Critical Care Nursing Suzanne Bench 2011-02-10 Critical Care Nursing: Learning from Practice takes a unique approach to critical care. Based around case scenarios that have the patient as the central focus, each chapter is constructed around an example of a critically ill patient with specific care needs. The chapters then go on to critically explore the knowledge and skills required to deliver expert care. This book looks at a range of critical care scenarios, including: The patient with acute lung injury The patient with fever The patient with an acute kidney injury The patient with long term needs The patient with increased intra-abdominal pressure The Patient following cardiac surgery Each chapter develops knowledge of the related physiology/pathophysiology, appropriate nursing interventions that are research/evidence based, technical skills, data interpretation and critical appraisal skills, enabling the reader to apply fundamental knowledge to more complex patient problems. Critical Care Nursing: Learning from Practice is an essential resource for practitioners faced with complex and challenging patient cases.

Crater Trueblood and the Lunar Rescue Company Homer Hickam 2014-06-17 “Hickam has a wild imagination and a keen eye for the science behind the fiction.” —JAVIER GRILLO-MARXUACH, writer & producer on *Lost* and *Helix*, creator of *The Middleman* Crater Trueblood has to rescue his ex-girlfriend . . . and the entire human race. Maria Medaris is the 21-year-old matriarch of the most powerful family on the moon—gorgeous, powerful, and high-maintenance. When she is kidnapped by green-lipped, gene-splicing scientists, Maria’s only hope turns out to be the very man she once spurned: Crater Trueblood. Crater and the Lunar Rescue Company must rescue Maria before she joins forces with the lunatics who have taken her hostage and aim to make her queen. Turns out more than Maria is at stake: the planet Earth, majestically rising over the lunar horizon, is in the crosshairs of an asteroid engineered by Maria’s abductors. If Crater can’t stop it, humanity on Earth will be destroyed. The fate of two worlds hangs in the balance . . . and the clock is ticking. “Hickam again displays a knack for suspenseful scenes out in the ‘big suck’ of space . . .” —KIRKUS Reviews “An exciting romp through a surprisingly realistic future.” —JASPER T. SCOTT, author of the *Dark Space* series

way for clinicians to embrace this groundbreaking theory in their own work. Polyvagal Theory in Therapy offers therapists an integrated approach to adding a polyvagal foundation to their work with clients. With clear explanations of the organizing principles of Polyvagal Theory, this complex theory is translated into clinician and client-friendly language. Using a unique autonomic mapping process along with worksheets designed to effectively track autonomic response patterns, this book presents practical ways to work with clients' experiences of connection. Through exercises that have been specifically created to engage the regulating capacities of the ventral vagal system, therapists are given tools to help clients reshape their autonomic nervous systems. The book is essential reading for therapists who work with trauma and those who seek an easy and accessible way of understanding the significance that Polyvagal Theory has to clinical work. The books are packaged as a shrink-wrapped set.

God Is Still Talking James E. Hamer 2009-09 Is God still talking? This book makes the question a statement. God is still talking. The real question is: Are you listening? God is still talking to you. Did God have anything more to say after the completion of Scripture, or has he retreated into silence? In *God Is Still Talking*, Dr. James E. Hamer explores these and other questions pertaining to a daily relationship with Christ. He takes the reader on a journey to the greater dimension of living in the Spirit where there is daily access to the presence of God. It is an invisible reality, there to be explored and experienced rather than argued and analyzed, if believers want to hear God talking. Dr. Hamer sees a capacity for more in our personal relationships with Christ "sacred places where God is still speaking. How is it possible to have a personal relationship with someone who is invisible? *God Is Still Talking* will help you recognize the various ways that God is communicating his direction, insights, and truth to your life. What is God saying to you?"

Critical Encounters in Secondary English Deborah Appleman 2015-04-28 Because of the emphasis placed on nonfiction and informational texts by the Common Core State Standards, literature teachers all over the country are re-evaluating their curriculum and looking for thoughtful ways to incorporate nonfiction into their courses. They are also rethinking their pedagogy as they consider ways to approach texts that are outside the usual fare of secondary literature classrooms. The Third Edition of *Critical Encounters in Secondary English* provides an integrated approach to incorporating nonfiction and informational texts into the literature classroom. Grounded in solid theory with new field-tested classroom activities, this new edition shows teachers how to adapt practices that have always defined good pedagogy to the new generation of standards for literature instruction. New for the Third Edition: A new preface and new introduction that discusses the CCSS and their implications for literature instruction. Lists of nonfiction texts at the end of each chapter related to the critical lens described in that chapter. A new chapter on new historicism, a critical lens uniquely suited to interpreting nonfiction and informational sources. New classroom activities created and field-tested specifically for use with nonfiction texts. Additional activities that demonstrate how informational texts can be used in conjunction with traditional literary texts. "What a smart and useful book!" —Mike Rose, University of California, Los Angeles "[This book] has enriched my understanding both of teaching literature and of how I read. I know of no other book quite like it." —Michael W. Smith, Temple University, College of Education "I have recommended *Critical Encounters* to every group of preservice and practicing teachers that I have taught or worked with and I will continue to do so." —Ernest Morrell, director of the Institute for Urban and Minority Education (IUME), Teachers College, Columbia University

This volume presents contributions of thirteen internationally renowned scholars who deal with various aspects of these complex issues. The contributions were presented and discussed during the international conference: *God, Time, Infinity* held in Warsaw, September 22—24, 2015.

Criminal Law Markus Dirk Dubber 2002 The Model Penal Code has been called the principal text in criminal law teaching. It is an ambitious, and influential, attempt to work out the principles of American criminal law in a systematic way. By highlighting the Code's conceptual structure, this study aid helps students to navigate the Code's complex provisions and helps teachers unlock its full pedagogic potential, one all too easily obscured by a fragmented discussion of Code sections dealing with a variety of topics. The appendix includes the text of the Model Penal Code, parts I & II.

Finding Sisu Katja Pantzar 2019-04-04 Finnish-born writer Katja Pantzar was raised and educated in Canada, where the consumerist and materially obsessed culture left her feeling empty and unhappy. When she received treatment for depression in her mid-20s, the doctor treating her simply prescribed medication and sleeping pills, no thought given to her lifestyle. After moving to Finland, Katja discovered sisu: the Finnish approach to well being defined by a special kind of resilience, grit and courage. She embraced this way of living and experienced a dramatic turnaround in her health and happiness. Simple, functional exercise (as simple as riding her bike to work), the Nordic diet, spending time in nature and water together with a more courageous outlook, all served to transform Pantzar's life: her anxieties, fatigue and pain left behind in the sea. In *Finding Sisu*, Pantzar offers an honest (no place is perfect - Finland is not an exception) and uplifting account of her physical and psychological health transformation from a slightly lethargic depressive into an energetic optimist. She examines the link between sisu and the Nordic reputation for excellent wellbeing and overall life satisfaction, and looks at the ways in which we, too, can apply sisu to our lives - wherever we may be. *Finding Sisu* is a personal but also practical approach to the power of this 500-year-old philosophy and how it can help us all to lead healthier, happier - and braver lives.

Critical Terms for the Study of Gender Catharine R. Stimpson 2014-07-11 "Gender systems pervade and regulate human lives—in law courts and operating rooms, ballparks and poker clubs, hair-dressing salons and kitchens, classrooms and playgroups. . . . Exactly how gender works varies from culture to culture, and from historical period to historical period, but gender is very rarely not at work. Nor does gender operate in isolation. It is linked to other social structures and sources of identity." So write women's studies pioneer Catharine R. Stimpson and anthropologist Gilbert Herdt in their introduction to *Critical Terms for the Study of Gender*, laying out the wide-ranging nature of this interdisciplinary and rapidly changing field. The sixth in the series of "Critical Terms" books, this volume provides an indispensable introduction to the study of gender through an exploration of key terms that are a part of everyday discourse in this vital subject. Following Stimpson and Herdt's careful account of the evolution of gender studies and its relation to women's and sexuality studies, the twenty-one essays here cast an appropriately broad net, spanning the study of gender and sexuality across the humanities and social sciences. Written by a distinguished group of scholars, each

essay presents students with a history of a given term—from bodies to utopia—and explains the conceptual baggage it carries and the kinds of critical work it can be made to do. The contributors offer incisive discussions of topics ranging from desire, identity, justice, and kinship to love, race, and religion that suggest new directions for the understanding of gender studies. The result is an essential reference addressed to students studying gender in very different disciplinary contexts.

Critical Mass Steve Martini 1999-12-01 Jocelyn "Joss" Cole, a burned-out public defender from L.A., has opted for a quieter life in the San Juan Islands of Washington State. Joss has no significant clients other than a group of commercial fisherman suffering from a strange and serious illness, a condition that doctors cannot diagnose, and which Joss believes has an industrial cause. Then into her office comes Dean Belden, a well-heeled client in search of a lawyer to help him set up a business in the islands. Within days Belden is subpoenaed to appear before a federal grand jury. Less than an hour after testifying, and before Joss can discover what happened in the secrecy of the grand jury room, Belden dies in a fiery explosion of his float plane on Seattle's Lake Union. Gideon Van Ry is a nuclear fission expert and a scholar in residence at the Center for Nonproliferation Studies in Monterey, California. One of his duties is to update the Center's database, an extensive catalog listing fissionable materials and weapons of mass destruction. Gideon is troubled by the apparent failure to account for two small tactical nuclear devices missing from a storage facility in the former Soviet Union. The two weapons were last seen in packing crates, to be shipped to an American company called Belden Electronics. Gideon has been unable to locate this firm, and now he is left with only one possible lead, the lawyer who incorporated the company—Jocelyn Cole. Fraught with tension and suspense, *Critical Mass* is Steve Martini at his electrifying best. It is the story of what can happen in a world where private hate and public apathy combine to uncork the sleeping but deadly genie of nuclear terror.

Crime Uncovered: Private Investigator Alistair Rolls 2016-04-01 The private investigator is one of the most enduring characters within crime fiction. From Dashiell Hammett's Sam Spade – the hard-boiled loner trawling the mean streets – to Agatha Christie's Captain Hastings – the genteel companion in greener surrounds – the P. I. has taken on any number of guises. In *Crime Uncovered: Private Investigator*, editors Alistair Rolls and Rachel Franks dive deep into crime literature and culture, challenging many of the assumptions we make about the hardy P. I. Assembling a cast of notable crime fiction experts, including Stephen Knight and Carolyn Beasley, the book covers characters from the whole world of international noir – Giorgio Scerbanenco's Duca Lambert, Léo Malet's Nestor Burma and many more. Including essays on the genealogy and emergence of the protagonist in nineteenth-century fiction; interviews with

crime writers Leigh Redhead, Nick Quantrill and Fernando Lalana; and analyses of the transatlantic exchanges that helped to develop public perception of a literary icon, *Crime Uncovered: Private Investigator* will redefine what we think we know about the figure of the P. I. Rolls and Franks have engaged here the tension between the popular and scholarly that is inherent in any critical examination of a literary type, along the way unraveling the mystery of the alluring, enigmatic private investigator. *Crime Uncovered: Private Investigator* will be a handy companion for any crime fiction fan.
