*Communities in Action* National Academies of Sciences, Engineering, and Medicine 2017-04-27 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

The Social Impact of AIDS in the United States National Research Council 1993-02-01 Europe's "Black Death" contributed to the rise of nation states, mercantile economies, and even the Reformation. Will the AIDS epidemic have similar dramatic effects on the social and political landscape of the twenty-first century? This readable volume looks at the impact of AIDS since its emergence and suggests its effects in the next decade, when a million or more Americans will likely die of the disease. The Social Impact of AIDS in the United States addresses some of the most sensitive and controversial issues in the public debate over AIDS. This landmark book explores how AIDS has affected fundamental policies and practices in our major institutions, examining How America's major religious organizations have dealt with sometimes conflicting values: the imperative of care for the sick versus traditional views of homosexuality and drug use. Hotly debated public health measures, such as HIV antibody testing and screening, tracing of sexual contacts, and quarantine. The potential risk of HIV infection to and from health care workers. How AIDS activists have brought about major change in the way new drugs are brought to the marketplace. The impact of AIDS on community-based organizations, from volunteers caring for individuals to the highly political ACT-UP organization. Coping with HIV infection in prisons. Two case studies shed light on HIV and the family relationship. One reports on some efforts to gain legal recognition for nonmarital relationships, and the other examines foster care programs for newborns with the HIV virus. A case study of New York City details how selected institutions interact to give what may be a picture of AIDS in the future. This clear and comprehensive presentation will be of interest to anyone concerned about AIDS and its impact on the country: health professionals, sociologists, psychologists, advocates for at-risk populations, and interested individuals.

**Building Better Boards** Lourdes Sheehan 1990 Boards and commissions, an important part of Catholic education since the late 1800s, experienced a significant revival in the decades following the Vatican Council II. Today, approximately 68 percent of the Catholic schools in the United States have some form of educational governance structure. Although the primary focus of this handbook, which contains 10 chapters, is on Catholic school boards and boards of trustees, the principles and much of the materials are easily adaptable to councils, commissions, and committees for other diocesan, parish, and religious education programs. Specifically, the chapters define a Catholic school board; discuss policy formation and enactment; review selection and appointment of the principal; study the roles and relationships of boards and schools; and cover board meetings. Additional chapters explore planning, the role of the board in finances; development and public relations/marketing; evaluation of and by the board; and membership. The 12 appendices contain sample constitutions for a variety of educational governance structures, definitions and guidelines related to Catholic school principal selection, the functions of the board and a board member's profile, and sample diocesan policies. Practicing subsidiarity and collaboration, school boards and other diocesan, parish, and educational councils and commissions can

effectively and efficaciously serve the church's educational mission. The bibliography contains 33 references. (KM)

*Faith Versus Fact* Jerry A. Coyne 2016-05-17 “A superbly argued book.” —Richard Dawkins, author of *The God Delusion* The New York Times bestselling author of *Why Evolution is True* explains why any attempt to make religion compatible with science is doomed to fail In this provocative book, evolutionary biologist Jerry A. Coyne lays out in clear, dispassionate detail why the toolkit of science, based on reason and empirical study, is reliable, while that of religion—including faith, dogma, and revelation—leads to incorrect, untestable, or conflicting conclusions. Coyne is responding to a national climate in which more than half of Americans don’t believe in evolution, members of Congress deny global warming, and long-conquered childhood diseases are reappearing because of religious objections to inoculation, and he warns that religious prejudices in politics, education, medicine, and social policy are on the rise. Extending the bestselling works of Richard Dawkins, Daniel Dennett, and Christopher Hitchens, he demolishes the claims of religion to provide verifiable “truth” by subjecting those claims to the same tests we use to establish truth in science. Coyne irrefutably demonstrates the grave harm—to individuals and to our planet—in mistaking faith for fact in making the most important decisions about the world we live in. Praise for *Faith Versus Fact*: “A profound and lovely book . . . showing that the honest doubts of science are better . . . than the false certainties of religion.” —Sam Harris, author of *The End of Faith*

**Handing on the Faith** Sutton, Matthew 2014-04-10 Annual Volume #59 of the College Theology Society, this book of collected essays will explore the theme of how theology and catechesis interact. Consisting of fifteen essays originally delivered as papers at the College Theology Society annual meeting in Omaha, NE in May 2013, this book will offer the reflections and analyses of teachers across a broad spectrum of experience, background, and personal convictions vis-à-vis the importance of catechesis in the college classroom.

*San Francisco's Mission District* Bernadette Hooper 2006 On June 29, 1776, Fr. Francisco Palou dedicated the first site of Mission San Francisco de Asis on the shores of Dolores Lagoon. At the time, it was just a patch in the village of Chutchuii, the home of the Ohlone people, and Palou could never have foreseen the vibrant city that would eventually spring up around the humble settlement. The final mission building, popularly known as Mission Dolores and San Francisco's oldest complete structure, was dedicated on August 2, 1791, at what became Sixteenth and Dolores Streets. After the gold rush, the district around the mission began its dramatic evolution to the diverse area we know today, a bustling mix of immigrants from other states, Europe, and South and Central America.

Is My School Better BECAUSE I Lead It? Baruti K. Kafele 2018-10-18 In this latest installment to his series of best-selling self-reflection guides, celebrated educator, author, and motivational speaker Baruti Kafele offers school leaders 35 thought-provoking questions to ponder from one fundamental overarching query: "Is my school a better school because I lead it?" Musing deeply on discrete leadership matters is an essential component of success for anybody overseeing the day-to-day operations of a school, and doubly so in communities plagued by drugs, violence, or other markers of societal dysfunction. In this book, Kafele offers those seeking to improve the quality of instruction in their institutions hard-won wisdom on such critical issues as ensuring an optimal culture and climate, engaging in parent and community outreach, confirming emergency preparedness, rallying staff, and much more. Because the sheer volume of responsibilities for a principal or assistant principal can leave you with very little time for developing an effective and consistent self-reflection regimen, Kafele has done the work for you. You need only open the book and begin reading to embark upon a penetratingly insightful journey destined to transform your practice, boost teacher satisfaction, and—most important of all—inspire students to excel academically.

**Amusing Ourselves to Death** Neil Postman 2005-12-27 What happens when media and politics become forms of entertainment? As our world begins to look more and more like Orwell's 1984, Neil's Postman's essential guide to the modern media is more relevant than ever. "It's unlikely that Trump has ever read *Amusing Ourselves to Death*, but his ascent would not have surprised Postman." -CNN Originally published in 1985, Neil Postman's groundbreaking polemic about the corrosive effects of television on our politics and public discourse has been hailed as a twenty-first-century book published in the twentieth century. Now, with television joined by more sophisticated electronic media—from the Internet to cell phones to DVDs—it has taken on even greater significance. *Amusing Ourselves to Death* is a prophetic look at what happens when politics, journalism, education, and even religion become subject to the demands of entertainment. It is also a blueprint for regaining control of our media, so that they can serve our highest goals. "A brilliant, powerful, and important book. This is an indictment that Postman has laid down and, so far as I can see, an irrefutable one." -Jonathan Yardley, *The Washington Post Book World*
