masson settle—out of all the places on earth—in such a faraway land? It turns out that while visiting a beautiful sandy beach just fifteen minutes from bustling Auckland, Masson and his family were utterly seduced by the exotic locale. There was little deliberation. This place, surrounded by lush forest on a bay dotted with volcanic islands, would be their new home. Masson takes readers on a remarkable journey to another world, as he and his family “slip into” the paradise that is New Zealand. For anyone who has ever dreamed of finding utopia, Masson reveals a country where neighbors talk to one another and provide a sense of real community—rarely, outside of the big cities, locking their doors—and where politics are as mellow as the weather. New Zealand is also a land of spectacular scenery, made even more famous for being the shooting location for the *Lord of the Rings* films. The flora is plentiful. Mangroves, banana plants, papaya trees, and more than ten thousand species of ferns grow wild and freely. The fauna is benign. There are no snakes, tarantulas, or scorpions. Children can walk to school barefoot without a care—there is nothing to sting them, bite them, or give them a rash. In the blue waters near the lush coastline, dolphins and orcas abound. While describing his love affair with the country and his affinity for its citizens, Masson reflects on the meaning of home, the importance of acting on intuition, and what happens when we lose our connection to the place we live in. Responding to an impulse, Masson reveals, he realized a dream. Featuring a its glossary of phrases used by New Zealanders and important Maori words, as well as the author's recommended travel itinerary, *Slipping into Paradise* is ideal for anyone planning a visit to this exquisite land. Full of photographs, delightful anecdotes, and little-known facts (jogging, for example, was invented in New Zealand), *Slipping into Paradise* is also a book for those who fantasize about dramatically changing their lives—and who imagine something better for themselves. Jeffrey Masson's message: New Zealand awaits.

Global Happiness: A Guide to the Most Contented (and Discontented) Places around the Globe Roman Adrian Cybriwsky 2015-12-14 An authoritative, comprehensive, and highly accessible assessment of the happiest and least happy countries and cities in the world, as well as of the happiest and least happy cities and states in the United States. Which are the happiest countries in the world and which nations are the least contented? Which cities in the world are considered the happiest and unhappiest? Which American cities and states are at the top of the list and which ones rank poorly? Presenting findings that are based on solid data and authoritative information, this book offers a bold take on the geography of happiness around the world—and presents results that are often unexpected. It enables readers to make informed cross-cultural comparisons between countries and world cities, and uniquely synthesizes global information in a way that allows us answer the important question: "What makes us happy?" A book like no other, *Global Happiness: A Guide to the Most Contented (and Discontented) Places around the Globe* tackles the complex equation of determining what places offer the happiest living experiences by considering quality of life, prospects for the future, social relations, confidence in good government, and many other factors that together constitute critical differences in living experience. The author—a professor of geography and urban studies as well as a world traveler—also takes into account the current events, politics, and environmental situations of specific regions, states, and cities, and considers what residents of the cities and countries say about their own places to derive accurate and fair assessments. • Supplies insightful and interesting information about all of the most contented and least contented countries and cities around the globe—and the factors that make the people who live in these places notably happy or discontented • Examines and explains the complexity of happiness and contentment as they apply to specific places and regions in the world • Synthesizes and evaluates the maze of existing rankings of cities and countries in the world with fresh and original information to produce a novel assessment of the geography of global happiness • Presents information about cities and countries in all parts of the world fairly and in both positive and negative lights

**Changing Times** Jenny Carlyon 2014-02-01 From the "golden weather" of postwar economic growth, through the globalization, economic challenges, and protest of the 1960s and 1970s, to the free market revolution and new immigrants of the 1980s and 1990s and beyond, this account, the most complete and comprehensive history of New Zealand since 1945, illustrates the chronological and social history of the country with the engaging stories of real individuals and their experiences. Leading historians Jennifer Carlyon and Diana Morrow discuss in great depth New Zealand's move toward nuclear-free status, its embrace of a small-state, free-market ideology, and the seeming rejection of its citizens of a society known for the "worship of averages." Stories of pirate radio in Auckland's Hauraki Gulf, the first DC8 jets landing at Mangere airport, feminists liberating pubs, public protests over the closing of post offices, and indigenous language nests vividly demonstrate how a postwar society famous around the world for its dull conformity became one of the most ethnically, economically, and socially diverse countries on earth.

**New Zealand - Country Of Peace** Margaret Bell Thomson 2012-11-29 This book features places of peace in the communities of New Zealand, also known as Aotearoa. It shows how City and District Councils have worked to enhance their areas by encouraging people to help establish quiet places where they can enjoy artwork, walks, or merely sit in gardens and parks to enjoy peace. Many people have take part in establishing these peaceful places. Some installations have resulted from competitions to have sculptures in public places; other peace sites are memorials to history, like the Hiroshima flame in the Wellington Botanic Gardens. Rekohu, the Chatham Islands, is also included, for the islands, with its Moriori history, is known as a specials place of peace. Adults, children, volunteers and general workers have all taken part in seeing that our communities have areas of peace.

*New Zealand Lizards* David G. Chapple 2016-10-05 This edited volume is a timely and comprehensive summary of the New Zealand lizard fauna. Nestled in the south-west Pacific, New Zealand is a large archipelago that displays the faunal signatures of both its Gondwanan origins, and more recent oceanic island influences. New Zealand was one of the last countries on Earth to be discovered, and likewise, the full extent of the faunal diversity present within the archipelago is only just starting to be appreciated. This is no better exemplified than in lizards, where just 30 species (20 skinks, 10 geckos) were recognized in the 1950s, but now 104 are formally or informally recognized (61 skinks, 43 geckos). Thus, New Zealand contains one of the most diverse lizard faunas of any cool, temperate region on Earth. This book brings together the world's leading experts in the field to produce an authoritative overview of the history, taxonomy, biogeography, ecology, life-history, physiology and conservation of New Zealand lizards.

*Government Reform in New Zealand* Mr.Graham C. Scott 1996-10-31 New Zealand's reforms of economic policy and public sector management systems have attracted international attention. Beginning in 1984, the country adopted a comprehensive and vigorous program of macroeconomic adjustment that involved redefining the state's role in the economy and social policy. This paper provides an overview of the central frameworks of government management in New Zealand, with particular emphasis on financial management.

**New Zealand And The World: Past, Present And Future** Patman Robert G 2017-12-28 The aim of this book is to provide the reader with an overview of New Zealand's international relations. It is a country that has often shown an international presence that is out of proportion to the modest spectrum of national economic, military and diplomatic capabilities at its disposal. In this volume, the editors have called upon a range of specialists representing a range of views drawn from the worlds of academia, policy-making, and civil society. It is an attempt to present a rounded picture of New Zealand's place in the world, one that does not rely exclusively on any particular perspective. The book does not claim to be exhaustive. But it does seek to present a more wide-ranging treatment of New Zealand's foreign

relations than has generally been the case in the past. Five broad themes help shape and organize the contributions to the text: History and National Identity Economics and Regionalism Morality Geopolitics and National Security Interests Diplomatic Engagement and Multilateralism Contents: Introduction: New Zealand and the World: Past, Present and Future (Iati Iati and Robert G Patman) History and National Identity: Building Foreign Policy in New Zealand: The Role of the University of Otago Foreign Policy School, 1966-1976 (Austin Gee, Robert G Patman and Christopher Rudd) The New Zealand Prime Minister and the 1985 Otago Foreign Policy School — A Pivotal Moment for the Labour Government's Foreign Policy (Ken Ross) Gallipoli, National Identity and New Beginnings (Ian McGibbon) National Identity and New Zealand Foreign Policy (Terence O'Brien) Exporting Aotearoa New Zealand's Biculturalism: Lessons for Indigenous-Settler Relations in Canada (David B MacDonald) What Does New Zealand's Changing Demography Mean for Its Place in the World? (Andrew Butcher) Economics and Regionalism: New Zealand and Its Asia-Pacific Destiny: Sailing the Waka in Ever-Widening Circles (Brian Lynch) New Zealand's Evolving Response to Changing Asia-Pacific Trade and Economic Currents Since 1989 (Robert Scollay) New Zealand and the Trans-Pacific Partnership Agreement Negotiations: Strategy, Content and Lessons (Jane Kelsey) New Zealand's Strategic Influence and Interests in an Increasingly Global Pacific (Anna Powles) Old Friends in the New Asia: New Zealand, Australia and the Rise of China (Hugh White) Morality: Kāwanatanga, Tino Rangatiratanga and the Constitution (Ranginui Walker and Tracey McIntosh) What Happened to the New Zealand Peace Movement? **The Penguin History of New Zealand** Michael King 2011 New Zealand was the last country in the world to be discovered and settled by humankind. It was also the first to introduce full democracy. Between those events, and in the century that followed the franchise, the movements and the conflicts of human history have been played out more intensively and more rapidly in New Zealand than anywhere else on Earth. The Penguin History of New Zealand, a new book for a new century, tells that story in all its colour and drama. The narrative that emerges is an inclusive one about men and women, Maori and Pakeha. It shows that British motives in colonising New Zealand were essentially humane; and that Maori, far from being passive victims of a 'fatal impact', coped heroically with colonisation and survived by selectively accepting and adapting what Western technology and culture had to offer. This book, a triumphant fruit of careful research, wide reading and judicious assessment, was an unprecedented best-seller from the time of its first publication in 2003.

**New Zealand Health System Review** World Health Organization (WHO) Staff 2014-05-22 The Health Systems in Transition (HiT) profiles are country-based reports that provide a detailed description of a health system and of reform and policy initiatives in progress or under development in a specific country. Each profile is produced by country experts in collaboration with an international editor. In order to facilitate comparisons between countries, the profiles are based on a common template used by the Asia Pacific and European Observatories on Health Systems and Policies. The template provides detailed guidelines and specific questions, definitions and examples needed to compile a profile.
