Abject Expressionism Ron English 2007 This is a comprehensive survey of Ron English's art, covering 20 years of his career, from staged photography to neo-surrealist oil paintings, from street art to culture jamming. An important look at the work of an artist who has been at the forefront of movements in photography, painting, activist art, and underground music. One aspect of Ron English's work involves 'liberating' commercial billboards with his own messages. Frequent targets of his work include Joe Camel, McDonalds, and Mickey Mouse. As the "celebrated prankster father of agit-pop," he wrangles carefully created corporate iconographies so that they are metaphorically turned upside down, and are used against the corporations they are meant to represent.

Animal Voices, Animal Guides Dawn Baumann Brunke 2009-05-21 How to connect with animal guides to expand individual and planetary awareness • Reveals techniques for exploring dreams, shamanic journeys, healing, and shapeshifting with animals • Presents words of wisdom from cats, dogs, horses, llamas, rabbits, ravens, bears, and even insects As companions, helpers, and spiritual guides, animals have always held a special relationship with humans. As we access our natural ability to communicate with animals, we cannot help but open ourselves more profoundly to life, other human beings, and our own deep nature--the essence of who we really are. *Animal Voices, Animal Guides* presents a wide variety of ways in which we can tune in to the "universal language" of all life and reconnect with the animal kingdom in more conscious, meaningful ways.

Through myths, shamanic journeys, and dreams we meet our power animals, spirit animals, and wise animal guides. The exercises, meditations, stories, and experiments included are designed to help us tune in to the subtle whispers of nature and expand our awareness. We learn what sled dogs have to teach us about teamwork, how llamas see themselves as healers of the world, and how it would feel to inhabit the skin of a shark. Filled with advice from animal communication professionals and actual conversations with animals, *Animal Voices, Animal Guides* is an invitation to explore our inner ways of knowing. When we learn how to use all our senses to listen to animals, we will find out how to listen to our authentic self as well.

Nature and Social Theory Adrian Franklin 2002 This book asks the questions can 'Man' be separated from 'Nature'? Is it valid to seek to 'control' Nature? It argues that the firm modern boundaries between nature and culture have been breached and pulls together new strands of thinking about nature which suggest that humanity and nature have never been separate. The argument is developed through a critical discussion of the Romantic ideal of pure nature, unsullied by humanity and largely confined to fragile margins in need of protection and more recent discourses which identify nature with environment, and cast man in the role of a polluter and destroyer.

Science in the New Age David J. Hess 1993 In Science in the New Age, David Hess explores ideologies of the paranormal in the United States. He offers a map of the labyrinth of views put forward by parapsychologists and skeptical debunkers, spirit channelers and crystal healers, Hollywood poltergeist scripts, and prophets of the New Age. Adopting a cultural perspective, Hess moves beyond the question of who is right or wrong to the cultural politics of how each group constructs its own boundaries of true and false knowledge. Hess begins by looking at each group's unique version of knowledge, science, and religion and at its story about the other groups. Comparing the various discourses, texts, writers, and groups as cultures, he shows how skeptics, parapsychologists, and New Agers may disagree vehemently with each other, but end up sharing many rhetorical strategies, metaphors, models, values, and cultural categories. Furthermore, he argues, their shared "paraculture" has a great deal in common with the larger culture of the United States. The dialogue on the paranormal, Hess concludes, has as much to do with gender, power, and cultural values as it does with spirits, extrasensory perception, and crystal healing.

A Little History of the World E. H. Gombrich 2014-10-01 E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale

edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

Three Men in a Boat Illustrated Jerome Jerome 2020-11-23 *Three Men in a Boat (To Say Nothing of the Dog)*, published in 1889, is a humorous account by Jerome K. Jerome of a boating holiday on the Thames between Kingston and Oxford. The book was initially intended to be a serious travel guide, with accounts of local history along the route, but the humorous elements took over to the point where the serious and somewhat sentimental passages seem a distraction to the comic novel. One of the most praised things about *Three Men in a Boat* is how undated it appears to modern readers, the jokes seem fresh and witty even today. The three men are based on Jerome himself (the narrator J.) and two real-life friends, George Wingrave (who went on to become a senior manager in Barclays Bank) and Carl Hentschel (the founder of a London printing business, called Harris in the book), with whom he often took boating trips. The dog, Montmorency, is entirely fictional, but "as Jerome admits, developed out of that area of inner consciousness which, in all Englishmen, contains an element of the dog." The trip is a typical boating holiday of the time in a Thames camping skiff. This is just after commercial boat traffic on the Upper Thames had died out, replaced by the 1880s craze for boating as a leisure activity.
