The Wardrobe Judy Nunn 2012-09-01 A heart-warming short story of friendship and love from the pen of bestselling novelist Judy Nunn. When struggling young journalist Nancy buys a tiny rundown terrace in Surry Hills she knows nothing about the previous owner, other than the old lady died six months earlier. But a dusty box retrieved from underneath the old wardrobe in an upstairs bedroom soon changes all that. And the lives, loves and losses of Emily Roper and her best friend Margaret are tantalisingly revealed...

I Moved Your Cheese Deepak Malhotra 2013-09-02 The author of *Negotiating the Impossible* "tackles our assumptions about business and life with humor, zest, and wisdom in this delightful fable" (Daniel H. Pink, *New York Times*-bestselling author). If you were a mouse trapped in a maze and someone kept moving the cheese, what would you do? In a world where most mice dutifully accept their circumstances, ask no questions, and keep chasing the cheese, Deepak Malhotra tells an inspiring story about three unique and adventurous mice—Max, Big, and Zed—who refuse to accept their reality as given. *I Moved Your Cheese* reveals what is possible when we finally discard long-held and widely accepted assumptions about how we should live our lives. After all, achieving extraordinary success, personal or professional, has always depended on the ability to challenge assumptions, reshape the environment, and play by a different set of rules—our own. But rejecting deeply ingrained beliefs is not easy. As Zed explains, "You see, Max, the problem is not that the mouse is in the maze, but that the maze is in the mouse." "Deepak Malhotra allows you to glimpse a world of your own making without the limits and barriers that others create." —Stephen R. Covey, *New York Times*-bestselling author of *The 7 Habits of Highly Effective People* "A magnificent story with a powerful message. As someone who has encouraged scores of professionals into breaking through the maze and defining their own pursuits, I find this to be a gem of a book." —Vinod Khosla, cofounder, former CEO and Chairman, Sun Microsystems, and

founder, Khosla Ventures “This book’s message is both profound and durable. Malhotra has left the maze, and so can we.” –Foreword Reviews

Investing in Our Future Buzz Aldrin 2018-07-15 Having the desire, ability, and belief in yourself to innovate beyond what past generations ever imagined possible, explore ground none has ever walked on, and live and work in ways no one has ever lived and worked--these skills may not only increase the next generation's chances for success in the new century, in an employability and globally competitive sense. If Stephen Hawking and others are correct, they may be necessary to ensure our survival. *Investing in Our Future: Preparing the Next Generation to Occupy Mars* speaks to the need to cultivate new innovators and explorers whose dreams will move us forward, and whose travels will likely take us back to the moon and beyond. Its threefold purpose is: To reignite our passion to be limitless, ever-curious problem solvers, To foster a STEM-literate citizenry to innovate in ways we cannot yet imagine, and; To frame plans for leveraging what we know to enable the next generation to visit and possibly live and thrive on Mars. In this book, the authors deliver a compelling, succinct, and timely vision for recasting our approach to K-12 education to prepare a changing world for a successful future.

Reflect Me K. B. Webb 2013-09-21 If you're looking for a story about a sweet, innocent virgin who rides off into the sunset with a reformed bad boy, then you're looking in the wrong place. Some people don't get a happily ever after. Molly Scott is one of those people, and she knows it. With the kind of past that she has, and the secrets that she holds, she knows that even if she found Prince Charming, he wouldn't want her. She refuses to dwell on her less than ideal situation though. This is her life, no point in complaining. Logan Wade had his life planned out, until all his dreams came crashing down around him. Now, he's come back to the town he swore he would never see again to start fresh. He has no plans to ever settle down again, that's how he ended up back here in the first place. When Molly and Logan meet, they are forced to rethink the lives they thought they knew and the futures they were so sure they wanted. Suddenly, Molly wonders if there is a better life outside of the hell she has built for herself, and Logan begins to rethink his resistance towards settling down again. They say love conquers all, but Molly and Logan are about to find out that sometimes love just isn't enough

Honey-Comb of Praises Celia C. Tillman 2016-09-30 This little book of poems, praises, prayers, and speeches has been gleaned from my personal experience with God through the reading of his Divine Word. It is my prayer, however, that all who read this little book may be encouraged to explore and read the Holy Book (Bible). The Bible is like sweetness from the honey comb, which is nourishment for the sin-sick soul. How sweet are thy words unto my taste! Yea, sweeter than honey to my mouth. Through thy precepts I get understanding: therefore I hate every false way (Psalm 119: 103-104).

Visual Basic Express allowing you to build Graphical User Interfaces and add Serial Port functions to create communications programs. Part 1 - Serial Port via USB Made Almost Easy -- In the first section you will learn the basics of serial communications using a USB UART bridge. You will further learn to write a simple terminal program in C# and Visual Basic Express .NET. Part 2 - PC to Microcontroller Conversations -- In the second section you will build on what you have learned and get into more details about GUI programming, using the SerialPort class, and some useful software tools such as XML. You will bring it all together by building a Developer Terminal, which will have most of the bells and whistles that you would want for communicating between a PC and a microcontroller. You will end this section with some neat hardware experiments. Part 3 - The FTDI FT232R -- In the final section you will chuck the serial port paradigm and communicate directly with the FT232R. You will learn how to use the Smiley Micros port of the FTDI D2XX driver, you will do some more hardware experiments bit-banging the BBUSB pins, and finally you will build a software programmer for the FT232R.

The Biopolitics of Gender Jemima Repo 2016 This title provides a theoretically and methodologically new and distinct approach to gender through the frameworks of biopolitics and genealogy, theorising it as a historically specific apparatus of biopower. Through the use of a diverse mix of historical and contemporary documents, the book explores how the problematisation of intersex infant genitalia in 1950s psychiatry propelled the emergence of the gender apparatus in order to socialise sexed individuals into the ideal productive and reproductive subjects of White, middle-class postwar America.

The 9th Symbol LaZealtrice Hall-Powell 2011-11-24 Rose is a princess, a Cinder, and half-human. She is the last one born of her kind, and on her twenty-first birthday, she must enter the woods and travel to find her Prince, as her sisters did before her. ". . . And we will all dance at the Grand Ball," her sisters would always say. But the Human servants are keeping a secret that could prevent the Cinders from reaching their Happily Ever After....Hidden in Rose's dreams and vision are the answers of the past between Cinders and Humans, and she is quickly running out of time trying to solve their hidden messages. She knows the answer lies in her first clue--identifying an animal she has never seen before--that persistent vision of a furry white animal, holding a gold metal object and exclaiming, "Oh dear! Oh dear! I shall be too late!"

Blueprint for Black Power Amos N. Wilson 1998 Afrikan life into the coming millennia is imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality. (Back cover).

Third Generation Mobile Communication Systems Ramjee Prasad 2000 Get a clear, complete debriefing on the current status of the third generation radio interface technology now being standardized by the international body 3GPP. This timely new work, written by Europe's leading mobile communications researchers from manufacturing, operators, and academia, gives you a thorough explanation of the basic principles of multiple access technologies, including receiver algorithms, coding, and modulation, to help you stay up-to-date with the development of third generation systems. Much of the research presented here originated in the FRAMES (Future Radio Wideband Multiple Access System) Project, which was partly funded by the European Commission. It served as the basis for ETSI's decision to adopt W-CDMA/TD-CDMA as the air interface standard for third generation systems, as well as for the actual specification work in 3GPP.

Cheap at Half the Price Jeffrey Archer 2017-05-02 In *Cheap at Half the Price*, by #1 New York Times bestselling author and master of the short story Jeffrey Archer, the conniving Consuela Rosenheim hunts down her ideal birthday present – and next husband – in London. Will she accomplish her biggest swindle yet, or will she finally get her just desserts? The wily woman is, as Archer opens, “naturally superior to men,” and a pure joy for Archer fans new and old.

Bream Gives Me Hiccups Jesse Eisenberg 2015-08-31 The wildly inventive debut collection of stories by the Oscar-nominated star of *The Social Network*. “Hilarious . . . It’s a hoot” (People, The Best New Books). Jesse Eisenberg, known for his iconic film roles, his regular pieces in the *New Yorker* and two critically acclaimed plays, proves himself “a deeply original comic voice” in these 28 stories” about the funniness, sadness, and strangeness of everyday life and they really made me laugh” (Roz Chast). Moving from contemporary LA to the dorm rooms of an American college to ancient Pompeii, Eisenberg throws the reader into a universe of social misfits, reimaged scenes from history, and ridiculous overreactions; a college freshman forced to live with a roommate is

stunned when one of her ramen packets goes missing (“She didn’t have ‘one’ of my ramens. She had a chicken ramen.”); Alexander Graham Bell has teething problems with his invention (“I’ve been calling Mabel all day, she doesn’t pick up! Yes, of course I dialed the right number–2!”); and in the title story, a precocious and privileged nine-year-old boy finds himself in the uncomfortable position as an amateur restaurant critic. Featuring illustrations by award-winning cartoonist Jean Jillian, this “alphabet soup of sketches, riffs, and innovations” (Seattle Times) explores the various insanities of the modern world, “playfully bringing both familiar and wholly original scenarios to life” (Marie Claire).
