Sometimes Reading is Hard Robin Bright 2021-08-24 When students say that reading is boring, difficult, overwhelming, or they cannot find a good book, it is almost impossible to sell them on the idea that reading is fun and worthwhile. Sometimes Reading is Hard shows teachers how to develop the skills students need to be successful and how to cultivate passionate, lifelong readers. An intriguing look at the science of reading, the book helps teachers understand the foundations upon which language and reading are learned so they

can make their own good decisions about programs, resources, strategies, and activities. Classroom vignettes, promising practices, and step-by-step activities illustrate how teachers can weave teaching the skills of decoding, vocabulary, comprehension, and fluency with real reasons to read. This hands-on teacher resource shows what a comprehensive, research-based reading program looks like in action.

Gordon Parks Carole Boston Weatherford 2015-02-01 His white teacher tells her all-black class, You'll all wind up porters and waiters. What did she know? Gordon Parks is most famous for being the first black director in Hollywood. But before he made movies and wrote books, he was a poor African American looking for work. When he bought a camera, his life changed forever. He taught himself how to take pictures and before long, people noticed. His success as a fashion photographer landed him a job working for the government. In Washington DC, Gordon went looking for a subject, but what he found was segregation. He and others were treated differently because of the color of their skin. Gordon wanted to take a stand against the racism he observed. With his camera in hand, he found a way. Told through lyrical verse and atmospheric art, this is the story of how, with a single photograph, a self-taught artist got America to take notice.

Teaching Physical Education Gary Stidder 2022-10-25 This book assesses the landscape of physical education today and the issues that shape it as a curriculum subject, particularly in the era of COVID-19. It explores the processes of transformation and change that follow government policy and considers what this means for physical education practitioners in schools. The book covers a wide range of important issues, across (micro-)political, social-cultural, historical and post-modernist categories. Bringing together current research with autobiographical and anecdotal reflections on the realities of PE teaching, it considers the significance of issues such as the emphasis on competitive sport in schools, the socialization of teachers, the influence of politics and policy on the classroom, colonization and decolonization of the curriculum, digital technologies, the health and well-being agenda and the impact of the COVID-19 pandemic. Offering a unique set of critical perspectives on physical education today, this book is essential reading for any physical education course, for all teacher training programmes with a PE track and for all practising teachers, teacher educators or policy-makers with a professional interest in PE.

Riley 2021-10 The Great British Curriculum Word Search For KS2 Kids (Book 2) is a carefully structured collection of word search puzzles designed to help develop the vocabulary and spelling skills of children in the 9 to 11 age range. 100 themed word searches explore the broad range of subjects and topics Primary Level KS2 kids are likely to encounter in Years 5 and 6 in England and Wales, P5 and P6 in Scotland, or Years 6 and 7 in Northern Ireland. Solutions are included and

all spellings are British English. Every full-page puzzle has an average of 17 words to find. Confident kids can work on their own. Less confident readers might need a little help to get started, but with the right encouragement, it shouldn't be long before they can fly solo! Year 5 children (6 NI) will discover many new words and exciting topics. Less confident readers may need some help and support to get started. This is a great opportunity for children to collaborate with a parent, grandparent, sibling, or friend. Year 6 children (7 NI) will be likely to have encountered more of the words and topics. This should provide an enjoyable recap, as well as further expanding their vocabulary. All the topics and words in these word searches are based on terminology that Year 5 and 6 children are likely to encounter during the teaching of the UK Government's KS2 National Curriculum. England, Wales, Northern Ireland, and Scotland each have slightly different approaches to primary education but all share similar goals and values. This collection of puzzles places a strong emphasis on English, particularly Grammar and Punctuation. In addition to developing vocabulary and spelling skills, these puzzles are intended to spark some curiosity about the topics. Be ready for plenty of questions! It might be time for you to brush up on your own word skills, or your kids are going to run rings around you! You might even learn a few things yourself about Nutrition, Ancient Rome, and Microorganisms! The final set of word searches, Tricky Words, includes the Department of Education's published list of words that children should be able to spell and use correctly by the time they have completed Year 6. This set of words is tricky because it includes many similar-sounding words and many words that are frequently misspelled. This book offers another fun and challenging way to help your child or grandchild to reach their full potential. Thank you for your interest. The Great British Curriculum Word Search For KS2 Kids (Book 1), for children ages 7 to 9, is also available from EJ Riley on Amazon.
