Never Done Erin Hill 2016-10-05 Histories of women in Hollywood usually recount the contributions of female directors, screenwriters, designers, actresses, and other creative personnel whose names loom large in the credits. Yet, from its inception, the American film industry relied on the labor of thousands more women, workers whose vital contributions often went unrecognized. Never Done introduces generations of women who worked behind the scenes in the film industry—from the employees’ wives who hand-colored the Edison Company’s films frame-by-frame, to the female immigrants who toiled in MGM’s backrooms to produce beautifully beaded and embroidered costumes. Challenging the dismissive characterization of these women as merely menial workers, media historian Erin Hill shows how their labor was essential to the industry and required considerable technical and interpersonal skills. Sketching a history of how Hollywood came to define certain occupations as lower-paid “women’s work,” or “feminized labor,” Hill also reveals how enterprising women eventually gained a foothold in more prestigious divisions like casting and publicity. Poring through rare archives and integrating the firsthand accounts of women employed in the film industry, the book gives a voice to women whose work was indispensable yet largely invisible. As it traces this long history of women in Hollywood, Never Done reveals the persistence of sexist assumptions that, even today, leave women in the media industry underpraised and underpaid. **The Woman Who Says No** Malte Herwig 2016-05-10 Pablo Picasso called Françoise Gilot "The Woman Who Says No." Tiny, talented, and feisty, and an accomplished artist in her own right, Gilot left Picasso after a ten-year relationship, the only woman to escape his intense attentions unscathed. From 2012 to 2014, German journalist and author Malte Herwig dropped by her ateliers in Paris and New York to chat with her about life, love, and art. She shared trenchant observations, her sharp sense of humor, and over ninety years of experience, much of it in the company of men who changed the world: Picasso, Matisse, and her second husband, the famous virologist Jonas Salk, developer of the polio vaccine. Never one to stand in the shadows, Gilot engaged with ground-breaking artists and scientists on her own terms, creating from these vital interactions an artistic style all her own, translated into an enormous collection of paintings and drawings held by private collectors and public museums around the world. In her early nineties, she generously shared her hospitality and wisdom with Herwig, who started out as an interviewer but found himself drawn into the role of pupil as Gilot, whom he called "a philosopher of joy," shared with

him different ways of seeing the world.

Bruce Lee Matthew Polly 2019-06-04 “The first noteworthy treatment of its subject—and a definitive one at that...Fascinating narrative threads proliferate” (The New York Times Book Review). The most authoritative biography—featuring dozens of rarely seen photographs—of film legend Bruce Lee, who made martial arts a global phenomenon, bridged the divide between Eastern and Western cultures, and smashed long-held stereotypes of Asians and Asian-Americans. Forty-five years after Bruce Lee’s sudden death at age thirty-two, journalist and bestselling author Matthew Polly has written the definitive account of Lee’s life. It’s also one of the only accounts; incredibly, there has never been an authoritative biography of Lee. Following a decade of research that included conducting more than one hundred interviews with Lee’s family, friends, business associates, and even the actress in whose bed Lee died, Polly has constructed a complex, humane portrait of the icon. Polly explores Lee’s early years as a child star in Hong Kong cinema; his actor father’s struggles with opium addiction and how that turned Bruce into a troublemaking teenager who was kicked out of high school and eventually sent to America to shape up; his beginnings as a martial arts teacher, eventually becoming personal instructor to movie stars like James Coburn and Steve McQueen; his struggles as an Asian-American actor in Hollywood and frustration seeing role after role he auditioned for go to a white actors in eye makeup; his eventual triumph as a leading man; his challenges juggling a sky-rocketing career with his duties as a father and husband; and his shocking end that to this day is still shrouded in mystery. Polly breaks down the myths surrounding Bruce Lee and argues that, contrary to popular belief, he was an ambitious actor who was obsessed with the martial arts—not a kung-fu guru who just so happened to make a couple of movies. This is an honest, revealing look at an impressive yet imperfect man whose personal story was even more entertaining and inspiring than any fictional role he played onscreen.

*Audience-ology* Kevin Goetz 2021-11-30 Discover the fascinating and secretive process of audience testing of Hollywood movies through these first-hand stories from famous filmmakers, studio heads, and stars. Audience-ology takes you to one of the most unknown places in Hollywood—a place where famous directors are reduced to tears and multi-millionaire actors to fits of rage. A place where dreams are made and fortunes are lost. This book is the chronicle of how real people have written and rewritten America’s cinematic masterpieces by showing up, watching a rough cut of a new film, and giving their unfettered opinions so that directors and studios can salvage their blunders, or better yet, turn their movies into all-

time classics. Each chapter informs an aspect or two of the test-screening process and then, through behind-the-scenes stories, illustrates how that particular aspect was carried out. Nicknamed “the doctor of audience-ology,” Kevin Goetz shares how he helped filmmakers and movie execs confront the misses and how he recommended ways to fix the blockbusters, as well as first-hand accounts from Ron Howard, Cameron Crowe, Ed Zwick, Renny Harlin, Jason Blum, and other Hollywood luminaries who brought you such films as *La La Land*, *Chicago*, *Titanic*, *Wedding Crashers*, *Jaws*, and *Forrest Gump*. Audience-ology explores one of the most important (and most underrated) steps in the filmmaking process with enough humor, drama, and surprise to entertain those with only a spectator’s interest in film, offering us a new look at movie history.

Paramount Studios: 1940-2000 Marc Wanamaker, Michael Christaldi, and E.J. Stephens, Foreword by Robert Evans 2016 The fascinating tale of Hollywood powerhouse Paramount Pictures--beginning with its birth in the 1910s through the turbulent decade of the 1930s--was told in *Early Paramount Studios* by Marc Wanamaker, Michael Christaldi, and E.J. Stephens. Now the same authors are back to tell the next 60 years of the studio saga in *Paramount Studios: 1940-2000*, with a foreword by former Paramount head of production Robert Evans. This book picks up the story during the time of World War II--a successful era for the studio--which was followed by a decade of decline due to the upstart medium of television. By the 1960s, the studio teetered on the brink of bankruptcy before rebounding, thanks to several 1970s blockbusters, such as *Love Story*, *The Godfather*, and *Chinatown*. The tale continues through the final decades of the 20th century when Paramount showcased some of the greatest hits in its history.

**The Keys To The Kingdom** Kim Masters 2009-10-13 Like one of the movie moguls of old, Michael Eisner is a titan -- feared, powerful, and almost magically successful. After rising through ABC television and Paramount Pictures, he awoke the sleeping giant of Disney and sent it stomping across the entertainment

landscape. But since the tragic death of Frank Wells in a helicopter crash in 1994, he has lacked -- for the first time in his career -- a colleague who could temper his personality. The result, writes Kim Masters, has been a slide into a Nixonian paranoia and isolation. In *The Keys to the Kingdom*, Masters crafts a gripping account of this larger-than-life story of larger-than-life hubris, combining an insightful analysis of power in Hollywood with a vivid, deeply researched narrative that brings the personalities, the enmities, and the corporate mayhem to life.

**Hollywood 1940-2008** Marc Wanamaker 2009-04-13 Since World War II, Hollywood has fought and won that same war many times, won the West even more often—plus got the girl—and laughed like crazy, too. The postwar era in the dream factory was a prosperous time of expansion and wealth through the 1970s, decline in the 1980s, and rebirth in the new century. Vintage photographs from the rare collections of Hollywood Heritage and Bison Archives depict the municipal, business, residential, and entertainment industry growth in Hollywood proper, from 1940 until the beginning of the 21st century. This companion volume to Arcadia Publishing's *Early Hollywood* completes the pictorial saga of the world's most renowned storytelling capital. These images depict the rise of the television industry, changes along Hollywood Boulevard, and movers and shakers whose visions and influence have made Hollywood the entertainment industry's Mecca.

**Global Trends 2040** National Intelligence Council 2021-03 "The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) *Global Trends 2040-A More Contested World* (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends,

policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

**Marvel Comics into Film** Matthew J. McEniry, 2016-03-30 Marvel Studios' approach to its Cinematic Universe--beginning with the release of Iron Man (2008)--has become the template for successful management of blockbuster film properties. Yet films featuring Marvel characters can be traced back to the 1940s, when the Captain America serial first appeared on the screen. This collection of new essays is the first to explore the historical, textual and cultural context of the larger cinematic Marvel universe, including serials, animated films, television movies, non-U.S. versions of Marvel characters, films that feature characters licensed by Marvel, and the contemporary Cinematic Universe as conceived by Kevin Feige and Marvel Studios. Films analyzed include Transformers (1986), Howard the Duck (1986), Blade (1998), Planet Hulk (2010), Iron Man: Rise of Technovore (2013), Elektra (2005), the Conan the Barbarian franchise (1982-1990), Ultimate Avengers (2006) and Ghost Rider (2007).

**MGM** Steven Bingen 2011-02-25 M-G-M: Hollywood's Greatest Backlot is the illustrated history of the soundstages and outdoor sets where Metro-Goldwyn-Mayer produced many of the world's most famous films. During its Golden Age, the studio employed the likes of Garbo, Astaire, and Gable, and produced innumerable iconic pieces of cinema such as The Wizard of Oz, Singin' in the Rain, and Ben-Hur. It is estimated that a fifth of all films made in the United States prior to the 1970s were shot at MGM studios, meaning that the gigantic property was responsible for hundreds of iconic sets and stages, often utilizing and transforming minimal spaces and previously used props, to create some of the most recognizable and identifiable landscapes of modern movie culture. All of this happened behind closed doors, the backlot

shut off from the public in a veil of secrecy and movie magic. *M-G-M: Hollywood's Greatest Backlot* highlights this fascinating film treasure by recounting the history, popularity, and success of the MGM company through a tour of its physical property. Featuring the candid, exclusive voices and photographs from the people who worked there, and including hundreds of rare and unpublished photographs (including many from the archives of Warner Bros.), readers are launched aboard a fun and entertaining virtual tour of Hollywood's most famous and mysterious motion picture studio.

*The Survival of American Silent Feature Films* Council on Library and Information Resources and The Library of Congress 2014-04-11 The era of the American silent feature film lasted from 1912 until 1929. During that time, filmmakers established the language of cinema, and the motion pictures they created reached a height of artistic sophistication. These films, with their recognizable stars and high production values, spread American culture around the world. Silent feature films disappeared from sight soon after the coming of sound, and many vanished from existence. This report focuses on those titles that have managed to survive to the present day and represents the first comprehensive survey of the survival of American silent feature films. The American Film Institute Catalog of Feature Films documents 10,919 silent feature films of American origin released through 1930. *Treasures from the Film Archives*, published by the International Federation of Film Archives (FIAP), is the primary source of information regarding silent film survival in the archival community. The FIAP information has been enhanced by information from corporations, libraries, and private collectors. We have good documentation on what American silent feature films were produced and released. This study quantifies the "what," "where," and "why" of their survival. The survey was designed to answer five questions:

Warner Bros. Steven Bingen 2014-09-16 Movie studios are the wondrous, almost magical locales where not just films, but legends, are created. Unfortunately, these celebrity playgrounds are, and always have been, largely hidden from public view. Although some movie studios offer tours, few guests from outside the Hollywood community have ever been witness to the artistry, politics, and scandals that routinely go on behind the soundstage walls and away from the carefully orchestrated scenes visible to them from their tram carts. In this book, studio staff historian and Hollywood insider Steven Bingen throws open Hollywood's iron gates and takes you inside the greatest and yet most mysterious movie studio of them

all: Warner Bros. Long home to the world's biggest stars and most memorable films and television shows, the Warner Bros. Studio lot functions as a small city and is even more fascinating, glamorous, and outrageous than any of the stars or movies that it has been routinely minting for more than ninety years. Accompanied by stunning behind-the-scenes photos and maps, and including a revealing backstory, this book is your ticket to a previously veiled Hollywood paradise.

**The Genius of the System** Thomas Schatz 2015-06-02 At a time when the studio is making a stunning comeback, film historian Thomas Schatz provides an indispensable account of Hollywood's traditional blend of business and art. This book lays to rest the persistent myth that businesspeople and producers stifle artistic talent and reveals instead the genius of a system of collaboration and conflict. Working from industry documents, Schatz traces the development of house styles, the rise and fall of careers, and the making-and unmaking-of movies, from *Frankenstein* to *Spellbound* to *Grand Hotel*. Richly illustrated and highly readable, *The Genius of the System* gives the definitive view of the workings of the Old Hollywood and the foundations of the New.

*One Times Square* 2011 Presents an illustrated look at the history of Times Square and the iconic building that gave it its name, from the space's origins as part of a farm next to a dirt path that would become Broadway, to the renowned intersection of today.

**Confessions of a Puppetmaster** Charles Band 2021-11-16 “Confessions of a Puppetmaster is a fast, funny, wild ride through some wild times. Plus, Charlie compares me to Harrison Ford, so I’m all in!” –Bill Maher Renowned producer, director, and “B movie” showman Charles Band takes readers on a wild romp through Hollywood’s decidedly un-Oscar-worthy underbelly, where mayhem and zombies reign supreme, and cheap thrills and entertainment are king “This book is a blast. It made me want to stay up all night and watch terrible movies.” –Peter Sagal “One of the most entertaining film bios ever.” –Larry Karaszewski “Reads like a Tarantino film written by Hunter S. Thompson.” –Booklist Zombies, aliens, a little skin, lots of gore—and even more laughs—the cinematic universe of Charles Band is legendary. From the toilet-invading creatures of *Ghoulies* to the time-travelling bounty hunter in *Trancers* to the pandemic-crashed *Corona Zombies*, Band has spent four decades giving B-movie lovers exactly what they love. In *Confessions of a Puppetmaster*, this congenial master of Grindhouse cinema tells his own story, uncut. Born into a family of artists, Band spent much of his childhood in Rome where his father worked in the film industry. Early visits to movie sets sealed young Charlie’s fate. By his twenties he had plunged into moviemaking himself and found his calling in exploitation movies—quick, low-budget efforts that exploit the zeitgeist and feed people’s desire for clever, low-brow entertainment. His films crossed genres, from vampire flicks to sci fi to erotic musical adaptations of fairy tales. As he came into his own as a director, he was the first to give starring roles to household names like Demi Moore, Helen Hunt, and Bill Maher. Off set, Band’s life has been equally epic. Returning to his beloved Italy, he bought both Dino De Laurentiis’s movie studio and a medieval castle. After Romania’s oppressive communist regime fell, he circumvented the U.S. State Department to shoot films in Dracula’s homeland. He made—and then lost—a moviemaking fortune. A visionary, Band was also at the vanguard of the transition to home video and streaming, making and distributing direct-to-video movies long before the major studios caught on. In this revealing tell-all, Band details the dizzying heights and catastrophic depths of his four decades in showbiz. A candid and engaging glimpse at Hollywood’s wild side, *Confessions of a Puppetmaster* is as entertaining as the movies that made this consummate schlockmeister famous.

*Hollywood's Lost Backlot* Steven Bingen 2018-12-01 Hollywood is a transitory place. Stars and studios rise and fall. Genres and careers wax and wane. Movies and movie moguls and movie makers and movie palaces are acclaimed and patronized and loved and beloved, and then forgotten. And yet... And yet one

place in Southern California, built in the 1920s by (allegedly murdered) producer Thomas Ince, acquired by Cecil B. DeMille, now occupied by Amazon.com, has been the home for hundreds of the most iconic and legendary films and television shows in the world for a remarkable and star-studded fifty years. This bizarre, magical place was the location for Tara in *Gone with The Wind*, the home of King Kong and Superman, of Tarzan and Batman, of the Green Hornet, of Elliot Ness, of Barney Fife, of Tarzan, of Rebecca, of *Citizen Kane*, of Hogan's Heroes and Gomer Pyle, of Lasse, of *A Star is Born* and *Star Trek*, and at least twice, of Jesus Christ. For decades, every conceivable star in Hollywood, from Clark Gable to Warren Beatty, worked and loved and gave indelible performances on the site. And yet, today, it is completely forgotten. Pretty much anyone alive today, from college professors to longshoremen, have probably heard of Paramount and of MGM, of Warner Bros. and of Universal, and of Disney and Fox and Columbia, but the place where many of these studio's beloved classics were minted is today as mysterious and unknowable as the sphinx. *Hollywood's Lost Backlot: 40 Acres of Glamour and Mystery* will, for the first time ever, unwind the colorful and convoluted threads that make for the tale of one of the most influential and photographed places in the world. A place which most have visited, at least on screen, and which has contributed significantly and unexpectedly to the world's popular culture, and yet which few people today, paradoxically, have ever heard of.

**Reel Bad Arabs** Jack G. Shaheen 2012-12-31 A groundbreaking book that dissects a slanderous history dating from cinema's earliest days to contemporary Hollywood blockbusters that feature machine-gun wielding and bomb-blowing "evil" Arabs Award-winning film authority Jack G. Shaheen, noting that only Native Americans have been more relentlessly smeared on the silver screen, painstakingly makes his case that "Arab" has remained Hollywood's shameless shorthand for "bad guy," long after the movie industry has shifted its portrayal of other minority groups. In this comprehensive study of over one thousand films, arranged alphabetically in such chapters as "Villains," "Sheikhs," "Cameos," and "Cliffhangers," Shaheen documents the tendency to portray Muslim Arabs as Public Enemy #1—brutal, heartless, uncivilized Others bent on terrorizing civilized Westerners. Shaheen examines how and why such a stereotype has grown and spread in the film industry and what may be done to change Hollywood's defamation of Arabs.

Movie Studios of Culver City Julie Lugo Cerra 2011 After watching pioneer filmmaker Thomas Ince film one of his famous Westerns on Ballona Creek, city founder Harry Culver saw the economic base for his city. Culver announced plans for the city in 1913 and attracted three major movie studios to Culver City, along with smaller production companies. "The Heart of Screenland" is fittingly etched across the Culver City seal. These vintage images are a tour through the storied past of this company town on the legendary movie lots bearing the names of Thomas Ince, Hal Roach, Goldwyn, Metro-Goldwyn-Mayer, Lorimar, MGM-UA, Columbia, Sony Pictures, DeMille, RKO-Pathé, Selznick, Desilu, Culver City Studios, Laird International, the Culver Studios, and such nearly forgotten mini-factories as the Willat Studios. On these premises, *Gone With the Wind*, *The Wizard of Oz*, *Citizen Kane*, *E.T: The Extra-Terrestrial*, and other classics were filmed, along with tens of thousands of television shows and commercials featuring Elvis Presley, the Beatles, Michael Jackson, and many others.

The American Film Industry Tino Balio 1985-03-04 Upon its original publication in 1976, *The American Film Industry* was welcomed by film students, scholars, and fans as the first systematic and unified history of the American movie industry. Now this indispensable anthology has been expanded and revised to include a fresh introductory overview by editor Tino Balio and ten new chapters that explore such topics as the growth of exhibition as big business, the mode of production for feature films, the star as market strategy, and the changing economics and structure of contemporary entertainment companies. The result is a unique collection of essays, more comprehensive and current than ever, that reveals how the American movie industry really worked in a century of constant change—from kinetoscopes and the coming of sound to the star system, 1950s blacklisting, and today's corporate empires.

The Big Picture Edward Jay Epstein 2006-01-10 In this unprecedented, all-encompassing, and thoroughly entertaining account of the movie business, acclaimed writer Edward Jay Epstein reveals the real magic behind moviemaking: how the studios make their money. Epstein shows that in Hollywood, the only art that matters is the art of the deal: Major films turn huge profits not from the movies themselves but through myriad other enterprises, from video-game spin-offs and soundtracks to fast-food tie-ins, and even theme-park rides. The studios may compete for stars and Oscars, but their corporate parents view with one another in less glamorous markets such as cable, home video, and pay-TV. Money, though, is only a

small part of the Hollywood story; the social and political milieus—power, prestige, and status—tell the rest. Alongside its remarkable financial revelations and incisive profiles of the pioneers who helped build Hollywood, *The Big Picture* is filled with eye-opening insider stories. If you are interested in Hollywood today and the complex and fascinating way it has evolved in order to survive, you haven't seen the big picture until you've read *The Big Picture*.

*The Making of the Godfather* Mario Puzo 2013-04-23 In this entertaining and insightful essay, Mario Puzo chronicles his rise from struggling writer to overnight success after the publication of *The Godfather*. With equal parts cynicism and humor, Puzo recounts the book deal and his experiences in Hollywood while writing the screenplay for the movie. Francis Ford Coppola, Robert Evans, Peter Bart, Marlon Brando, and Al Pacino all make appearances—as does Frank Sinatra, in his famous and disastrous encounter with Puzo. First published in 1972, the essay is now available as an ebook for the first time. A must-have for every *Godfather* fan! Featuring a foreword by Ed Falco, author of *The Family Corleone*.

*Hollywood and the Great Depression* Iwan Morgan 2016-10-31 Examines how Hollywood responded to and reflected the political and social changes that America experienced during the 1930s. In the popular imagination, 1930s Hollywood was a dream factory producing escapist movies to distract the American people from the greatest economic crisis in their nation's history. But while many films of the period conform to this stereotype, there were a significant number that promoted a message, either explicitly or implicitly, in support of the political, social and economic change broadly associated with President Franklin D. Roosevelt's New Deal programme. At the same time, Hollywood was in the forefront of challenging traditional gender roles, both in terms of movie representations of women and the role of women within the studio system. With case studies of actors like Shirley Temple, Cary Grant and Fred Astaire, as well as a selection of films that reflect politics and society in the Depression decade, this fascinating book examines how the challenges of the Great Depression impacted on Hollywood and how it

responded to them. Topics covered include: How Hollywood offered positive representations of working women  
Congressional investigations of big-studio monopolization over movie distribution  
How three different types of musical genres related in different ways to the Great Depression the Warner Bros Great Depression Musicals of 1933, the Astaire/Rogers movies, and the MGM kids musicals of the late 1930s  
The problems of independent production exemplified in King Vidor's *Our Daily Bread*  
Cary Grant's success in developing a debonair screen persona amid Depression conditions

**Hollywoodland** Mary Mallory 2011 Established by real estate developers Tracy E. Shoults and S. H. Woodruff in 1923, Hollywoodland was one of the first hillside developments built in Hollywood. Touting its class and sophistication, the neighborhood promoted a European influence, featuring such unique elements as stone retaining walls and stairways, along with elegant Spanish, Mediterranean, French Normandy, and English Tudor-styled homes thoughtfully placed onto the hillsides. The community contains one of the world's most recognizable landmarks, the Hollywood sign, originally constructed as a

giant billboard for the development and reading "Hollywoodland." The book illustrates the development of the upper section of Beachwood Canyon known as Hollywoodland with historical photographs from Hollywood Heritage's S. H. Woodruff Collection as well as from other archives, institutions, and individuals.

**Early Warner Bros. Studios** E.J. Stephens 2010-07-26 Since 1928, Warner Bros. has produced thousands of beloved films and television shows at the studio's magical 110-acre film factory in Burbank. This collection of evocative images concentrates on the Warner Bros. legacy from the 1920s to the 1950s, when timeless classics such as *Casablanca*, *The Maltese Falcon*, and *East of Eden* came to life. It also looks at WB's earlier homes along Hollywood's "Poverty Row," the birthplace of Looney Tunes, and the site of WB's pioneering marriage between film and sound in the 1920s. *Early Warner Bros. Studios* also tells the tale of four brothers—Harry, Albert, Sam, and Jack Warner—scions of a Polish Jewish immigrant family who rose from the humblest of origins to become Hollywood moguls of enormous and lasting influence.
