**Electoral Malpractice** Sarah Birch 2011-12-22 "In an online, interconnected world, democracy is increasingly made up of wikis and blogs, pokes and tweets. Citizens have become accidental journalists thanks to their handheld devices,

politicians are increasingly working online, and the traditional sites of democracy--assemblies, public galleries, and plazas--are becoming less and less relevant with every new technology. And yet, Democracy and Public Space argues, such views are leading us to confuse the medium with the message, focusing on electronic transmission when often what cyber citizens transmit is pictures and narratives of real democratic action in physical space. Democratic citizens are embodied, take up space, battle over access to physical resources, and perform democracy on physical stages at least as much as they engage with ideas in virtual space. Combining conceptual analysis with interviews and observation in capital cities on every continent, John Parkinson argues that democracy requires physical public space, that some kinds of space are better for performing some democratic roles than others, and that some of the most valuable kinds of space are under attack in developed democracies. He argues that accidental publics like shoppers and lunchtime crowds are increasingly valued over purposive, active publics, over citizens with a point to make or an argument to listen to. This can be seen not just in the way that traditional protest is regulated, but in the ways that ordinary city streets and parks are managed, even in the design of such quintessentially democratic spaces as legislative assemblies. Democracy and Public Space offers an alternative vision for democratic public space, and evaluates 11 cities--from London to Tokyo--against that ideal."--Publisher's website.

**The Concise Oxford Dictionary of Current English (Classic Reprint)** Henry Watson Fowler 2017-11-21 Excerpt from The Concise Oxford Dictionary of Current English Again, of the many thousands of old or new scientific and technical terms that have a limited currency some are carried by accident into the main stream of the language and become known temporarily or permanently, vaguely or precisely, to all ordinarily well-informed members of the modern newspaper-reading public. For the purposes of a dictionary that is not to be bulky and yet is to give a fuller treatment than is usual in dictionaries of its size to the undoubtedly current words forming the staple of the language, selection among these intruders is a difficult but very necessary task. The most that can be hoped for is that every one conversant with any special vocabulary may consider us, though sadly deficient on his subject, fairly copious on others the meaning of many learned words that have been omitted as having no pretence to general currency may easily be gathered by reference first to the stem, which is often the subject of an article, or to another word of which the stem is clearly the same, and secondly to the suffix. In another class of words and senses the test of currency has led us to diverge in the opposite direction from the practice usual in dictionaries of this size if we give fewer scientific and technical terms, we admit colloquial, facetious, slang, and vulgar expressions with freedom, merely attaching a cautionary label when a well established usage of this kind is omitted, it is not because we consider it beneath the dignity of lexicography to record it, but because, not being recorded in the dictionaries from which our word-list is necessarily compiled, it has escaped our notice we have not, however, consulted slang dictionaries nor made any attempt at completeness in this respect. **Discovering Sindh's Past** Michel Boivin 2018-01-15 This collection of thirteen articles from the Journal of the Sind Historical Society concentrates on precolonial and colonial Sind. These articles reveal much about Sindh's past and historically showcase the region's broad socio-cultural spectrum. Scholarship frequently overlooks the subjects and people in this collection. In part, this oversight is due to so few libraries (both in Pakistan and around the world) having copies of the Journal of the Sind Historical Society. There are no reprints of these articles in any other book, nor has anyone reprinted

them in their entirety since the 1930s and 1940s. The articles in this book not only deepen knowledge about Sindh but also the history of Pakistan and the diversity of its people. They represent, like most research printed in the Journal of the Sind Historical Society, "forgotten" chapters in both Sindhi and Pakistani history. These chapters celebrate Pakistan's socio-cultural diversity and point toward how the histories of region and nation should be intertwined.

*Willoughby's Minute* Matthew A. Cook 2013-09-05 Willoughby's Minute describes events that surround the 1842 Treaty of Nownahar. Instead, it demonstrates how a local treaty-that did not involve the British directly-contextualizes Sindh's annexation and the institutional relationship between civil and military authority within the East India Company.
