Company Laws of the EU Andrea Vicari 2020 "This book aims to fill a gap in the process of confrontation between the disciplines, case laws and literature of the central EU member states. In particular it aims to address the difficulty of finding sources for scholars and professionals explaining the rules and guidelines of corporate law in the different European states. The main features of the discipline of Corporate Law in Germany, England, France, Italy, Spain, Poland, Romania and the Netherlands are illustrated. The objective of the work is not only to describe the main features of the

discipline, but especially to highlight the most important critical profiles, and particularly those under the scrutiny of the case law and most studied (as problematic) by the doctrine."--Bloomsbury Publishing.

Legal Methods Thomas M J Möllers 2020-03-05 This work provides lawyers with more than 100 legal interpretation figures that are used by lawyers worldwide to justify their legal decisions. The book puts lawyers in a position, to develop - step by step - a solution for a hitherto unsolved legal problem in such a way that it convinces the opposing party of the content of his/her solution. The book covers - legal sources - classic and modern figures of interpretation - the challenging concretisation and construction of law - influence of the constitution and European law as a higher-ranking law - determination of the limits of permissible further development of the law - and, very relevant for practice, the hermeneutics of facts The book benefits from a combination of classic and modern methodology, a lively presentation with numerous examples from literature and jurisprudence and coverage of several cases for in-depth reflection. The work will be a significant tool for all those interested in the basics of law.

International Labour Law Under the Rome Conventions Olaf Deinert 2017-01-26 International Labour Law under the Rome Conventions offers a full academic examination of the conflict-of-laws questions in Labour Law, as far as they are standardised in Europe (Rome I and for industrial action Rome II). It also deals with the unregulated (or only partial regulated) field of the law referring to the applicable employment law. This book answers detailed conflict-of-laws questions of the international Labour Law, including: classification Law governing formal validity; connection factors for capacity and contractual capability; connection factors for the employment contract; special connecting rule for overriding mandatory provisions; creation of the contract; subject matter of the contract; termination of the contract; post-termination effects of the employment contract; and industrial action. Visual Cultures of Foundling Care in Renaissance Italy Diana Bullen Presciutti 2017-07-05 The social problem of infant abandonment captured the public's imagination in Italy during the fifteenth century, a critical period of innovation and development in charitable discourses. As charity toward foundlings became a political priority, the patrons and supporters of foundling hospitals turned to visual culture to help them make their charitable work understandable to a wide audience. Focusing on four institutions in central Italy that possess significant surviving visual and archival material, *Visual Cultures of Foundling Care in Renaissance Italy* examines the discursive processes through which foundling care was identified, conceptualized, and promoted. The first book to consider the visual culture of foundling hospitals in Renaissance Italy, this study looks beyond the textual evidence to demonstrate that the institutional identities of foundling hospitals were articulated by means of a wide variety of visual forms, including book illumination, altarpieces, fresco cycles, institutional insignia, processional standards, prints, and reliquaries. The author draws on fields as diverse as art history, childhood studies, the history of charity, Renaissance studies, gender studies, sociology, and the history of religion to

elucidate the pivotal role played by visual culture in framing and promoting the charitable succor of foundlings.

eIDAS-Regulation Alessio Zaccaria 2020-03-05 This book provides rule-by-rule commentaries on the Regulation (EU) No 910/2014 of the European Parliament and of the Council of 23 July 2014 on electronic identification and trust services for electronic transactions in the internal market. The eIDAS regulation aims at providing a framework for secure and trustworthy electronic transactions in the EU. This volume offers comprehensive comments on all provisions of this regulation containing references to European scholarly writing. As a cross-border project this book is written by an international group of contributors and provides analysis from different European countries. In order to assess the arising legal issues the contributions to this book reflect both aspects of the eIDAS regulation: On one hand the technological-neutral approach intended by this regulation, but also the nevertheless technically determined definitions and provisions of this very specific field of law.

Experiments in Ethics Kwame Anthony Appiah 2010-03-30 In the past few decades, scientists of human nature—including experimental and cognitive psychologists, neuroscientists, evolutionary theorists, and behavioral economists—have explored the way we arrive at moral judgments. They have called into question commonplaces about character and offered troubling explanations for various moral intuitions. Research like this may help explain what, in fact, we do and feel. But can it tell us what we ought to do or feel? In *Experiments in Ethics*, the philosopher Kwame Anthony Appiah explores how the new empirical moral psychology relates to the age-old project of philosophical ethics. Some moral theorists hold that the realm of morality must be autonomous of the sciences; others maintain that science undermines the authority of moral reasons. Appiah elaborates a vision of naturalism that resists both temptations. He traces an intellectual genealogy of the burgeoning discipline of "experimental philosophy," provides a balanced, lucid account of the work being done in this controversial and increasingly influential field, and offers a fresh way of thinking about ethics in the classical tradition. Appiah urges that the relation between empirical research and morality, now so often antagonistic, should be seen in terms of dialogue, not contest. And he shows how experimental philosophy, far from being something new, is actually as old as philosophy itself. Beyond illuminating debates about the connection between psychology and ethics, intuition and theory, his book helps us to rethink the very nature of the philosophical enterprise.

Finding Dr. Livingstone Mathilde Leduc-Grimaldi 2020-12-22 This eye-opening perspective on Stanley's expedition reveals new details about the Victorian explorer and his African crew on the brink of the colonial Scramble for Africa. In 1871, Welsh American journalist Henry M. Stanley traveled to Zanzibar in search of the "missing" Scottish explorer and missionary David Livingstone. A year later, Stanley emerged to announce that he had "found" and met with Livingstone on Lake Tanganyika. His alleged utterance there, "Dr. Livingstone, I presume," was one of the most famous phrases of the nineteenth century, and Stanley's book, *How I Found Livingstone*, became an international bestseller.

In this fascinating volume Mathilde Leduc-Grimaldi and James L. Newman transcribe and annotate the entirety of Stanley's documentation, making available for the first time in print a broader narrative of Stanley's journey that includes never-before-seen primary source documents—worker contracts, vernacular plant names, maps, ruminations on life, lines of poetry, bills of lading—all scribbled in his field notebooks. Finding Dr. Livingstone is a crucial resource for those interested in exploration and colonization in the Victorian era, the scientific knowledge of the time, and the peoples and conditions of Tanzania prior to its colonization by Germany.

Efficiency Instead of Justice? Klaus Mathis 2009-03-18 Economic analysis of law is an interesting and challenging attempt to employ the concepts and reasoning methods of modern economic theory so as to gain a deeper understanding of legal problems. According to Richard A. Posner it is the role of the law to encourage market competition and, where the market fails because transaction costs are too high, to simulate the result of competitive markets. This would maximize economic efficiency and social wealth. In this work, the lawyer and economist Klaus Mathis critically appraises Posner's normative justification of the efficiency paradigm from the perspective of the philosophy of law. Posner acknowledges the influences of Adam Smith and Jeremy Bentham, whom he views as the founders of normative economics. He subscribes to Smith's faith in the market as an ideal allocation model, and to Bentham's ethical consequentialism. Finally, aligning himself with John Rawls's contract theory, he seeks to legitimize his concept of wealth maximization with a consensus theory approach. In his interdisciplinary study, the author points out the possibilities as well as the limits of economic analysis of law. It provides a method of analysing the law which, while very helpful, is also rather specific. The efficiency arguments therefore need to be incorporated into a process for resolving value conflicts. In a democracy this must take place within the political decision-making process. In this clearly written work, Klaus Mathis succeeds in making even non-economists more aware of the economic aspects of the law.

European Tort Law 2002 Helmut Koziol 2003-10-09 The European Tort Law Yearbook provides a comprehensive overview of the latest developments in the law of torts in the EU Member States (except Luxembourg), the Czech Republic, Hungary, Poland, Slovenia and Switzerland as well as in the field of EU law. Additionally, with Australia and Israel, two non-European countries are included. In conclusion, a comparative report reviews the essential aspects of all reports. The reports are written by scholars from the respective jurisdictions and, focusing on the year 2002, they include important court decisions, critical remarks on these decisions, a presentation of new legislation and a literature overview. In addition to the national reports, essays on key topics in the field of tort law are included. Moreover, a draft of the "Principles of European Tort Law", developed by the European Group on Tort Law, will be published for the first time in this Yearbook.

Agreement on the European Economic Area Finn Arnesen 2018-02-08 The provisions of the Agreement on the European Economic Area (EEA) determine the relations of the EFTA countries Norway, Iceland and Liechtenstein with the EU and its Member States. On its basis, these three countries participate extensively in the internal market. The EEA is also discussed as a possible model for relations between the EU and the United Kingdom after Brexit. The new commentary, article by article, explores the importance of the legal practice agreement. It incorporates the extensive annexes and protocols to the agreement, which unlocks key secondary EEA law and establishes links with EU law. The current state of EEA law in Norway, Iceland and Liechtenstein is summarized by legislation and case law. The focus of the presentations lies in the commentary of the EEA regulations on the free

movement of goods, the movement of persons, services and capital, transport policy and competition law. The tasks and procedures of the two EEA bodies European Surveillance Authority and EFTA Court, which are used for monitoring and dispute resolution, are explained by commenting on the EEA Regulations and the supplementary agreement concluded between Norway, Iceland and Liechtenstein. The work offers - A comprehensive overview of the special situation in Switzerland - Cross-sectional views on the effects of EEA law in Norway, Iceland and Liechtenstein and on the effects of EEA law in the EU - Important references to the international agreements accompanying the EEA - A comprehensive analysis of the changed legal environment, including the Treaty of Lisbon and other European Treaties. In addition, the commentary provides information on the current state of EEA law in the light of the case law of the EFTA Court and the legislation and case law of the three countries Norway, Iceland and Liechtenstein. For ease of use, the otherwise not easily accessible annexes and protocols, where relevant, and the supplementary agreements are printed.
