**Draining the Swamp, Southern Style** Bruce D. Epperson 2021-02-23 In 1912, a Congressional committee met to investigate allegations that the Secretary of Agriculture had suppressed a report by J. O. Wright on drainage in the Florida Everglades. The following seven months of committee hearings uncovered a veritable horror-show of corruption, self-dealing, misuse of government personnel and property for private gain, the tarring of reputations in order to protect high-level officials, and outright blackmail within the Department of Agriculture and the state governments of Florida and North Carolina. The "Wright Report Incident" is most commonly understood in its connection to the Everglades, and few histories have included its effects on the North Carolina Pocosin wetland and other coastal plain swamps. This book seeks fills that gap. It details the timeline, intricate politics, and webs of corruption that make up the story of the Wright Incident and, specifically, its connection to land management practices in coastal North Carolina that continue to impact the industries of the state almost 100 years later.

**Teacher Evaluation** Arthur E. Wise 1984 A new concern for the quality of education and of teachers is being translated into merit-pay, career-ladder, and master-teacher policies that presuppose the existence of effective teacher evaluation systems. School district administrators must understand the educational and organizational implications of the teacher evaluation system that they adopt, because that system can define the nature of teaching and education in their schools. In particular, the system can either reinforce the idea of teaching as a profession, or it can further deprofessionalize teaching, making it less able to attract and retain talented teachers. The present study focused on the actual operation of teacher evaluation procedures in school systems. It examined not only the instruments and procedures, but also the implementation process and the organizational contexts within which they operate. This approach enabled the authors to observe whether and how teacher evaluation results are used by the organization. It also indicated the broader organizational conditions needed to initiate and sustain effective teacher evaluation practices.

**Los Angeles Magazine** 2000-04 Los Angeles magazine is a regional magazine of national stature. Our combination of award-winning feature writing, investigative reporting, service journalism, and design covers the people, lifestyle, culture, entertainment, fashion, art and architecture, and news that define Southern California. Started in the spring of 1961, Los Angeles magazine has been addressing the needs and interests of our region for 48 years. The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian.
