Uncertain Territories Inge E. Boer 2006 Tracing and theorizing the concept of boundaries through literary works, visual objects and cultural phenomena, this book argues against the reification of boundaries as fixed and empty non-spaces that divide the world. The contributors elaborate on Boer's theme of boundaries as spaces where opposition yields to negotiation. Their analyses span diverse artefacts and media, ranging from literature to photography, to art installation and presentation, film and song. Fanning out from Boer's central focus - Orientalism - to other places of contestation, boundaries are described to mediate the relationship between self and other.

On Art and Science Shyam Wuppuluri 2020-11-28 Einstein once remarked "After a certain high level of technical skill is achieved, science and art tend to coalesce in aesthetics, plasticity, and form. The greatest scientists are always artists as well". In this volume, some of the world's leading thinkers come together to expound on the interrelations between sciences and arts. While one can segregate art and place it outside the scientific realm, it is, nevertheless, inextricably linked to our essential cognitive/emotional/perceptual modalities and abilities, and therefore lies alongside and in close contact with the method of science and philosophy. What inspiration can scientists draw from art and how can scientific spirit foster our understanding and creation of aesthetic works? How are art and science

grounded in our cognition? What role does perception play in science and art? Are criteria for beauty in art and science the same? How does evolution shape our understanding of art? How do science, art and scientifico-artistic frameworks shape society as a whole and help us address its pressing issues? The epistemological and ontological aspects haunt artists, philosophers and scientists alike. The essays in this volume address these manifold questions while also elucidating the pragmatic role they play in our daily life.

Camus' Literary Ethics Grace Whistler 2020-01-25 This book seeks to establish the relevance of Albert Camus' philosophy and literature to contemporary ethics. By examining Camus' innovative methods of approaching moral problems, Whistler demonstrates that Camus' work has much to offer the world of ethics— Camus does philosophy differently, and the insights his methodologies offer could prove invaluable in both ethical theory and practice. Camus sees lived experience and emotion as ineliminable in ethics, and thus he chooses literary methods of communicating moral problems in an attempt to draw positively on these aspects of human morality. Using case studies of Camus' specific literary methods, including dialogue, myth, mime and syntax, Whistler pinpoints the efficacy of each of Camus' attempts to flesh-out moral problems, and thus shows just how much contemporary ethics could benefit from such a diversification in method.

In Defiance of Painting Christine Poggi 1992-01-01 The invention of collage by Picasso and Braque in 1912 proved to be a dramatic turning point in the development of Cubism and Futurism and ultimately one of the most significant innovations in twentieth-century art. Collage has traditionally been viewed as a new expression of modernism, one allied with modernism's search for purity of means, anti-illusionism, unity, and autonomy of form. This book - the first comprehensive study of collage and its relation to modernism - challenges this view. Christine Poggi argues that collage did not become a new language of modernism but a new language with which to critique modernism. She focuses on the ways Cubist collage - and the Futurist multimedia work that was inspired by it - undermined prevailing notions of material and stylistic unity, subverted the role of the frame and pictorial ground, and brought the languages of high and low culture into a new relationship of exchange.

The Fear of French Negroes Sara E. Johnson 2012-10-10 The Fear of French Negroes is an interdisciplinary study that explores how people of African descent responded to the collapse and reconsolidation of colonial life in the aftermath of the Haitian Revolution (1791-1845). Using visual culture, popular music and dance, periodical literature, historical memoirs, and state papers, Sara E. Johnson examines the migration of people, ideas, and practices across imperial boundaries. Building on previous scholarship on black internationalism, she traces expressions of both aesthetic and experiential transcolonial black politics across the Caribbean world, including Hispaniola, Louisiana and the Gulf South, Jamaica, and Cuba. Johnson examines the lives and work of figures as diverse as armed black soldiers and privateers, female performers, and newspaper editors to argue for the existence of "competing inter-Americanisms" as she uncovers the struggle for unity amidst the realities of class, territorial, and linguistic diversity. These stories move beyond a consideration of the well-documented anxiety insurgent blacks occasioned in slaveholding systems to refocus attention on the wide variety of strategic alliances they generated in their quests for freedom, equality and profit.

A History of Video Art Chris Meigh-Andrews 2013-11-07 A History of Video Art is a revised and expanded edition of the 2006 original, which extends the scope of the first edition, incorporating a wider range of artists and works from across the globe and explores and examines developments in the genre of artists' video from the mid 1990s up to the present day. In addition, the new edition expands and updates the discussion of theoretical concepts and ideas which underpin contemporary artists' video. Tracking the changing forms of video art in relation to the revolution in electronic and digital imaging that has taken place during the last 50 years, A History of Video Art orients video art in the wider art historical context, with particular reference to the shift from the structuralism of the late 1960s and early 1970s to the post-modernist concerns of the 1980s and early 1990s. The new edition also explores the implications of the internationalisation of artists' video in the period leading up to the new millennium and its concerns and

preoccupations including post-colonialism, the post-medium condition and the impact and influence of the internet.

Theory of Film Siegfried Kracauer 2017-08-07 It would be fair to advise the reader at the outset that this book does not include all the things he may be looking for. It neglects the animated cartoon and avoids broaching problems of color. Certain recent developments and extensions of the medium are left undiscussed also. There are doubtless still other omissions; indeed, some of the topics which loom large in most writings on film have either been relegated to the background or completely dropped. But the reader himself will not be slow in discovering these gaps, if gaps they are. What then does the book deal with? Its exclusive concern is the normal black-and-white film, as it grows out of photography. The reason I confine myself to it is rather obvious: Film being a very complex medium, the best method of getting at its core is to disregard, at least temporarily, its less essential ingredients and varieties. I have adopted throughout this sensible procedure. And by the way, is the ground thus covered really so limited? From Lumiere's first film strips to Fellini's *Cabiria*, from *The Birth of a Nation* to *Aparajito*, and from *Potem-kin* to *Paisan*, practically all important cinematic statements have been made in black and white and within the traditional format.

Twelve Years a Slave Solomon Northup 2021-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

The Bonnot Gang Richard Parry 1987 This is the story of the infamous Bonnot Gang: the most notorious French anarchists ever, and the inventors of the motorized get-away. It is the story of how the anarchist taste for illegality developed into illegalism - the theory that theft is liberating. And how a number of young anarchists met in Paris in the years before the first world war, determined to live their lives to the full, regardless of the inevitable - and tragic - consequences. A gripping historical thriller, Parry narrates their lives and background - a Paris of riots, strikes and savage repression. A stronghold of foreign exiles and home-grown revolutionaries. Victor Serge and 'l'anarchie' the individualist weekly. Their robberies, daring and violent, would give them a lasting notoriety in France. Their deaths, as spectacular as their lives, would make them a legend amongst revolutionaries the world over. Not only that, but they were all vegetarians, who drank only water!

Tamara de Lempicka Gioia Mori 2011 The definitive catalog on the first woman artist to become a glamorous star. A cosmopolitan painter and icon of the art deco movement, Tamara de Lempicka created images that became the symbols of an era, the "crazy" 1920s and 1930s. She was possibly that period's most brilliant exponent. Driven by an iron will to achieve, Tamara not only cultivated her artistic talent, she also consciously built an image, that of an elegant and sophisticated woman, the extravagant protagonist of the European high life. Published to mark the exhibition in Rome from March 11-July 3, 2011, the monograph traces the entire career of this fascinating Polish artist who lived in Europe, the United States, and Mexico and catalogs the sum of her works. Through scrupulous scientific analysis of 120 paintings and works on paper, the publication recreates the artistic atmosphere of the time, suggesting unique parallels and comparisons with contemporary works. It also offers the reader a cross section of the artist's life, which was filled with glamour but at the same time marked by the great and terrible historic events of the twentieth century.

Capital Letters Ève Morisi 2020-03-15 *Capital Letters* sheds new light on how literature has dealt with society's most violent legal institution, the death penalty. It investigates this question through the works of three major French authors with markedly distinct political convictions and literary styles: Victor Hugo, Charles Baudelaire, and Albert Camus. Working at the intersection of poetics, ethics, and law, Ève Morisi uncovers an unexpected transhistorical dialogue on both the modern death penalty and the ends and means of literature after the French Revolution. Through close textual analysis, careful contextualization, and the critique of violence forged by Giorgio Agamben, Michel Foucault, and René Girard, Morisi reveals that, despite their differences, Hugo, Baudelaire, and Camus converged in questioning France's humanitarian redefinition of capital punishment dating from the late eighteenth century. Conversely, capital justice led all three writers to interrogate the functions, tools, and limits of their art. *Capital Letters* shows that the key modern debate on the political and moral responsibility, or autonomy, of literature crystallizes around the death penalty in works whose form disturbs the commonly accepted divide between aestheticism and engagement.

The Culture of Japanese Fascism Alan Tansman 2010-07-01 This bold collection of essays demonstrates the necessity of understanding fascism in cultural terms rather than only or even primarily in terms of political structures and events. Contributors from history, literature, film, art history, and anthropology describe a culture of fascism in Japan in the decades preceding the end of the Asia-Pacific War. In so doing, they challenge past scholarship, which has generally rejected descriptions of pre-1945 Japan as fascist. The contributors explain how a fascist ideology was diffused throughout Japanese culture via literature, popular culture, film, design, and everyday discourse. Alan Tansman's introduction places the essays in historical context and situates them in relation to previous scholarly inquiries into the existence of fascism in Japan. Several contributors examine how fascism was understood in the 1930s by, for example, influential theorists, an antifascist literary group, and leading intellectuals responding to capitalist modernization. Others explore the idea that fascism's solution to alienation and exploitation lay in efforts to beautify work, the workplace, and everyday life. Still others analyze the realization of and limits to fascist aesthetics in film, memorial design, architecture, animal imagery, a military museum, and a national exposition. Contributors also assess both manifestations of and resistance to fascist ideology in the work of renowned authors including the Nobel-prize-winning novelist and short-story writer Kawabata Yasunari

and the mystery writers Edogawa Ranpo and Hamao Shirō. In the work of these final two, the tropes of sexual perversity and paranoia open a new perspective on fascist culture. This volume makes Japanese fascism available as a critical point of comparison for scholars of fascism worldwide. The concluding essay models such work by comparing Spanish and Japanese fascisms. Sherazade Leila Sebbar 2014-06-19 SHERAZADE, AGED 17, DARK CURLY HAIR, GREEN EYES, MISSING Sherazade is seventeen, Algerian, and a "runaway in Paris. Although she has no morals, no scruples, no politics, no apparent emotional depth and little education, Sherazade remains curiously unattached but innocent in the city's underworld of drop-outs, outcasts, political activists and junkies. With honesty and lyricism this novel exposes the various issues that affect a young woman living in a city which is both sophisticated and provincial, liberal and conservative, tolerant and prejudiced. In Paris, Sherazade is pursued by Julian, the son of French-Algerians who is an ardent Arabist. Pigeon-holed by Julian into the "traditional exotic mold, Sherazade endeavors to create her own definition of Algerian "femininity and in doing so breaks down conventions and stereotypes. It is Julian's obsession with her that spurs her on to self-discovery and to make decisions about her future. Sherazade is about a young woman haunted by her Algerian past. It is a powerful account of a person who searches for her true identity but is caught between worlds—Africa and Europe, her parents' and her own, colony and capital. Ultimately it is an "account of possession, identity and the realities of urban life today and what can happen when society fails to acknowledge its younger generations.

The Truth in Painting Jacques Derrida 2020-10-28 "The four essays in this volume constitute Derrida's most explicit and sustained reflection on the art work as pictorial artifact, a reflection partly by way of philosophical aesthetics (Kant, Heidegger), partly by way of a commentary on art works and art scholarship (Van Gogh, Adami, Titus-Carmel). The illustrations are excellent, and the translators, who clearly see their work as both a rendering and a transformation, add yet another dimension to this richly layered composition. Indispensable to collections emphasizing art criticism and aesthetics."—Alexander Gelley, *Library Journal*

Broken Music Sting 2009-10-14 "Sting's gift for prose and reverence for language, nearly the equal of his musical gifts, shine on every page. Even when *Broken Music* addresses the quixotic life of an aspiring rock & roller, it reads like literature from a more rarified time when adults didn't condescend to the vulgarities of pop culture." —*Rolling Stone* Having been a songwriter most of my life, condensing my ideas and emotions into short rhyming couplets and setting them to music, I had never really considered writing a book. But upon arriving at the reflective age of fifty, I found myself drawn, for the first time, to write long passages that were as stimulating and intriguing to me as any songwriting I had ever done. And so *Broken Music* began to take shape. It is a book about the early part of my life, from childhood through adolescence, right up to the eve of my success with the Police. It is a story very few people know. I had no interest in writing a traditional autobiographical recitation of everything that's ever happened to me. Instead I found myself drawn to exploring specific moments, certain people and relationships, and

particular events which still resonate powerfully for me as I try to understand the child I was, and the man I became.
