Washback in Language Testing Liying Cheng 2004-02-04 Washback refers to the influence of language testing on teaching and learning. This volume, at the important intersection of language testing and teaching practices, presents theoretical, methodological, and practical guidance for current and future washback studies. In the field of language testing, researchers' major interest has traditionally been focused on issues and solving problems inherent in tests in order to increase their reliability and validity. However, the washback effect goes well beyond the test itself to include factors, such as curriculum, teacher and learner behaviors inside and outside the classroom, their perceptions of the test, and how test scores are used. Only recently have researchers started to empirically investigate the phenomenon of washback. This volume of such research serves two essential purposes by: *providing an overview of the complexity of washback and the various contextual factors entangled within testing, teaching, and learning; and *presenting empirical studies from around the world that offer insights into the effects of washback in specific educational contexts and models of research on which future studies can be based. The extensive use of test scores for various educational and social purposes in society nowadays makes the washback effect a high-interest phenomenon in the day-to-day educational activities of teachers, researchers, program coordinators/directors, policymakers, and others in the field of education. *Washback in Language Testing: Research Contexts and Methods* is a valuable resource for those who are interested in the application of findings to actual teaching and learning situations or conduct washback research in their own contexts, including educational and psychological testing experts, as well as alternative assessment people in all fields, and for policy- and decision-makers in educational and testing organizations.

Passport to Academic Presentations Douglas Bell 2008 Passport to Academic Presentations Oral presentations have become an increasingly important feature of Higher Education; developing abilities in this area can be crucial for students' academic success. Passport to Academic Presentations aims to demystify the entire oral presentation process by examining each of the different stages in turn. No prior knowledge is assumed, and students are gradually introduced to a set of core language and skills, allowing them to tackle oral presentations in an academic context with increased confidence and fluency. A key feature of the course is its focus on transferability; students are encouraged to apply the material to their own specific subject areas throughout. Each unit also contains advice on pronunciation and tips for improving oral presentation delivery. The course comes with a CD, and a DVD showing the same presentations can be purchased separately. Key Features Audio

CDs for further self-study and listening practice
Tips for successful presentations
Step-by-step coverage of the oral presentation process
Focus on key language and pronunciation areas
DVD includes extended learning through filmed presentations
