Homefront Hero Allie Pleiter 2012-05-01 "Dashing and valiantly wounded, Captain John Gallows could have stepped straight out of an army recruitment poster. Leanne Sample can't help being impressed - although the lovely Red Cross nurse tries to hide it. She knows better than to get attached to the daring captain who is only home to heal and help rally support for the war's final push. As soon as he's well enough, he'll rush back to Europe, back to war - and far away from South Carolina and Leanne. But when an epidemic strikes close to home, John comes to realize what it truly means to be a hero - Leanne's hero" -- Cover verso.

devoted to the improvement and development of the graduate nurse.

International Handbook of Underwater Archaeology Carol V. Ruppe 2013-11-11

Although underwater archaeology has assumed its rightful place as an important subdiscipline in the field, the published literature has not kept pace with the rapid increase in the number of both prehistoric and historic underwater sites. The editors have assembled an internationally distinguished roster of contributors to fill this gap. The book presents geographical and topical approaches, and focuses on technology, law, public and private institutional roles and goals, and the research and development of future technologies and public programs.

The Home Team RuthAnn Lobo 1997-09 America's foremost woman basketball player and her mother share their thoughts on family, sports, feminism, values, and the issues confronting young women today

Making a Way Emily Davenport 2010-10 Stories of the Deep South conjure antebellum images of magnolia trees, honeysuckle vines, balmy days, hot love, and strong women. "Making a Way" portrays a different version of the South. In this memoir, author Emily Davenport tells about her life as a twentieth-century woman who followed many of the same traditions but at a different time and in a different way. Telling the tale of her life from her birth in 1923 in Columbia, South Carolina, through her youth as an only child, this story provides a glimpse into the Roaring Twenties in the South. Emily's father demonstrated a strong work ethic, and her mother inspired a thirst for knowledge. It was a time when a man's word was his bond, and honesty and integrity were the mark of a good citizen. "Making a Way" tells how Emily received her education not only from books but from her varied experiences. Following in her mother's footsteps, she became a nurse and later found, at age fifty another talent that lay buried deep within her. Today, this Southern woman continues to give her time and energy to others. Hers is a life well lived with ups and downs; she never gives up, and she keeps the faith that tomorrow will be better.

Encyclopedia of Nursing (6 Volume Set) Peyton P. O'Donnell 2020-07-22 This six volume set presents important research on nursing. Some of the topics discussed herein include:· advanced practice nursing· the nursing workforce· nurse practitioners· physician assistants· certification and licensure· psychiatric-mental health nursing· rehabilitation · nursing education and nursing students· bioengineering nursing· immunization for healthcare workers

An Hour by Sun M. D. Leonard C. Durrence 2006-04-01 "An Hour by Sun" is a trip down lanes of memory, rows of tobacco and corn on a thriving Georgia farm and amid the triumphs and travails of medicine in the last half of the 20th century. It is funny and nostalgic and

informative, as Leonard Durrence, a retired country doctor, traces his beginnings on a depression-era farm, through the rigors of medical school and internship and the challenge of a small town medical practice. For him, the joys of retirement are just as vivid a color in the tapestry of his life as the boyhood escapades with his sisters and his curious adventures in scientific understanding. The personal elements are the strongest notes in this account, particularly the spiritual faith that weaves together all his experiences. The adolescent who was born again grows into a thoughtful adult who finds God's solid presence supporting him as he tends the sick in Bangladesh and makes tough decisions in the emergency room and operating room of his Blackshear hospital. This devoted Christian carries the same presence into a series of severe health problems that afflict him, his beloved wife and the father who has been a hero in his life. "An hour by sun" is a ritual phrase his father spoke at the close of every farming day and Dr. Durrence has cherished the meaning of those words through the years. When there is just enough light left to do the important things, one must recognize and use this "hour by sun" to accomplish this task with gratitude for all the hours that came before. He has used his significant hour to record the events of nearly 80 years and underline the way in which God has led him through them. From early childhood, when he kept the woodbox filled and harnessed the pesky mules, to a discovery of the magic of reading and learning, to the important discovery of a life partner and the joy of parenting; from deep satisfaction with healing, civic involvement, gardening and travel, and finally with retirement in a community he loves, through all these stages the good doctor has found deep pleasure, challenge and "peace that passes all understanding."

Dr. Irresistible Elizabeth Bevarly 2011-06-20 His fantasies never involved having a family--until Seth met nurse Prudence Holloway and her baby. So when Pru needed a one-night groom, he gallantly offered his husbandly services. Pru might have done some irresponsible things in her life, but falling for Seth--aka Dr. Insufferable--would not be one of them. Unless, of course, Dr. Dangerous was serious about becoming a Dr. Daddy...

Education for Nursing James Gray 1960 Education for Nursing was first published in 1960. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. In the history of nursing in modern times, the University of Minnesota School of Nursing has played a distinguished and significant role as the first training center of its kind sponsored by an institution of higher learning. James Gray tells the story of this pioneering educational experiment in a perceptive and highly readable account. When the Minnesota School was established in 1909, nursing was just beginning to emerge from its status as humble handmaiden to the medical profession. A highly articulate group of leaders among nurses themselves in that period began to insist on the importance of giving the student a broad background in biological science and a full experience in clinical practice. At this same time, there happened to be a member of the faculty of the University of Minnesota medical school, Dr. Richard Olding Beard, who believed in the importance of well-prepared nurses in the campaign for better health. Along with the dean of the medical school, Dr. Elias P. Lyon, he worked steadily to create at Minnesota a system of instruction which would fit a carefully selected candidate to assume an ever increasing share of responsibility for patient care. A fortunate selection of directors has kept the Minnesota School of Nursing well in the forefront of study, experiment, and innovation in methods of instruction. The school has, from its start, assumed leadership for the improvement of nursing education and it looks forward to an equally important responsibility in providing the profession with workers in the

research field.

Magic Is Dead Ian Frisch 2019-02-26 In the vein of Neil Strauss' *The Game* and Joshua Foer's *Moonwalking with Einstein* comes the fascinating story of one man's colorful, mysterious, and personal journey into the world of magic, and his unlikely invitation into an underground secret society of revolutionary magicians from around the world. *Magic Is Dead* is Ian Frisch's head-first dive into a hidden world full of extraordinary characters and highly guarded secrets. It is a story of imagination, deception, and art that spotlights today's most brilliant young magicians—a mysterious club known as the52, who are revolutionizing an ancient artform under the mantra *Magic Is Dead*. Ian brings us with him as he not only gets to know this fascinating world, but also becomes an integral part of it. We meet the52's founding members—Laura London, Daniel Madison, and Chris Ramsay—and explore their personal demons, professional aspirations, and what drew them to their craft. We join them at private gatherings of the most extraordinary magicians working today, follow them to magic conventions in Las Vegas and England, and discover some of the best tricks of the trade. We also encounter David Blaine; hang out with Penn Jillette; meet Dynamo, the U.K.'s most famous magician; and go behind the scenes of a Netflix magic show. *Magic Is Dead* is also a chronicle of magic's rich history and how it has changed in the internet age, as the young guns embrace social media and move away from the old-school take on the craft. As he tells the story of the52, and his role as its most unlikely member, Ian reveals his own connection with trickery and deceit and how he first learned the elements that make magic work from his poker-playing mother. He recalls their adventures in card rooms and casinos after his father's sudden death, and shares a touching moment that he had, as a working journalist, with his childhood idol Shaquille O'Neal. "Magic—the romanticism of the inexplicable, the awe and admiration of the unexpected—is an underlying force in how we view the world and its myriad possibilities," Ian writes. As his journey continues, Ian not only

becomes a performer and creator of magic—even fooling the late Anthony Bourdain during a chance encounter—he also cements a new brotherhood, and begins to understand his relationship with his father, fifteen years after his death. Written with psychological acuity and a keen eye for detail, *Magic Is Dead* is an engrossing tale full of wonder and surprise.
