Financial Ecosystem and Strategy in the Digital Era Umit Hacıoglu 2021-06-14 This book analyses and discusses current issues and trends in finance with a special focus on

technological developments and innovations. The book presents an overview of the classical and traditional approaches of financial management in companies and discusses its key strategic role in corporate performance. Furthermore, the volume illustrates how the emerging technological innovations will shape the theory and practice of financial management, focusing especially on the decentralized financial ecosystems that blockchain and its related technologies allow.

Glory of the Martyrs Gregorius, 1988 Contains a series of anecdotes about the lives and cults of Christians who suffered and usually died for their beliefs. These anecdotes provide important historical evidence, first, for the ways bishops and their congregations manipulated traditions about the development of the early Church, and second, for the contemporary functions and meanings of the cults of saints during the sixth century. The spontaneity and literary modesty of many of the anecdotes make them especially valuable for modern historians intent upon understanding the early Frankish Church. In addition to the translation, this volume includes an introduction and commentary. The introduction summarizes essential information about the chronology, composition and purposes of the "Glory of the Martyrs", and also discusses other relevant topics, such as the role of these anecdotes in the celebration of the liturgy and the contrast between 'rusticity' and correct behaviours and belief. The commentary provides only basic identifications, dates, background and references to other secondary scholarly literature.

The Big Town Ring Lardner 2008-10-01 Ringgold Wilmer Lardner (1885-1933) was an American sports columnist and short story writer best known for his satirical takes on the sports world, marriage, and the theatre. In 1916 he published his first successful book, *You Know Me Al*, which was written in the form of letters written by Jack Keefe, a bush league baseball player, to a friend back home. He went on to write such well-known stories as *Haircut*, *Some Like Them Cold*, *The Golden Honeymoon*, *Alibi Ike*, and *A Day in the Life of Conrad Green*. He also continued to write follow-up stories to *You Know Me Al*, with the hero of that book, the headstrong but gullible Jack Keefe, experiencing various ups and downs in his major league career and in his personal life. Private Keefe's World War I letters home to his friend Al were collected in *Treat Em Rough*. Lardner also had a lifelong fascination with the theatre, though his only success was *June Moon*, a comedy co-written with Broadway veteran George S. Kaufman.

Salt Grill Luke Mangan 2013-09-01 Luke Mangan opened his first Salt restaurant in Sydney in 1999, and there are now several Salt and Salt grill restaurants worldwide. Salt Grill brings together the signature dishes from these restaurants, alongside Luke's favourites. Suitable for the home cook and with more than 140 recipes, this book includes simple twists on old favourites like Orange Lamingtons, Rum Raisin and Chocolate Bread and Butter pudding and a Waldorf Salad with Bresaola; and untwisted standards like Lobster Thermidor, Salt and Pepper Squid and Floating Islands. Salt Grill captures the signature freshness and elegance of Luke's food, in recipes that you can cook at home for your family and friends.

A Vision of Change for America United States. President (1993-2001 : Clinton) 1993 This report was prepared to accompany President Clinton's first address to a Joint Session of Congress. It describes in detail the comprehensive economic plan being proposed by the new administration for the nation. The plan has three key elements: economic stimulus to create jobs now while laying the foundation for long-term economic growth; long term public investments to increase the productivity of people and businesses; and a balanced deficit-reduction plan to prevent the drain of private investments that generate jobs and increase incomes. The text is organized into four sections: (1) "A New Direction" (a brief 3-page preamble); (2) "A Legacy of Failure" (a 16-page statement of the problem, under subheadings such as "Skyrocketing Health Care Costs"); (3) "What We Must Now Do" (a 92-page statement of the solution, under subheadings such as "Investing in the Future: Reducing the Deficit To Increase Private Investment" and "Restoring Fairness"); and (4) "The Task Remaining" (a brief 6-page wrap-up). A closing Appendix contains 25 pages of statistical tables outlining various discretionary program savings, proposed changes to mandatory programs, stimulus proposals, investment proposals, and revenue and receipts proposals. Most tables provide figures for each year for the 6-year period 1993-1998. The field of education is touched upon in the report at six locations: (1) "Relative Earnings by Education for 25-34 Year Olds" (Chart 2-9, p. 18); (2) Chapter 1 Compensatory Education (p.31); (3) Pell Grants (p. 32); (4) "Lifelong Learning," covering full funding of Head Start and related child care funding and Medicaid, National Service, Dislocated Workers Program, Job Corps Expansion, Summer Youth Employment and Training Program, Youth Apprenticeship, and various Department of Education reforms and initiatives (p. 57-59); (5) Impact Aid "b" Projects (p. 87); and (6) Reform of Student Loan Programs (p. 92). More Food: Road to Survival Roberto Pilu 2017-06-16 More Food: Road to Survival is a comprehensive analysis of agricultural improvements which can be achieved through scientific methods. This reference book gives information about strategies for increasing plant productivity, comparisons of agricultural models, the role of epigenetic events on crop production, yield enhancing physiological events (photosynthesis, germination, seedling emergence, seed properties, etc.), tools enabling efficient exploration of genetic variability, domestication of new species, the detection or induction of drought resistance and apomixes

and plant breeding enhancement (through molecularly assisted breeding, genetic engineering, genome editing and next generation sequencing). The book concludes with a case study for the improvement of small grain cereals. Readers will gain an understanding of the biotechnological tools and concepts central to sustainable agriculture *More Food: Road to Survival* is, therefore, an ideal reference for agriculture students and researchers as well as professionals involved sustainability studies.

Hawai'i's Russian Adventure Peter R. Mills 2002-02-28 In the early 1800s thousands of American and European traders arrived in Hawai'i to lay in supplies for the long trip east or to take on Hawaiian sandalwood, which commanded a high price in China. In response to this developing global economy in the Pacific, Russia expanded its trading outposts as far as western Kaua'i and together with Kaua'i chiefs began planning the construction of Fort Elisabeth in Waimea in 1816. A year later, the structure was abandoned by the Russians, but, as Peter Mills argues convincingly, a long and significant history of the fort remains to be told, even after its Russian one had ended. Seeking to redress the imbalance that exists between the colonized and the colonizers in Pacific historiography, Mills examines the fort and its place in the history of Kaua'i under paramount chief Kaumuali'i and in relation to the expanding kingdom of Kamehameha and his successors. His work exposes how Hawaiians have been ignored in their own history and challenges commonly held assumptions such as Kamehameha's unification of the Islands in 1810 and the victimization of Kaumuali'i by representatives of the Russian-American Company. Using hundreds of firsthand accounts in combination with field archaeology, Mills shows that the fort was originally built and used by Hawaiians as a heiau (ritual temple). After the Russians' departure, Hawaiians continued to use the fort but in ways that reflected an ongoing transformation of cultural values provoked by contact with outsiders and the development of multiethnic communities in Waimea and other port settlements throughout the Hawaiian chain. *Hawai'i's Russian Adventure* is an original look at a significant chapter in the history of Hawai'i. It overturns many popular myths and perceptions about the fort at Waimea and about European and Hawaiian interaction in the first half of the nineteenth century while delving into some of the central issues in historical anthropology, colonialism, and the development of global networks.

Transnational Social Work Practice Nalini Junko Negi 2010-09-29 A growing number of people immigrants, refugees, asylum-seekers, displaced individuals, and families lead lives that transcend national boundaries. Often because of economic pressures, these individuals continually move through places, countries, and cultures, becoming exposed to unique risk and protective factors. Though migration itself has existed for centuries, the availability of fast and cheap transportation as well as today's sophisticated technologies and electronic communications have allowed transmigrants to develop transnational identities and relationships, as well as engage in transnational activities. Yet despite this new reality, social work has yet to establish the parameters of a transnational social work practice. In one of the first volumes to address social work practice with this emergent and often marginalized population, practitioners and scholars specializing in transnational issues develop a framework for transnational social work practice. They begin with the historical and environmental context of transnational practice and explore the psychosocial, economic, environmental, and

political factors that affect at-risk and vulnerable transnational groups. They then detail practical strategies, supplemented with case examples, for working with transnational populations utilizing this population's existing strengths. They conclude with recommendations for incorporating transnational social work into the curriculum.

High Integrity Software John Gilbert Presslie Barnes 2003 This book provides an accessible introduction to the SPARK programming language. Updated 'classic' that covers all of the new features of SPARK, including Object Oriented Programming. The only book on the market that covers this important and robust programming language. CD-ROM contains the main SPARK tools and additional manuals giving all the information needed to use SPARK in practice. Technology: The SPARK language is aimed at writing reliable software that combines simplicity and rigour within a practical framework. Because of this, many safety-critical, high integrity systems are developed using SPARK. User Level: Intermediate Audience: Software engineers, programmers, technical leaders, software managers. Engineering companies in fields such as avionics, railroads, medical instrumentation and automobiles. Academics giving MSc courses in Safety Critical Systems Engineering, System Safety Engineering, Software Engineering. Author Biography: John Barnes is a veteran of the computing industry. In 1977 he designed and implemented the RTL/2 programming language and was an original member of the ADA programming language design team. He was founder and MD of Alsys Ltd from 1985 to 1991. Currently self employed, John is the author of 'Programming in ADA' which has sold 150000 copies and been translated into 6 languages.
