Adventures in Memory Hilde Østby 2018-10-09 A novelist and a neuroscientist uncover the secrets of human memory. What makes us remember? Why do we forget? And what, exactly, is a memory? With playfulness and intelligence, *Adventures in Memory* answers these questions and more, offering an illuminating look at one of our most fascinating faculties. The authors—two Norwegian sisters, one a neuropsychologist and the other an acclaimed writer—skillfully interweave history, research, and exceptional personal stories, taking readers on a captivating exploration of the evolving understanding of the science of memory from the Renaissance discovery of the hippocampus—named after the seahorse it resembles—up to the present day. Mixing metaphor with meta-analysis, they embark on an incredible journey: “diving for seahorses” for a memory experiment in Oslo fjord, racing taxis through London, and “time-traveling” to the future to reveal thought-provoking insights into remembering and forgetting. Along the way they interview experts of all stripes, from the world’s top neuroscientists to famous novelists, to help explain how memory works, why it sometimes fails, and what we can do to improve it. Filled with cutting-edge research and nimble storytelling, the result is a charming—and memorable—adventure through human memory.

When comedian Max Dickins was dumped by his girlfriend, he was faced not just with excruciating heartbreak but also with the cold realisation that he was bored, bored, bored. Desperate

to shake things up, he took a friend's advice and reluctantly bought a deal on Groupon. He then bought another. And another... until what started as a gateway to some new experiences snowballed into a limitless Narnia of discounted possibilities. Over the course of 18 months, Max did a new Groupon deal every week. He changed his name, became a Lord, wrestled alligators, moonlighted as a beekeeper, and even convinced Groupon to make him into a Groupon deal. (They sold 1,000.) Resuscitated by the oxygen of new experience, he emerged a better man. My Groupon Adventure is an uproarious and uplifting chronicle showing that it's possible to escape even the deepest of ruts if you just inject a bit of spontaneity into your life.

The Adventures of a Victorian Con Woman Mick Davis 2021-02-28 The story of Mrs. Gordon Baillie is stranger than anything to be met with in the field of fiction.' Mrs. Gordon Baillie, known throughout her life as Annie, was born in the direst poverty in the small Scottish fishing town of Peterhead in 1848. Illegitimate and illiterate, her beauty and intelligence nevertheless enabled her to overcome her circumstances and become a charming and wealthy socialite living a life of luxury while raising money for worthy causes and charitable works. Behind her supposed perfect and contented life, however, lay one of the most notorious and compulsive swindlers of the Victorian Age. Her fraudulent fundraising and larger-than-life schemes played out across four decades and

three continents, and involved land owners, crofters, aristocrats, politicians, bankers, socialist revolutionaries, operatic stars, and the cultural icons of the day. For most of her 'career' she kept one step ahead of the law and her nemesis, Inspector Henry Marshall of Scotland Yard, but finally becoming undone through her own compulsion for petty theft, despite her amassed fortune. During her life she used more than 40 aliases, produced four children and spent her way through millions in ill-gotten wealth. False Memories: Adventures of the Living Dali Gabrielle Mallarm 2005-03 Praise for False Memories: "It was rich. Like eating a large slice of cheese cake with blueberry topping. I finished reading it today-did what it was suppose to do-kept my interest, created a deeper mystery surrounding the artist, brought up controversy, cleared a few questions, and much, much more. This will be a book, not just for collectors, but for anyone wanting to know a little about the psyche of a painter. Brilliant!" -Lynn Vermillion False memories is a psychologist's term for memories cleverly and conveniently created by the subconscious mind. Since the theory of reincarnation is not widely accepted, we tend to explain away memories of previous lives as false memories. Contemporary American painter Anton Brzezinski would be the first to agree that his own memories of previous lives are productions of his prodigious imagination-but Brzezinski's memories of his own experiences need no exaggeration to make them fascinating. In False Memories: Adventures of the Living Dali, with the exception of the pseudo-author Gabrielle Mallarmé, people who appear as characters in this book are not fictitious. This is a work of fiction, but even the wildest incidents described here really occurred!
