Animal Beauty Christiane Nusslein-Volhard 2019-05-14 An illustrated exploration of colors and patterns in the animal kingdom, what they communicate, and how they function in the social life of animals. Are animals able to appreciate what humans refer to as “beauty”? The term scarcely ever appears nowadays in a scientific description of living things, but we humans may nonetheless find the colors, patterns, and songs of animals to be beautiful in apparently the same way that we see beauty in works of art. In *Animal Beauty*, Nobel Prize-winning biologist Christiane Nüsslein-Volhard describes how the colors and patterns displayed by animals arise, what they communicate, and how they function in the social life of animals. Watercolor drawings illustrate these amazing instances of animal beauty. Darwin addressed the topic of ornament in his 1871 book *The Descent of Man and Selection in Relation to Sex*, and did not hesitate to engage with criteria of beauty, convinced that animals experienced color and ornament as attractive and agreeable in the same way that we do, and that the role this played in mate choice pointed to a “sexual selection” distinct from natural selection. Nüsslein-Volhard examines key examples of ornament and sexual selection in the animal kingdom and lays the groundwork for biological aesthetics. Noting that color patterns have not been a research priority—perhaps because they appeared to be nonessential luxuries rather than functional necessities—Nüsslein-Volhard looks at recent scientific developments on the topic. In part because of Nüsslein-Volhard's own research on the zebrafish, it is now possible to decipher the molecular genetic mechanisms that lead to production of colors in animal skin and its appendages and control its pattern and distribution.

My Grandmother's Braid Alina Bronsky 2021-01-21 Sharp and tender at once, a humorous take on family dysfunction and human weakness seen through a young boy's eyes. Max lives with his grandparents in a residential home for refugees in Germany. When his grandmother—a terrifying, stubborn matriarch and a former Russian prima donna—moved them from the Motherland, it was in search of a better life. But she is not at all pleased with how things are run in Germany. His grandmother has been telling Max that he is an incompetent, clueless weakling since he was a child. While he may be dolt in his grandmother's eyes, Max is bright enough to notice that his stoic and taciturn grandfather has fallen hopelessly in love with their neighbour, Nina. When a child is born to Nina that is the spitting image of Max's grandfather, things come to a hilarious if dramatic head. Everybody will have to learn to defend themselves from Max's all-powerful grandmother.

**Universities in Change** Andreas Altmann 2012-09-13 Universities find themselves in dynamic change. They are confronted with growing expectations from their stakeholders, increasing international competition, and new technological challenges. Featuring insights and in-depth case studies from leading researchers and university decision makers from around the world, this book argues that institutions of higher education, in order to be successful, have to actively reflect on circumstances, visions, and strategies to master the future. Drawing from their experiences across a diverse array of institutions in Europe, Asia, and the Americas, the authors explore the pressures on today's universities and the opportunities for excelling in the contest for resources. They discuss operational issues, such as strategic management, IT governance, leadership development, and entrepreneurial culture, and

broader concerns, such as the roles and responsibilities of universities in promoting technology transfer and economic and social development. The result is a resource that not only reveals and analyzes universities from an organizational perspective, but presents best practice models and concrete inspiration for management and policymaking.

The Reception of Plato's ›Phaedrus‹ from Antiquity to the Renaissance Sylvain Delcomminette 2020-07-06 This volume explores the tremendous influence of Plato's Phaedrus on the philosophical, religious, scientific and literary discussions in the West. Ranging from Plato's first readers, over the Church Fathers and the Platonic commentators, to Byzantine and Renaissance thinkers, the papers collected here introduce the reader to the first two millennia of the dialogue's reception history. Thirteen contributions by both junior and established scholars study the engagement with the Phaedrus by such major figures as Aristotle, Galen, Origen, Clemens of Alexandria, Plotinus, Augustine, Proclus, Psellus, Ficino, Erasmus, and many others. Together, they cover the wide range of topics discussed in the dialogue: the value of myth and allegory, religion and theology, love and beauty, the soul and its immortality, teaching and learning, metaphysics and epistemology, rhetoric and dialectic, as well as the role and the limits of writing. By placing the dialogue in this broad perspective, the volume will appeal to readers interested in the Phaedrus itself, as well as to classicists, literary theorists, and historians of philosophy, science and religion concerned with the dialogue's reception history and its main protagonists.

*French For Dummies®* Dodi-Katrin Schmidt 2011-06-01 If you buy into the Pepé Le Pew stereotype of the French – arrogant, stuffy, overly amorous, and rather odiferous (Pepé Le Pew was a skunk. Talk about stereotypical!) – then think again. Not only are the French people some of the most relaxed, pleasant people you'll ever meet, but their society is one of the oldest, most culturally rich societies in the world. So it's no surprise that French is known as perhaps the most beautiful of all languages. Listen to someone speak French – sure, you don't have a clue what she's saying, but aren't you enraptured by the sound of it? Unfortunately, just because a language is beautiful doesn't mean that it's easy to learn. Although French has many things in common with English, French has had many, many centuries to evolve into the language it is today, which means it's had all that time to become more complex. That's where French For Dummies can help. Written in partnership with the language experts at Berlitz, this book can give you what you need for basic communication in French. French For Dummies covers the following topics and more: Basic pronunciation and gestures The nuts and bolts of French grammar Meeting and greeting in French Situations in which you can use French: Making small

**Measuring Second Language Vocabulary Acquisition** James Milton 2009-10-06  
Measuring Second Language Vocabulary Acquisition provides an examination of the background to testing vocabulary knowledge in a second language and in particular considers the effect that word frequency and lexical coverage have on learning and communication in a foreign language. It examines the tools we have for assessing the various facets of vocabulary knowledge such as aural and written word recognition, the link with word meaning, and vocabulary depth. These are illustrated and the scores they produce are demonstrated to provide normative data. Vocabulary acquisition from course books and in the classroom is examined, as is vocabulary uptake from informal tasks. This book ties scores on tests of vocabulary breadth to performance on standard foreign language examinations and on hierarchies of communicative performance such as the CEFR.

**Introduction To Mindfulness** IntroBooks Team  
Mindfulness is the elementary human aptitude to feel own presence, i.e., being conscious of the point of the existence of self and the corresponding boundary of performance, posing complete rejection to the undue recognition or excessive activities, revolving around alarmingly. Awakening to the 3-pronged internal functional structure of the physical, mental and spiritual processes, lying dormant in an individual is the prime objective of mindfulness. Mindfulness is naturally present in a person's mind and soul, but it warrants a steadfast practice and exertion that should be included in daily chores. Then only, this abstract element can be viewed as a tangible object and mindfulness will complete its full circle. Sometimes, knowledge is taken as lessons of what a person observes straight through senses or thoughts and perceptions. This indicates that a particular person is mindful. Experiments are always on the path of an impulsive run in displaying that an individual is reshaping the brain's physical framework when the brain is educated to be mindful.

**Turkish Gambit** Boris Akunin 2005  
The Russo-Turkish war is at a critical juncture, and Erast Fandorin, broken-hearted and disillusioned, has gone to the front in an attempt to forget his sorrows. But Fandorin's efforts to steer clear of trouble are thwarted when he comes to the aid of Varvara Suvorova - a 'progressive' Russian woman trying to make her way to the Russian headquarters to join her fiancé. Within days, Varvara's fiancé has been accused of treason, a Turkish victory looms on the horizon, and there are rumours of a Turkish spy hiding within their own camp. Our reluctant gentleman sleuth will need to resurrect all of his dormant powers of detection if he is to unmask the traitor, help the Russians to victory and smooth the path of young love.

Language Teaching and the Older Adult Danya Ramírez Gómez 2016-09-15 The aging of the population and the increasing number of older adults pursuing foreign language courses call for a greater understanding of the ways in which these individuals learn foreign languages. This book offers a pioneering contribution to the literature on foreign language education for older adults (aged 60 and over), termed foreign language geragogy. It details an empirical, multidisciplinary study on Japanese older learners of Spanish and focuses on the influence of learning experiences on vocabulary learning strategy use. It discusses the constraints that preconceptions impose on learners, researchers, instructors and administrators, and it offers a set of practical recommendations for foreign language activities for elderly individuals. It also introduces the notion of 'learner re-training', an instructional mechanism that contributes to older learners' self-acknowledgment and autonomy development in foreign language learning. The book is directed at teachers and trainee teachers of foreign languages to older adults, and also at education professionals and researchers in the field of foreign language learning in general.

**No God in Sight** Altaf Tyrewala 2011-03-18 Fast — paced and innovative, *No God in Sight* captures the seething multiplicity of Bombay through the first — person accounts of an abortionist, a convert, a pregnant refugee, a gangster in hiding, a butcher, and an apathetic CEO, among others. As the reader is hurtled from monologue to short story to anecdote, disparate lives collide in tantalizing ways. A family flees religious persecution in their village to take refuge in an urban slum; women walk the tightrope of free will and dormant violence; a father and son grant each other the relief of estrangement; and young men and women struggle to comprehend the consequences of sexual attraction. Insightful, ironic, and scathingly honest, *No God in Sight* is a brilliant debut by a talented young writer.
