Text Complexity and Reading Comprehension Tests Erik Castello 2008 Based on the analysis of a specially compiled corpus of internationally recognized English as a foreign language (EFL) reading tests at different levels of proficiency, this volume explores the relation between the complexity of written texts and the difficulty of reading comprehension tests. It brings together linguistic investigations into the text-inherent complexity of the tests and a study of the data derived from their administration to groups of Italian university students. The study of text complexity draws on corpus linguistics, text linguistics and systemic functional linguistics. Both quantitative and qualitative analyses are carried out on the language used in the reading texts and in the related tasks that make up the corpus of tests. The assessment of test difficulty, on the other hand, is informed by research on language testing, and, in particular, by findings and methodologies of Classical Test Theory and Item Response Theory. Relevant aspects of these theories are used to analyze and interpret both the data obtained from the administration of the tests and the data collected by means of feedback questionnaires completed by test takers. The application of such diverse methodologies and the subsequent comparison of the results of the analyses has brought out interesting correlations between text-inherent complexity, perceived test difficulty and actual test difficulty.

Measured Constructs Cyril J. Weir 2013-05-23 This volume establishes how English language constructs were measured in Cambridge English examinations over the period 1913 to 2012. An addition to the Studies in Language Testing series, this volume provides an overview of English language testing over the last century, with coverage of key theoretical and practical aspects of the assessment of reading, listening, writing and speaking skills. It includes examples of the Cambridge English exams, old and new, and is the first volume to describe in a systematic way the different theoretical influences which have

shaped the development of the constructs underlying Cambridge English exams in the last 100 years.

Foreign Language Education in America Steven Berbeco 2016-04-08 Foreign language teaching in America today falls into three distinct fields of influence and interest: public and private schools, college and other post-secondary programs, and courses for adult learners. At a time when academics and instructors in each of these fields seek to answer similar questions, too few published resources recognize and address the parallels among them. In response, *Foreign Language Education in America* is an edited book with contributions that represent the diversity in foreign language education today, including perspectives from elementary, middle schools, high schools, university-level courses, summer programs, federal government, and international learning. This is a practical guide to the state of the field that fills a much-needed gap for scholars, researchers, administrators, and practitioners who are looking for a resource that describes effective practices across the field.

A Principled Approach to Language Assessment National Academies of Sciences, Engineering, and Medicine 2020-09-19 The United States is formally represented around the world by approximately 14,000 Foreign Service officers and other personnel in the U.S. Department of State. Roughly one-third of them are required to be proficient in the local languages of the countries to which they are posted. To achieve this language proficiency for its staff, the State Department's Foreign Service Institute (FSI) provides intensive language instruction and assesses the proficiency of personnel before they are posted to a foreign country. The requirement for language proficiency is established in law and is incorporated in personnel decisions related to job placement, promotion, retention, and pay. *A Principled Approach to Language Assessment: Considerations for the U.S. Foreign Service Institute* evaluates the different approaches that exist to assess foreign language proficiency that FSI could potentially use. This report considers the key assessment approaches in the research literature that are appropriate for language testing, including, but not limited to, assessments that use task-based or performance-based approaches, adaptive online test administration, and portfolios.

English in Post-Revolutionary Iran Maryam Borjian 2013 This book unravels the story of English, the language of "the enemies", in post-revolutionary Iran. Situating English within the nation's broader social, political, economic and historical contexts, the book explores the politics, causes, and agents of the two diverging trends of indigenization/localization and internationalization/Anglo-Americanization in English education in Iran over the past three decades.

Diagnostic Writing Assessment Ute Knoch 2009 The diagnostic assessment of writing is an important aspect of language testing which has often been neglected in the literature. However, it is an area which poses special challenges to practitioners both in the classroom and in large-scale testing

situations. This book presents a study which set out to develop and validate a rating scale specifically designed for the diagnostic assessment of writing in an academic English setting. The scale was developed by analysing a large number of writing performances produced by both native speakers of English and learners of English as an additional language. The rating scale was then validated using both quantitative and qualitative methods. The study showed that a detailed data-based rating scale is more valid and more useful for diagnostic purposes than the more commonly used impressionistic rating scale.

Introduction to Applied Linguistics Alan Davies 2007-07-12 This second edition of the foundational textbook *An Introduction to Applied Linguistics* provides a state-of-the-art account of contemporary applied linguistics. The kinds of language problems of interest to applied linguists are discussed and a distinction drawn between the different research approach taken by theoretical linguists and by applied linguists to what seem to be the same problems. Professor Davies describes a variety of projects which illustrate the interests of the field and highlight the marriage it offers between practical experience and theoretical understanding. The increasing emphasis of applied linguistics on ethicality is linked to the growth of professionalism and to the concern for accountability, manifested in the widening emphasis on critical stances. This, Davies argues, is at its most acute in the tension between giving advice as the outcome of research and taking political action in order to change a situation which, it is claimed, needs ameliorisation. This dilemma is not confined to applied linguistics and may now be endemic in the applied disciplines.

Present and Future Trends in TEFL María Elena García Sánchez 2001-06-04 The aim of this book is to develop a framework for describing the field as it currently exists together with well-established views. As far as possible the book describes rather than prescribes, to avoid taking up any single approach or theory regarding what constitutes the legitimate approach to TEFL research. Of course, the personal views of the authors will colour the account provided as it is impossible to separate description from interpretation. Thus, in a way, this book involves the theories, beliefs, knowledge, methods and practices of foreign language teachers and how these can enhance teacher education. This book is planned for pre-service or in-service teachers of a foreign language at primary, secondary or tertiary levels, although the criterions examined are useful to teachers of English as a foreign language, teacher trainers, or modern language teachers involved in teaching any language whether in Spain or overseas. Our main purpose is to help readers to help themselves. Accordingly, the reader is encouraged to be engaged in an examination of foreign language teaching and learning in hope of improving his/her practice and making language teaching more controllable, more interesting and more effective. The chapters are organized into four sections. In Section I, three chapters describe some perspectives in teacher education. In the first chapter, José M. Vez focuses on the hypothesis that the key to producing well-qualified EFL teachers is to greatly strengthen their professional learning across the continuum of a career in the foreign language classroom. He emphasizes the fact that foreign-language teaching must become a learning profession in order to prompt greater learning

among foreign language students and describes the innovative aspects of foreign language teacher education. In the second chapter, Sheena Davies provides an overview of language teacher education today, with particular reference to English language teaching, discusses some current issues associated with the field, and gives notice of her experience working with both native speaker and non-native speaker teachers of English from all over the world on a variety of in-service and pre-service courses and seminars. In chapter 3, we examine the perspectives on teacher thinking and teachers' beliefs in general, and about language learning in particular. .

Employment Law 2020 Gill Phillips 2020-02-01 Employment Law introduces the issues involved in the regulation of employees and their relations with their employers. Global Security Great Britain: Parliament: House of Commons: Foreign Affairs Committee 2008-11-30 This report is the fourth in a series on global security, and examines the foreign policy aspects of the United Kingdom's relationship with Japan, the Republic of Korea (South Korea) and the Democratic People's Republic of Korea (North Korea). The current political and economic scene in

Japan and South Korea is outlined. The regional relations of Japan and South Korea are then examined, including those with the United States and China, trade agreements and regional security forums. The focus on North Korea covers the nuclear programme, human rights, food security, regime reform and stability, North-South Korea relations and military matters. The involvement of Japan and South Korea in international affairs is also scrutinised, including climate change, development assistance, and the United Nations. The report concludes with a review of economic and cultural relations between the UK and Japan and South Korea.

The Politics of English Second Language Writing Assessment in Global Contexts
Todd Ruecker 2018-04-17 Reflecting the internationalization of the field of second language writing, this book focuses on political aspects and pedagogical issues of writing instruction and testing in a global context. High-stakes assessment impacts the lives of second language (L2) writers and their teachers around the world, be it the College English Test in China, Common Core-aligned assessments in the U.S., English proficiency tests in Poland, or the material conditions (such as access to technology, training, and other resources) affecting a classroom. With contributions from authors working in ten different countries in a variety of institutional contexts, the chapters examine the uses and abuses of various writing-related assessments, and the policies that determine their form and use. Representing a diverse range of contexts, methods, and disciplines, the authors jointly call for more equitable testing systems that consider the socioeconomic, psychometric, affective, institutional, and needs of all students who strive to gain access to education and employment opportunities related to English language proficiency.

Professional Development of English Language Teachers in Asia Kayoko Hashimoto 2018-05-16 Why has English language proficiency in Japan remained so low in comparison to other Asian countries? Has Vietnam attempted to improve English language teaching because ASEAN has adopted English as its working language? Why do English language teachers struggle with curriculum changes imposed by

governments in order to make them competitive in the international community? Do professional development (PD) programs actually meet the needs of teachers? This book addresses issues surrounding these questions by examining how the Japanese and Vietnamese governments have approached and defined the PD of English language teachers and how such PD programs have been delivered. It further analyses the impact of policy changes on individual teachers and explores how PD can help teachers to implement such changes effectively at the micro-level. PD of language teachers or language teacher education is relatively new as a field of inquiry in Applied Linguistics. By including case studies of Japan and Vietnam in the one volume, this book embarks on the challenging task of demonstrating that PD is an essential element of the successful implementation of language policies in Asia, where World Englishes have been shaped by distinct local contexts.

IELTS Collected Papers 2 Lynda Taylor 2012-02-23 This volume reports research that informs the development of reading and listening assessment in IELTS. This volume brings together a set of eight IELTS-related research studies - four on reading and four on listening - conducted between 2005 and 2010. Findings from these studies provide valuable evidence on the validity, reliability, impact and practicality of the IELTS test; they are also instrumental in highlighting aspects needing attention, and thus directly inform the continuing evolution of the IELTS reading and listening tests. The volume reviews and comments on the specific contribution of each study to the ongoing process of IELTS reading and listening test design and development.

TESOL Teacher Education in a Transnational World Osman Z. Barnawi 2020-11-27 TESOL Teacher Education in a Transnational World critically examines theories and practices in contemporary TESOL teacher education to shed new light on the intersection of transnationalism and language teacher education. It emphasizes the scholarship of transnational mobility of language teachers, and showcases critical research from diverse contexts. The book fills a critical research gap by more fully examining the theory and practice of teacher education in a changing time when national identities and cross-border mobilities continue to figure prominently in scholarly discussions. Through a diverse set of epistemological, historical and theoretical perspectives along with methodological innovations, contributors of this volume not only index the dynamism of the scholarship of teacher education, but they also offer new forums for lively pedagogical debates. Featuring contributions from diverse educational and geographical contexts, including Europe, Asia, North America, and Latin America, the book moves the existing scholarship forward to more fully examine TESOL teacher education in relation to transnationalism. This

book will be of great interest to academics, scholars, post-graduate students, teacher educators, policymakers, curriculum specialists, administrators, and other stakeholders interested in language teacher education, TESOL and applied linguistics

Handbook of Second Language Assessment Dina Tsagari 2016-03-07 Second language assessment is ubiquitous. It has found its way from education into questions about access to professions and migration. This volume focuses on the main debates and research advances in second language assessment in the last fifty years or so, showing the influence of linguistics, politics, philosophy, psychology, sociology, and psychometrics. There are four parts which, when taken together, address the principles and practices of second language assessment while considering its impact on society. Read separately, each part addresses a different aspect of the field. Part I deals with the conceptual foundations of second language assessment with chapters on the purposes of assessment, and standards and frameworks, as well as matters of scoring, quality assurance, and test validation. Part II addresses the theory and practice of assessing different second language skills including aspects like intercultural competence and fluency. Part III examines the challenges and opportunities of second language assessment in a range of contexts. In addition to chapters on second language assessment on a national scale, there are chapters on learning-oriented assessment, as well as the uses of second language assessment in the workplace and for migration. Part IV examines a selection of important issues in the field that deserve attention. These include the alignment of language examinations to external frameworks, the increasing use of technology to both deliver and score second language tests, the responsibilities associated with assessing test takers with special needs, the concept of 'voice' in second language assessment, and assessment literacy for teachers and other test and score users.

Employment Law 2021 Phillips 2021-01-18 Employment Law introduces the issues involved in the regulation of employees and their relations with their employers. It explains the framework governing employment contracts, dismissal procedures and redundancy payments. The book also covers TUPE, discrimination law and family-friendly legislation, as well as practice and procedure. The book has been comprehensively updated to take account of all the main recent and proposed developments in employment law and practice, including the recent guidance issued by the Equality and Human Rights Commission on the use of non-disclosure agreements to settle employment claims, and an updated summary of the key cases on annual leave, including the Court of Appeal's decisions in *The Harpur Trust v Brazel* and *Flowers v East of England Ambulance Trust*. A number of key European court cases are considered, including two ECtHR decisions looking at the privacy in the workplace (*Garamukanwa v UK* and *Lpez Ribalda v Spain*) and

the ECJ decision in *Federacin de Servicios de Comisiones Obreras v Deutsche Bank* (keeping records of time worked). The first Supreme Court decision in almost 100 years to consider post-employment restrictive covenants, *Tillman v Egon Zehnder*, is included, along with a number of important Court of Appeal judgments, including *Network Rail v Crawford* (daily rest periods), *Hare Wines v Kaur* (automatically unfair dismissal and TUPE), *Okedina v Chikale* (impact of illegal contacts in an unfair dismissal situation), *Owen v AMEC Foster Wheeler Energy* (disability discrimination and comparators) and *Foreign and Commonwealth Office v Bamieh* (territorial jurisdiction in a whistleblowing claim). The case law on unfair dismissal and reasonableness has been updated to include the Court of Appeal decisions in *North West Anglia NHS Foundation Trust v Gregg* (suspension and disciplinary proceedings) and *London Borough of Lambeth v Agoreyo* (suspension and mutual trust and confidence), and the EAT decisions in *Radia v Jefferies International* (investigations and appeals) and *Phoenix House v Stockman (No 2)* (making covert recordings at work). Three recent cases considering what amounts to a religious or philosophical belief under the Equality Act 2010 are included (*Mackereth v Department for Work and Pensions*, *Conisbee v Crossley Farms and Gray v Mulberry Company*), as are a number of significant EAT rulings, including *Dray Simpson v Cantor Fitzgerald* (a masterclass on whistleblowing) and *Ameyaw v PwC* (online publication of employment tribunal judgments). The book is up to date as at 1 October 2019, although account has been taken of some later developments as at 20 November 2019.

High-Stakes Testing in Education Theo J.H.M Eggen 2015-10-14 High-stakes educational testing is a global phenomenon which is increasing in both scale and importance. Assessments are high-stakes when there are serious consequences for one or more stakeholders. Historically, tests have largely been used for selection or for providing a 'licence to practise', making them high-stakes for the test takers. Testing is now also used for the purposes of improving standards of teaching and learning and of holding schools accountable for their students' results. These tests then become high-stakes for teachers and schools, especially when they have to meet externally imposed targets. More recent has been the emergence of international comparative testing, which has become high-stakes for governments and policy makers as their education systems are judged in relation to the performances of other countries. In this book we draw on research which examines each of these uses of high-stakes testing. The articles evaluate the impact of such assessments and explore the issues of value and fairness which they raise. To underline the international appeal of high-stakes testing the studies are drawn from Australia, Africa, the Caribbean, Europe, former Soviet republics and North America. Collectively they illustrate the power of high-stakes assessment in shaping, for better or for worse, policy making and schooling. This book was originally published as a special issue of *Assessment in Education: Principles, Policy & Practice*.

International Encyclopedia of Human Geography 2019-11-29 International Encyclopedia of Human Geography, Second Edition embraces diversity by design and captures the ways in which humans share places and view differences based on gender, race, nationality, location and other factors—in other words, the things that make people and places different. This updated edition will assist readers in their research by providing factual information, historical perspectives, theoretical approaches, reviews of literature, and provocative topical discussions that will stimulate creative thinking. Presents the most up-to-date and comprehensive coverage on the topic of human geography Contains extensive scope and depth of coverage Emphasizes how geographers interact with, understand and contribute to problem-solving in the contemporary world Places an emphasis on how geography is relevant in a social and interdisciplinary context

English Tertiary Education in Vietnam James Albright 2018-06-27 As part of a long series of Vietnam's policy objectives, English education has been identified as key to improving the quality of its rapidly expanding tertiary institutions and is crucial to the larger aim of modernising and internationalising its economy. Bringing together a wide range of Vietnamese and foreign English education scholars, and tertiary educational practitioners, this book documents the significant progress and challenges in the realisation of Vietnam's English language policies as they are enacted in the higher education sector. Changes to Vietnam's higher education system remain unstable, unsystematic, and insubstantial. This book provides insights into how recent Vietnamese government policy is providing for a substantial and comprehensive renewal of Vietnam's tertiary education as part of their 2020 plan. Academics and students of English education, language policy, and nation building within the context of increased globalisation and marketisation in developing nations and Vietnam, in particular, should find this book valuable.

International Perspectives on Teaching English in Difficult Circumstances

Kuchah Kuchah 2018-11-17 This book offers a holistic practitioner and research-based perspective on English Language Teaching and teacher education in difficult circumstances. In addition to extending the current conceptualization of 'difficult circumstances' in ELT to include the broader policy issues that may affect ELT in low-to-mid income countries, the book focuses on the challenges faced by practitioners and learners in contexts of confinement, conflict and special education. The chapters in this collection examine the challenges and problems that emerge from the complex current ELT environment, and present examples of contextualized inquiry-based strategies and interventions to address these challenges. Underlining the need to extend the boundaries of the discipline of ELT to include teaching-learning in less privileged contexts, this wide-ranging volume will appeal to students, scholars and practitioners of English Language Teaching.

Introduction to TESOL Kate Mastruserio Reynolds 2021-11-23 A comprehensive introduction to TESOL for new and future teachers of English, offering a full and detailed view of the process of becoming a language teacher *Introduction to TESOL: Becoming a Language Teaching Professional* presents an expansive and well-balanced view of both the interdisciplinary knowledgebase and professional opportunities in the field of language teaching. Written to help aspiring TESOL educators understand how to begin their careers, this comprehensive textbook covers both the foundational linguistic elements of TESOL as well as the practical pedagogical aspects of the discipline. Written with the needs of the introductory student in mind, this book delves into the essentials of English as a Second Language (ESL) and English as a Foreign Language (EFL) teaching, covering professional organizations, language acquisition theories, instructional practices, professional development, and more. Readers are provided with clear descriptions of recent research and contemporary practices, numerous illustrations and examples highlighting key material, and engaging real-world vignettes from professionals teaching internationally. English in Southeast Asia and ASEAN Azirah Hashim 2020-11-17 English in Southeast Asia and ASEAN embeds English in its various regional Southeast Asian and political ASEAN language habitats. Addressing the history, developmental stages and contacts with other languages, it provides in-depth information on the region and its political organization. In doing so, it analyzes the geopolitical division of the region between former Anglophone and non-Anglophone colonies and shows that this distinction has led to considerable differences in the status and texture of English. This analysis includes the role and impact of American English in mainland and maritime Southeast Asia to highlight the linguistic properties of English and its linguistic and sociopolitical development, English used in specific domains, language policies and concludes with the future of English and future challenges. This book therefore provides an integrative survey of the various roles of English in ASEAN member states and studies the transformation of entire language habitats, including the major national and regional languages that participate in this process. It also explains how new societies emerge with their conflicting identities and their aspirations to act regionally or even globally and is a valuable resource for scholars and students in the fields of World Englishes, Asian Studies and those interested in language contact, policy and planning.

A Guide to Writing in English as a Second Or Foreign Language Dan J. Tannacito 1995 This bibliography offers English-as-a-Second-Language (ESL) and English-as-a-Foreign-Language (EFL) specialists and non-specialists a listing of almost 3,500 works in the field of writing in ESL/EFL, at all educational levels, from 1937 through 1993. It includes works focusing on how non-native speakers write in English, how they learn to write in English, how ESL and native-English-speaker (NES) compositions compare, how English is taught in contexts where it is used as a second or foreign language, and instructional materials developed to support writing in a second/foreign language. Citations include bibliographies, monographs, textbooks, periodicals, dissertations and some (unannotated) master's theses, conference papers, and Educational Resources Information Center (ERIC) documents. An introductory section and a list of native languages addressed in the works precede the annotated entries. Author and subject indexes are also included. (MSE)

The Routledge Handbook of World Englishes Andy Kirkpatrick 2010-06-17 The Routledge Handbook of World Englishes constitutes a comprehensive introduction to the study of World Englishes drawing on the expertise of leading authors within the field. The Handbook is structured in nine sections covering historical perspectives, core issues and topics and new debates which together provide a thorough overview of the field taking into account the new directions in which the discipline is heading. Among the key themes covered are the development of English as a lingua franca among speakers for whom English is a common but not first language, the parallel development of English as a medium of instruction in educational institutions throughout the world and the role of English as the international language of scholarship and scholarly publishing, as well as the development of 'computer-mediated' Englishes, including 'cyberprose'. The Handbook also includes a substantial introduction and conclusion from the editor. The Routledge Handbook of World Englishes is the ideal resource for postgraduate students of applied linguistics as well as those in related degrees such as applied English language and TESOL/TEFL.
