Double Vision William Middleton 2018-03-27 ****NAMED ONE OF THE BEST ART BOOKS OF THE DECADE BY ARTNEWS**** The first and definitive biography of the celebrated collectors Dominique and John de Menil, who became one of the greatest cultural forces of the twentieth century through groundbreaking exhibits of art, artistic scholarship, the creation of innovative galleries and museums, and work with civil rights. Dominique and John de Menil created an oasis of culture in their Philip Johnson-designed house with everyone from Marlene Dietrich and René Magritte to Andy Warhol and Jasper Johns. In Houston, they built the Menil Collection, the Rothko Chapel, the Byzantine Fresco Chapel, the Cy Twombly Gallery, and underwrote the Contemporary Arts Museum. Now, with unprecedented access to family archives, William Middleton has written a sweeping biography of this unique couple. From their ancestors in Normandy and Alsace, to their own early years in France, and their travels in South America before settling in Houston. We see them introduced to the artists in Europe and America whose works they would collect, and we see how, by the 1960s, their collection had grown to include 17,000 paintings, sculptures, drawings, photographs, rare books, and decorative objects. And here is, as well, a vivid behind-the-scenes look at the art world of the twentieth century and the enormous influence the de Menils wielded through what they collected and built and through the causes they believed in.

The Deep Tom Taylor 2013 While others look up to the stars, my family know that there are an infinite number of things that shine brightly in the darkness below. Most of our world lies unexplored, unexplained. There are things lurking in the seas that have only ever been spoken about in myth. My family are explorers. We have been for generations. We explore... The Deep.

Above and Beyond Dr. Rodney Wead 2021-06-24 Dr. Rodney Wead has penned his story in a book, *Above and Beyond: How a Tall, Lanky Kid from the Omaha Housing projects spent a lifetime helping others top their dreams.* He shares insight into how he used his high school and college athletic abilities and lessons to balance how he achieved countless civil rights victories while achieving economic improvements and describes his eclectic experiences that range from rising from childhood poverty with his best friend, the late Major League Baseball Hall of Famer, St. Louis Cardinal Ace Pitcher Bob Gibson, to founding a credit union, the nation's first black-owned and operated AM/FM radio station and a community bank. Dr. Wead takes you on a journey that tells of his greatest friendships - with two line brothers and several notables who have transitioned to the Golden Shores - hometown mentee and NFL Hall of Famer, Chicago Bears' great Gayle Sayers, and Historian and Journalist Dr. Lerone Bennett. He proudly details initiation into Kappa Alpha Psi Fraternity, Inc., Alpha Eta Chapter at Dana College. Dr. Wead has received numerous accolades. A street has been named for him in Omaha, nearby the former location of the Community Bank of Nebraska, a Nebraska chartered institution that he led the organization of to benefit the economic uplifting of the Black community. As Dr. Wead describes in his book how financial investor Warren Buffett encouraged him to pursue the bank founding because "he was fully supportive of the Black community raising its own capital and therefore, creating financial empowerment." The founding of KOWH AM/FM radio station earned the Omaha community the first in the nation to have a black-owned and operated AM and FM bands. Radio One and TV One Founder Cathy Hughes, referred as his little sister, helped Dr. Wead in establishing the station by recruiting and training its first disc jockeys. Hughes' lived nearby in the same housing projects. That project, Logan Fontenelle, was the site of triumphant and tragedies. The senseless death of a young teenage girl, shot in the back of the head by an Omaha police officer, is among the most horrific experiences impacting his life including the irrational and near life-ending beatings by then U.S. Presidential candidate and Alabama Gov. George Wallace's private security team. Dr. Wead had many more encounters with the police as a routine demonstrator for human rights that included passage of the National Voting Rights Act of 1965.

Above & Beyond John Edward 2020-09-29 WHAT HAPPENS WHEN WE DIE? WHERE DO WE GO? WHO ARE WE WITH? ABOVE & BEYOND addresses these questions and more... you will be introduced to a bevy of characters that are working through their after life experiences and revealing to you the reader what it might be like. Sometimes emotional, many times humorous, always enlightening and affirmative as tough issues of life, death, and love are explored. When we start the journey, our narrator and hero, Jack Richman seemed to have it all, a beautiful wife and family, successful scientist and writer who is on assignment in Johannesburg, South Africa when an explosion takes place. This presumed terrorist attack gets revealed to be a natural gas explosion that demolishes a six street radius... Jack was at ground zero. He "wakes" up on the Other Side to Dr. Annie Brooks and her team of residents in this 'other' worldly hospital. At first glance she looks like she is wearing clothing from the 1800's but in a blink, she is wearing a modern day lab coat... When Dr. Annie Brooks looks at him, there's a calming energy that warms him and lets him know he is going to be all right... but all Jack could think of is "his wife"... Jack is about to come to terms with finding out he is in the Afterlife... and he becomes our eyes and ears of what happens when he crosses over....

Picture-Book Professors Melissa Terras 2018-10-31 How is academia portrayed in children's literature? This Element ambitiously surveys fictional professors in texts marketed towards children, who are overwhelmingly white and male, tending to be elderly scientists. Professors fall into three stereotypes: the vehicle to explain scientific facts, the baffled genius, and the evil madman. By the late twentieth century, the stereotype of the male, mad, muddlehead, called Professor SomethingDumb, is formed in humorous yet pejorative fashion. This Element provides a publishing history of the role of academics in children's literature, questioning the book culture which promotes the enforcement of stereotypes regarding intellectual expertise in children's media. This title is also available, with additional material, as Open Access.
