Swift For Dummies Jesse Feiler 2015-02-24 Get up and running with Swift—swiftly Brimming with expert advice and easy-to-follow instructions, Swift For Dummies shows new and existing programmers how to quickly port existing Objective-C applications into Swift and get into the swing of the new language like a pro. Designed from the ground up to be a simpler programming language, it's never been easier to get started creating apps for the iPhone or iPad, or applications for Mac OS X. Inside the book, you'll find out how to set up Xcode for a new Swift application, use operators, objects, and data types, and control program flow with conditional statements. You'll also get the scoop on creating new functions, statements, and declarations, learn useful patterns in an object-oriented environment, and take advantage of frameworks to speed your coding along. Plus, you'll find out how Swift does away with pointer variables and how to reference and dereference variables instead. Set up a playground development environment for Mac, iPhone, iPad, and wearable computers Move an existing Objective-C program to Swift Take advantage of framework components and subcomponents

Create an app that uses location, mapping, and socialmedia Whether you're an existing Objective-C programmer looking to port your code to Swift or you've never programmed for Apple in the past, this fun and friendly guide gets you up to speed swiftly.

Follow Me Francesca Riley 2019

East Plays West Stephen Wagg 2012-09-10 The Cold War spanned some five decades from the devastation that remained after World War Two until the fall of the Berlin wall, and for much of that time the perception was that only on the Eastern side were politics and sport inextricably linked. However, this assumption underestimates the extent to which sport was an important symbol for both power blocs in their ongoing ideological struggle. This collection of essays from leading international authorities on sport, culture and ideology brings together an impressive body of work organized around key political themes and outstanding moments in sport, and is at once a political history of sport and an illuminating new perspective on the forces that shaped this unsettled time.

Air Conditioning Service Manual Intertec Publishing Corporation 1985

Philostratus John Swinnerton Phillimore 1912

Gunkanjima Yves Marchand 2013 Hashima is a small island located off the extreme southwest coast of Japan, about ten miles from Nagasaki. Its dark warship-like silhouette earned it the nickname of Gunkanjima ("battleship island"). During the wave of industrialisation in the nineteenth century, a coal seam was discovered on the island and the Mitsubishi corporation opened a mine there. Workers settled on the island and the population increased, the small mining town quickly becoming a modern and autonomous settlement. During the 1950s, Gunkanjima became one of the most densely populated places in the world with over 5,000 inhabitants. But after an accident and the restructuring of the Mitsubishi mining project, the mine closed in January 1974. The last inhabitants deserted the island, the connection by boat was suspended, and since then Gunkanjima has become a ghost town. Marchand and Meffre photographed the island between 2008 and 2012. Born in 1981 and 1987 in the Parisian suburbs, Yves Marchand and Romain Meffre began to photograph separately in 2001. They began working together for their project on the urban decay of Detroit in 2005, which Steidl published to acclaim as *The Ruins of Detroit* in 2010.

The Rejection of Consequentialism Samuel Scheffler 1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he

shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Aerosmith - O, Yeah!: Ultimate Aerosmith Hits (Songbook) Aerosmith 2005-12-01 (Guitar Recorded Versions). 30 of the hottest Aerosmith hits in standard notation and tab. Excel Dashboards and Reports Michael Alexander 2010-08-06 The go to resource for how to use Excel dashboards and reports to better conceptualize data Many Excel books do an adequate job of discussing the individual functions and tools that can be used to create an "Excel Report." What they don't offer is the most effective ways to present and report data. Offering a comprehensive review of a wide array of technical and analytical concepts, Excel Reports and Dashboards helps Excel users go from reporting data with simple tables full of dull numbers, to presenting key information through the use of high-impact, meaningful reports and dashboards that will wow management both visually and substantively. Details how to analyze large amounts of data and report the results in a meaningful, eye-catching visualization Describes how to use different perspectives to achieve better visibility into data, as well as how to slice data into various views on the fly Shows how to automate redundant reporting and analyses Part technical manual, part analytical guidebook, Excel Dashboards and Reports is the latest addition to the Mr. Spreadsheet's Bookshelf series and is the leading resource for learning to create dashboard reports in an easy-to-use format that's both visually attractive and effective.

Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

Le Zen & l'Art du MIXAGE Mixerman 2021-05-19 Mixer est une attitude Quand je repense à mes meilleurs mixes - quels que furent leurs succès commerciaux- dans tous les cas de figures, je ne peux formuler leurs expériences que comme des expériences durant lesquelles je travaillais du plus profond de moi-même, en dehors de toute force extérieure. Je ne pensais pas; je faisais. Je n'avais pas peur du jugement des autres. Je n'avais pas peur de l'échec. Toutes mes décisions avaient été prises en toute confiance, et une fois qu'un jugement fut rendu, je ne le remettait plus en question. J'ai laissé la musique me guider, et j'ai basé toutes mes décisions de mixage sur rien de plus que ce simple critère: la chanson et la production sont-ils parvenu à leurs objectifs? Ça a l'air sympa, hein? Je veux dire, c'est l'état d'esprit dans lequel vous voulez vous trouver lorsque vous mixez! Le problème est que vous ne pouvez pas y arriver si vous restez concentré sur toutes les mauvaises choses, et nous sommes tous susceptibles d'être distraits et de douter de nous. Un bon mix implique avant tout d'avoir confiance en soi. Et je peux vous promettre que cette confiance deviendra carrément contagieuse pour tout le monde sur votre projet. Qui suis-je? Je suis Mixerman, un mixeur, un producteur et un ingé son plusieurs fois récompensé par des disques d'or et de platine. Je mixe professionnellement et au plus haut niveau depuis plus de trois décennies aujourd'hui. Et je peux vous assurer qu'un bon mixage ne consiste pas à manipuler le son. Il s'agit de décisions que vous prenez en rapport avec la musique, les balances et la façon dont vous utilisez l'arrangement pour faire avancer l'auditeur à travers la chanson. Ceci est rendu possible grâce à des stratégies et des techniques concrètes, que je suis particulièrement qualifié pour vous transmettre. Boostez votre confiance en vous dès aujourd'hui. Vous pourriez passer la prochaine décennie à mixer deux chansons par jour pour y arriver. Ou alors, vous procurer Zen & the Art of MIXAGE erais la pensée motrice d' un excellent mix. Vous verriez alors votre confiance en vous monter en flèche. Il y a une raison pour laquelle ce livre est mon travail le plus populaire, à ce jour. Profitez, Mixerman

Maggie for Hire Kate Danley 2011-09-01 When monsters appear on Earth, Maggie MacKay is on the job. No one is better at hauling the creepy crawlies back where they belong. No one, that is, except Maggie's dad, who vanished in the middle of an assignment. Now, an elf named Killian has shown up with a gig. Seems Maggie's uncle teamed up with the forces of dark to turn Earth into a vampire convenience store, serving bottomless refills on humans. Ah, family... The only hope for survival lies in tracking down two magical artifacts and a secret that disappeared with Maggie's dad. WARNING: This book contains cussing, brawling, and unladylike behavior. Proceed with caution.

Dart for Absolute Beginners David Kopec 2014-06-30 Dart for Absolute Beginners enables individuals with no background in programming to create their own web apps while learning the fundamentals of software development in a cutting edge language. Easily digested chapters, while comprehensive enough to explore the whole domain, are aimed at both hobbyists and professionals alike. The reader will not only gain an insight into Dart, but also the technologies behind the web. A firm foundation is laid for further programming studies. Dart is a new, innovative language developed by Google which is poised to take the web by storm. For client side web app development, Dart has many advantages over JavaScript. These

Mac OS X For Dummies Bob LeVitus 2003-01-03 So you're finally making the leap from Mac OS 9 to Mac OS X. Good for you! Or maybe you've just switched from Windows and bought a brand-spanking-new iMac. Bravo! Or perhaps you've never used a computer before and have bought a new Mac because you heard how easy they are to use. Bonus points! Whatever your reason for diving into the Aqua-filled world of Mac OS X, rest assured that you made the right

choice. Thing is, Apple has made Mac OS X quite different from earlier Mac operating systems, and it's way different than Windows, so you may need a little help finding your way through that big, complicated operating system – not to mention all that great software that comes bundled with it. That's why veteran Mac-scribe Bob LeVitus has written a not-so-big, not-so-complicated Dummies book about Mac OS X. Recently revised for version 10.2 (a.k.a. Jaguar), *Mac OS X For Dummies, 2nd Edition*, shows you what Mac OS X is all about, without boring you silly, confusing you to the point of frustration, or poking you with sharp objects. You'll discover the information and advice you need in a language that you can understand (unlike those other computer books that shall remain nameless). Inside *Mac OS X For Dummies, 2nd Edition*, you'll find the following topics and more: Setting up and turning on your new Mac Getting around on the Desktop and in the Dock Finding stuff with the Finder Working with Mac OS X applications and files Surfing the Internet – Mac OS X style Sharing and printing files and documents Making your Mac your own: Setting System Preferences Troubleshooting – Yes, even Mac OS X crashes every once in a while Top Ten lists on how to speed up your Mac experience, accessories you should consider, Web sites all Mac freaks should know about, and valuable third-party software No matter what you use your Mac for – whether it's to surf the Internet, watch DVDs, listen to online music, or any number of other reasons – *Mac OS X For Dummies, 2nd Edition*, will get you well on your way to becoming a bona fide Mac guru.

The Real Name of God Rabbi Wayne Dosick 2012-05-29 Reveals the real, whole name of God and its place within each of us • Explains how none of the God-names commonly used in the Bible is God's real name • Shows how the real name of God unites all religions from both West and East • Includes spiritual techniques, prayers, poems, and meditative chants to bring each of us into deep, personal, intimate, living relationship with God Of the many names of God commonly used in the Bible and other sacred literature, none is God's real name. Every God-name, including YHWH, reflects only one of God's many aspects, such as the loving creator, the militaristic authoritarian, or the all-knowing judge. None embodies the wholeness, the totality, the full Essence of God. Who then are we to speak to when we seek God? If you can't truly know something until you know its name, how can we truly know God? The culmination of years of translation research and etymological investigation, Rabbi Wayne Dosick's work digs through many layers of presumption and deeply ingrained beliefs to reveal the real name of God hiding in plain sight in the Bible: Anochi. He shows how this sacred name unites all religions--both of the West and the East. The name Anochi enables us to finally meet the whole, complete, real God--both the grand God of the vast universe and the God of breath, soul, and heart who dwells within each of us. This in-depth exploration of God's name includes spiritual techniques, poems, guided prayers, and meditative chants to bring each of us into personal, intimate, and purposeful relationship with God. By knowing the real name of God, we can affirm the connection to the Divine at the core of our being. We can touch the face of God that resides deep within us all.

Macs For Dummies Edward C. Baig 2009-01-06 Whether you're thinking of switching to a Macintosh computer, are looking into the latest Apple products, or have a Mac and want to learn about Mac OS X Leopard, then *Macs For Dummies, 10th Edition* will get you going. Digital Modeling William Vaughan 2011-12-27 Professional modeling is the foundation of every aspect of the 3D production pipeline and is essential to the success of any 3D computer graphics project. [digital] Modeling is unlike any other modeling book you've seen—it gets to the core of what it takes to create efficient production-ready models and demystifies the process of producing realistic and jaw-dropping graphics. Taking a software-neutral approach, it teaches you the essential skills and concepts that you can apply to modeling in any industry 3D software, such as 3ds Max, LightWave 3D, Maya, Modo, Silo, XSI, ZBrush and other leading programs. Modelers, animators, texture artists, and technical directors can all benefit from the valuable information covered in this jam-packed guide containing years of industry knowledge. Simply put, if you work in 3D, you must have this book. In this inspiring and informative guide to modeling, industry veteran William Vaughan teaches you how to: Master modeling techniques to produce professional results in any 3D application Use the tools of a professional digital modeler Control your models polygon-count as well as polygon-flow Create both organic and hard surface models Understand a modeler's role in a production environment Gain the knowledge to land a job in the industry as a digital modeler Model using specific tools such as LightWave and 3ds Max in over 6 hours of video training in the accompanying downloadable lesson files (see below for details) And much more! All of Peachpit's eBooks contain the same content as the print edition. You will find a link in the last few pages of your eBook that directs you to the media files. Helpful tips: If you are able to search the book, search for "Where are the lesson files?" Go to the very last page of the book and scroll backwards. You will need a web-enabled device or computer in order to access the media files that accompany this ebook. Entering the URL supplied into a computer with web access will allow you to get to the files. Depending on your device, it is possible that your display settings will cut off part of the URL. To make sure this is not the case, try reducing your font size and turning your device to a landscape view. This should cause the full URL to appear.

Official (ISC)2 Guide to the CISSP CBK Steven Hernandez CISSP 2009-12-22 With each new advance in connectivity and convenience comes a new wave of threats to privacy and security capable of destroying a company's reputation, violating a consumer's privacy, compromising intellectual property, and in some cases endangering personal safety. FreeBSD Mastery: Advanced ZFS Michael W Lucas 2016-04-10 ZFS improves everything about systems administration. Once you peek under the hood, though, ZFS' bewildering array of knobs and tunables can overwhelm anyone. ZFS experts can make their servers zing—and now you can, too, with FreeBSD Mastery: Advanced ZFS. This small book teaches you to:

- Use boot environments to make the riskiest sysadmin tasks boring
- Delegate filesystem privileges to users
- Containerize ZFS datasets with jails
- Quickly and efficiently replicate data between machines
- split layers off of mirrors
- optimize ZFS block storage
- handle large storage arrays
- select caching strategies to improve performance
- manage next-generation storage hardware
- identify and remove bottlenecks
- build screaming fast database storage
- dive deep into pools, metaslabs, and more!

Whether you manage a single small server or international datacenters, simplify your storage with FreeBSD Mastery: Advanced ZFS.

The Millionaire Fastlane MJ DeMarco 2011-01-04 10TH ANNIVERSARY EDITION Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know how it goes; it sounds a lil something like this: "Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.

I Loved a Rogue Katharine Ashe 2015-02-24 In the third in Katharine Ashe's Prince Catchers series, the eldest of three very different sisters must fulfill a prophecy to discover their birthright. But if Eleanor is destined to marry a prince, why can't she resist the scoundrel who seduced her? She can pour tea, manage a household, and sew a modest gown. In short, Eleanor Caulfield is the perfect vicar's daughter. Yet there was a time when she'd risked everything for a black-eyed gypsy who left her brokenhearted. Now he stands before her—dark, virile, and ready to escort her on a journey to find the truth about her heritage. Leaving eleven years ago should have given Taliesin freedom. Instead he's returned to Eleanor, determined to have her all to himself, tempting her with kisses and promising her a passion she's so long denied herself. But if he was infatuated before, he's utterly unprepared for what will happen when Eleanor decides to abandon convention—and truly live . . .

OS X Mavericks pour les nuls Bob LeVitus 2014-03-27 Le moyen le plus efficace pour dompter la vague ! fichiers et vos dossiers ainsi que vos supports fixes et amovibles, configurer vos connexions Internet, installer de nouveaux périphériques, et bien plus encore ! Un chapitre de l'ouvrage est consacré à l'utilisation de votre Mac en réseau.

Lunar Notes Bill Harkleroad 1998 “At last, the inside story of the best rock band of the 20th century. Zoot Horn Rollo tells all and opens the door to the secret history of Captain Beefheart and the Magic Band.”—Matt Groening, creator of *The Simpsons*. Rechristened as Zoot Horn Rollo, guitarist Harkleroad recalls what it was like to live, record and play with a temperamental genius such as Captain Beefheart on landmark albums such as *Trout Mask Replica*.

MacBook For Dummies Mark L. Chambers 2021-03-26 Learn how to drive the coolest laptop on the planet You took the plunge, paid extra, and—even though it looks and feels like perfection—have that fleeting doubt: is my MacBook really worth the investment? You’ll be pleased to know that the answer is totally yes, and *MacBook For Dummies* is the ultimate way to learn the thousand and one reasons why the MacBook Pro or Air you now own is a modern masterpiece—as well as the ten thousand and one (and counting) things you can do with it. With its super-smooth performance, top-shelf LED screen, rugged reliability, and powerful, trouble-free operating system, you’re going to have a lot of fun. Keeping jargon to a minimum, Mark L. Chambers—prolific tech author and all-round Mac whiz—gives you a friendly, step-by-step welcome to everything MacBook, from reviewing the hardware and powering up for the first time to getting familiar with files, security settings, launching apps, and entering the digital netherworld of iCloud. Then, with the basics reassuringly in place, you can begin your journey to power-user mastery in whatever areas of MacBook-ing you’re most interested in, from doing the accounts in Numbers to perfecting that soon-to-be-released cinematic classic (with original score) using iMovie and GarageBand. Get familiar with the latest macOS, Big Sur Communicate with Messages and FaceTime Stream music, movies, and TV shows Manage and edit photos and video clips Whether you’re a PC convert, Mac veteran, or completely new to the astonishing potential of the MacBook world, you’ll find everything you need to get the most out of the technical marvel that’s now at your command.

Chez Moi Agnes Desarthe 2008-04-29 At forty-three, Myriam has been a wife, mother, and lover—but never a restaurateur. When she opens *Chez Moi* in a quiet neighborhood in Paris, she has no idea how to run a business, but armed only with her love of cooking, she is determined to try. Barely able to pay the rent, Myriam secretly sleeps in the dining room and bathes in the kitchen sink, while struggling to come to terms with the painful memories of her past. But soon enough her delectable cuisine brings her many neighbors to *Chez Moi*, and Myriam finds that she may get a second chance at life and love. Redolent with the sights, smells, and tastes of Paris, *Chez Moi* is a charming story that will appeal to the many readers who fell in love with Joanne Harris’s *Chocolat* and Laura Esquivel’s *Like Water for Chocolate*.
