The Gooseboy A. L. Barker 2011-04-18 First published in 1987, *The Gooseboy* is a tale that is both elegant and grotesque, funny and appalling. Doug and Dulcie Bysshe are twins. Doug - or Bysshe - is now a successful film star living in the south of France and contemplating a new part as a saintly doctor in an African leper colony. Dulcie, busy and energetic, is fighting to retrieve her husband, the mournful and ineffective Pike, who has absconded to Nice with the adolescent Cherrimay Pugh. At the centre of events, is the Gooseboy, a creature with a double face, half faun, half deformed horror... The Gooseboy questions the relations between flesh and spirit, the ridiculous and the terrible. A. L. Barker watches shrewdly and judges from a distance, her pithy and particular prose shining through. 'She writes with a precision and an economy of words which had me gasping.' Auberon Waugh

Daddy's Wings Milena Agus 2011 In Milena Agus' radiant Sardinia, Madame owns a piece of land by the

sea which property developers are after. But Madame doesn't want to sell and therefore prevents her neighbours and other locals from cashing in. Even so, they can't help loving her for her generous and candid way of being. A fourteen year old girl tells the story through an imagination that shapes reality: her missing father appears in the slight movements of the air (Daddy's wings), and sharp scenes of hardcore sex seem to take place in Madame's house at night. It is a comic and truculent story, fairytale-like and true – as are all Milena Agus' works. Most of all, it is the story of love affairs that go somewhat awry but still manage to go on, which is the most important thing.

"The Turk and Islam in the Western Eye, 1450?750 " JamesG. Harper 2017-07-05 Unprecedented in its range - extending from Venice to the New World and from the Holy Roman Empire to the Ottoman Empire - this collection probes the place that the Ottoman Turks occupied in the Western imaginaire, and the ways in which this occupation expressed itself in the visual arts. Individual essays in this volume examine specific images or groups of images, problematizing the 'truths' they present and analyzing the contexts that shape the presentation of Ottoman or Islamic subject matter in European art. The contributors trace the transmission of early modern images and representations across national boundaries and across

centuries to show how, through processes of translation that often involved multiple stages, the figure of the Turk (and by extension that of the Muslim) underwent a multiplicity of interpretations that reflect and reveal Western needs, anxieties and agendas. The essays reveal how anachronisms and inaccuracies mingled with careful detail to produce a "Turk," a figure which became a presence to reckon with in painting, sculpture, tapestry and printmaking.

On Your Bicycle Jim McGurn 2000-06-01 Previously published in 1987 by John Murray, this is an updated edition with many new illustrations. It tells the colourful story of cycling: from dandies on hobby-horses to the present day. This book shows how the status of cycling continually bobbed up and down the social scale. *On Your Bicycle* will appeal to anyone interested in people and their ways, rather than pure technology: although technological developments and the social role of cycling are closely linked. It's a story of loud club-men on penny farthings, of aristocracy during the cycling boom of the 1890s, and of what happened when lower prices put bicycles into the hands of the working classes.

Femme Fatale James Ursini 2009-10-01 (Limelight). From the femme fatale of the early cinema to her post-feminist rebirth, this lavishly illustrated book and comprehensive guide traces the history of these dangerously alluring, manipulative, and desperate lethal ladies. *Femme Fatale* surveys the history of the femme fatale in world cinema, with more than 300 photographs testifying to the power of these mysterious women. The story continues with the noir 1940s, when the femme fatale became truly lethal including actresses like Ava Gardner, Rita Hayworth, and Barbara Stanwyck. Northern Sun, Southern Moon Mike Heffley 2005-01-01 Until the 1960s American jazz, for all its improvisational and rhythmic brilliance, remained rooted in formal Western conventions originating in ancient Greece and early Christian plainchant. At the same time European jazz continued to follow the American model. When the creators of so-called free jazz--Ornette Coleman, Cecil Taylor, John Coltrane, Albert Ayler, Sun Ra, Anthony Braxton, and others--liberated American jazz from its Western ties, European musicians found their own distinctive voices and created a vital, innovative, and independent jazz culture. Northern Sun, Southern Moon examines this pan-Eurasian musical revolution. Author and

musician Mike Heffley charts its development in Scandinavia, Holland, England, France, Italy, and especially (former East and West) Germany. He then follows its spread to former Eastern-bloc countries. Heffley brings to life an evolving musical phenomenon, situating European jazz in its historical, social, political, and cultural contexts and adding valuable material to the still-scant scholarship on improvisation. He reveals a Eurasian genealogy worthy of jazz's well-established African and American pedigrees and proposes startling new implications for the histories of both Western music and jazz.
