Women's Words Mona Ozouf 1997 French historian Mona Ozouf argues that French feminism lacks the rancor and resentment of its counterpart in America and explains why this placid brand of feminism is

uniquely French. Ozouf portrays ten French women of letters whose lives span the period from the eve of the French Revolution to the resurgence of the feminist movement in the late 20th century.

These three powerful and evocative stories are heavy with the weight of the human condition, and rich with atmosphere. In them, an ageing labourer, a woman travelling in North Africa with her husband, and a schoolteacher tasked with transporting a prisoner each face their own moral crises.

Dictionary of Arabic and Allied Loanwords Federico Corriente 2008 One of the main cultural consequences of the contacts between Islam and the West has been the borrowing of hundreds of words, mostly of Arabic but also of other important languages of the Islamic world, such as Persian, Turkish, Berber, etc. by Western languages. Such loanwords are particularly abundant and relevant in the case of the Iberian Peninsula because of the presence of Islamic states in it for many centuries; their study is very revealing when it comes to assess the impact of those states in the emergence and shaping of Western civilization. Some famous Arabic scholars, above all R. Dozy, have tackled this task in the past, followed by other attempts at increasing and improving his pioneering work; however, the progresses achieved during the last quarter of the 20th c., in such fields as Andalusi and Andalusi Romance dialectology and lexicology made it necessary to update all the available information on this topic and to offer it in English.

The Rejection of Consequentialism Samuel Scheffler 1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

The Heart of the Leopard Children Wilfried N'Sondé 2016-07-11 A nameless young man lives in the housing projects outside of Paris. When he was a child, his parents moved with him from the Congo to France, hoping in vain to escape poverty and violence. His best friend, Drissa, is in a psychiatric hospital and now Mireille, his girlfriend, the woman with whom he has shared his childhood and hopes, has left him to reconnect with her Jewish roots in Israel. During a night out to drown the pain of his heartache, there is a fight with a policeman, the policeman dies, and the young man is arrested and taken to jail. Between police beatings and abrupt interrogations, his memory becomes his sole ally to escape from the exiguous space in which he is confined. Half-conscious and delirious, he reflects on his journey from the land of his ancestors to his life in the projects with Drissa and Mireille. In *The Heart of the Leopard Children*, N'Sondé explores the themes of love and pain, belonging and uprooting, desire and fear—all with an implacable and irresistible accuracy. Wilfried N'Sondé's first novel awakens the reader with an

urban symphony of desire and lost love, attuned to the violence that accompanies the struggle for social ascension and a sense of belonging, and the paralyzing sentiment of betrayal that inhabits a young man caught between traditions and cultures. Awarded the Prix des Cinq Continents de la Francophonie and the Prix Senghor for the originality of his work, the author captures the sounds, rhythms and pleas of a young man who pulls on the alarm from his prison cell to warn against the multiple barriers of confinement that risk the future of certain sectors of French youth today.

Blue White Red Alain Mabanckou 2013-02-21 “Mabanckou dazzles with technical dexterity and emotional depth” in his debut novel, winner of the Grand Prix Littéraire de l’Afrique Noire (Publishers Weekly, starred review). This tale of wild adventure reveals the dashed hopes of Africans living between worlds. When Moki returns to his village from France wearing designer clothes and affecting all the manners of a Frenchman, Massala-Massala, who lives the life of a humble peanut farmer after giving up his studies, begins to dream of following in Moki’s footsteps. Together, the two take wing for Paris, where Massala-Massala finds himself a part of an underworld of out-of-work undocumented immigrants. After a botched attempt to sell metro passes purchased with a stolen checkbook, he winds up in jail and is deported. Blue White Red is a novel of postcolonial Africa where young people born into poverty dream of making it big in the cities of their former colonial masters. Alain Mabanckou’s searing commentary on the lives of Africans in France is cut with the parody of African villagers who boast of a son in the country of Digol. Praise for Alain Mabanckou and Blue White Red “Mabanckou counts as one of the most successful voices of young African literature.” –Internationales Literaturfestival Berlin “The African Beckett.” –The Economist “Blue White Red stands at the beginning of the author’s remarkable and multifaceted career as a novelist, essayist and poet . . . this debut novel shows much of his style and substance in remarkable ways . . . Byzantium After Byzantium Nicolae Iorga 2023-01-24 Originally published in French in 1935, the author's formula Byzantium after Byzantium defines several centuries of world history. Iorga points out the great contributions of Byzantine civilization to the Western world, especially during the Renaissance. He demonstrates that Byzantium survived through its people and local autonomies, as well as through its exiles--clerics, scholars, merchants, and political officials. One of the most important expressions of this was found in the Romanian principalities where Greeks from the Phanar district of Istanbul played a major role in Romanian political life, defining an entire period of Romanian history--the Phanariot Period. They continued the Byzantine ideas, aspirations, education, and way of life. All of this allows us to speak of a Byzantium after Byzantium.

Consuming Youth Robert Latham 2007-11-01 From the novels of Anne Rice to *The Lost Boys*, from *The Terminator* to cyberpunk science fiction, vampires and cyborgs have become strikingly visible figures within American popular culture, especially youth culture. In *Consuming Youth*, Rob Latham explains why, showing how fiction, film, and other media deploy these ambiguous monsters to embody and work through the implications of a capitalist system in which youth both consume and are consumed. Inspired by Marx's use of the cyborg vampire as a metaphor for the objectification of physical labor in the factory, Latham shows how contemporary images of vampires and cyborgs illuminate the contradictory processes of empowerment and exploitation that characterize the youth-consumer system. While the vampire is a voracious consumer driven by a hunger for perpetual youth, the cyborg has incorporated the machineries of consumption into its own flesh. Powerful fusions of technology and desire, these paired images symbolize the forms of labor and leisure that American society has staked out for contemporary youth. A startling look at youth in our time, *Consuming Youth* will interest anyone concerned with film, television, and popular culture.

Invasion of the Sea Jules Verne 2013-08-15 Jules Verne, celebrated French author of *Twenty Thousand Leagues Under the Sea* and *Around the World in 80 Days*, wrote over 60 novels collected in the popular series "Voyages Extraordinaires." A handful of these have never been translated into English, including *Invasion of the Sea*, written in 1904 when large-scale canal digging was very much a part of the political,

economic, and military strategy of the world's imperial powers. Instead of linking two seas, as existing canals (the Suez and the Panama) did, Verne proposed a canal that would create a sea in the heart of the Sahara Desert. The story raises a host of concerns -- environmental, cultural, and political. The proposed sea threatens the nomadic way of life of those Islamic tribes living on the site, and they declare war. The ensuing struggle is finally resolved only by a cataclysmic natural event. This Wesleyan edition features notes, appendices and an introduction by Verne scholar Arthur B. Evans, as well as reproductions of the illustrations from the original French edition.
