Friendship, Flattery, and Frankness of Speech John Fitzgerald 1996-02-01 An investigation of the three related topics of friendship, flattery and frankness of speech (parrhesia) in the Greco- Roman world. The essays examine this triad in Philodemus and Plutarch, discuss Paul's use of friendship language in Philippians, and explore the concept of parrhesia in Paul, Acts, Hebrews, and the Johannine corpus.

Les oeuvres morales et meslées Plutarchus 1655

Natural Particulars George E. Smith 1999 Recently the history of science in early modern Europe has been both invigorated and obscured by divisions between scholars of different schools. One school tends to claim that rigorous textual analysis provides the key to the development of science, whereas others tend to focus on the social and cultural contexts within which disciplines grew. This volume challenges such divisions, suggesting that multiple historical approaches are both legitimate and mutually complementary."--

Oeuvres Plutarchus 1805

The Soul and Its Instrumental Body A. P. Bos 2003-01-01 Aristotle's definition of the soul should be interpreted as: 'the soul is the entelechy of a natural body that serves as its instrument'. The theory of a fine-corporeal body makes it much easier to understand Aristotle's position between Plato and the Stoics . This correction puts paid to all theories about a development in Aristotle's thought.

Interprétations de Moïse Philippe Borgeaud 2009-11-23 This books brings together specialists of diverse ancient mediterranean culture working on the formation of a "Moses mythology", from a comparative perspective, between Judea, Greece, Egypt and Rome. The concrete outcome of this comparative inquiry is the common translation and commentary of the fragments of the mysterious Artapanus. Ce volume rassemble des spécialistes de différentes cultures du monde méditerranéen ancien autour de la formation d'une "mythologie de Moïse", entre la Judée, la Grèce, l'Egypte et Rome. Le résultat pratique de cette enquête comparatiste débouche sur la traduction et le commentaire des fragments du mystérieux Artapan.

Civil Religion Ronald Beiner 2010-10-25 Civil Religion offers philosophical commentaries on more than twenty thinkers stretching from the sixteenth to the twentieth century. It examines four important traditions within the history of modern political philosophy. The civil religion tradition, principally defined by Machiavelli, Hobbes and Rousseau, seeks to domesticate religion by putting it solidly in the service of politics. The liberal tradition pursues an alternative strategy of domestication by seeking to put as much distance as possible between religion and politics. Modern theocracy is a militant reaction against liberalism, reversing the relationship of subordination asserted by civil religion. Finally, a fourth tradition is defined by Nietzsche and Heidegger. Aspects of their thought are not just modern, but hyper-modern, yet they manifest an often-hysterical reaction against liberalism that is fundamentally shared with the theocratic tradition. Together, these four traditions compose a vital dialogue that carries us to the heart of political philosophy itself.

A Man of Many Interests: Plutarch on Religion, Myth, and Magic 2020-03-09 This volume approaches Plutarch's intellectual and professional activity, and the way he managed to cover such an impressive range of areas and interests, which make of his work an inexhaustible source of information on the ancient world.

Marquis de Sade and Continental Philosophy Lauwaert Lode Lauwaert 2019-03-21 He might be best known for sex and violence, but Lode Lauwaert shows that the Marquis du Sade sits at a crossroads of surprisingly disparate branches of western culture: abstract art, Tom and Jerry, gnosticism, Kant's moral philosophy, romanticism, scholasticism, stoicism and more. To explore these links, Lauwaert reads six interpretations of Sade in French postwar philosophy - looking specifically at Pierre Klossowski, Maurice Blanchot, Georges Bataille, Jacques Lacan, Roland Barthes and Gilles Deleuze. Lauwaert shows how these interpretations of de Sade can be read as a lively introduction to a postmodern way of thinking that is often considered inaccessible, but which dominated the French intellectual scene after the Second World War.

Plutarch's Three Treatises on Animals Stephen T. Newmyer 2020-12-30 This volume offers a new translation of Plutarch's three treatises on animals—On the Cleverness of Animals, Whether Beasts Are Rational, and On Eating Meat—accompanied by introductions and explanatory commentaries. The accompanying commentaries are designed not only to elucidate the meaning of the Greek text, but to call attention to Plutarch's striking anticipations of arguments central to current philosophical and ethological discourse in defense of the position that non-human animals have intellectual and emotional dimensions that make them worthy of inclusion in the moral universe of human beings. Plutarch's Three Treatises on Animals will be of interest to students of ancient philosophy and natural science, and to all readers who wish to explore the history of thought on human-non-human animal relations, in which the animal treatises of Plutarch hold a pivotal position.
