Writing Anchors Jan Wells 2004-01-01 This comprehensive handbook shows teachers how to build a foundation for writing with effective lessons that are the key to powerful writing workshops. Writing Anchors demonstrates how to create a supportive classroom, model writing experiences, and create enthusiasm for writing among students. The practical lessons explore the major elements of writing, with explicit strategies for teaching the major forms of writing: Informational writing—detailed descriptions of ways to take and organize notes, use text features, and create reports that have voice; Poetry and personal writing— language choice, imagery, using the senses, and finding the personal pulse of the

writer; Narrative—extends writing skills with lessons on story sequence, problem solving, and character development. The lessons form "metacognitive anchors" that build an understanding of the elements of powerful writing. Each lesson comes with an anchor cue card that prompts students to apply their growing understandings independently in writing workshops and in assessing their own writing. In addition, the book provides more than thirty effective tools that are ready to copy and use in the classroom—writing checklists, rubrics for assessment, graphic organizers, note-taking grids, semantic maps, story maps, tips for proofing, and student examples collected from grade 2–7 classrooms.

Radical Romantics Ford Talissa Ford 2016-07-07 Examines dissident conceptions of space in the British Romantic era
Radical Romantics is about utopias and failed utopias, about cities that are palimpsests, and about the unwieldy span of the ocean. From William Blake's visionary poetry to Lord Byron's Eastern romances, from prophetic pamphlets to travel narratives, texts of the Romantic era make use of imaginative spaces to reveal the contours and limits of territorial sovereignty. In doing so, they raise fundamental questions about our understanding of both territorial and imagined space. What are the means by which people can conceive of geographical space without resorting to the terms of nationalism? Is it possible to imagine a space beyond territory, as movement itself? How can we articulate the overlap between mapped and lived space? Key Features Engages with the critical frameworks of cultural geography, cartography, and the burgeoning field of oceanic studies Reformulates theories of colonization and empire in the Romantic period Puts canonical poetry in dialogue with travel tales and prophetic tracts

Discovering Voice Nancy Dean 2013 Lessons on diction, detail, figurative language, imagery, syntax, and tone help middle and early high school students understand the concept of voice in what they read and develop a strong, personal voice in their own writing. Each voice lesson takes only 10-20 minutes to complete and includes a quotation selected from a wide range of literature, two discussion questions, and an exercise that encourages students to practice what they have learned about the elements of voice. Discovering Voice also offers a collection of quotations students can use to create their own voice lessons. Discussion suggestions for each voice lesson and additional activities for teaching voice further promote critical analysis. Each of the seven packs on the elements of voice—diction, detail, figurative

language 1 (metaphors, similes, and personification), figurative language 2 (hyperboles, symbols, and irony), imagery, syntax, and tone--include an introduction, lessons with discussion questions and an exercise, "write-your-own" voice lessons, a list of additional activities for teaching voice, and discussion suggestions.

Ambition, Rank, and Poetry in 1590s England John Huntington 2001 "Ambition, Rank, and Poetry in 1590s England focuses on the early work of George Chapman and on the writings of others who shared his social agenda and his nonprivileged status, including Christopher Marlowe, Ben Jonson, and Edmund Spenser as well as neglected writers such as Matthew Roydon and Aemilia Lanyer. Rather than placing poetry in the service of traditional social purposes - pleasing a patron, wooing a woman, displaying one's courtly skill, teaching morality - these writers held up poetry as important for its own sake: an idea taken for granted in much modern aesthetics."--Jacket.

Goethe Nicholas Boyle 1992 The author of Faust, the best-selling sentimental novel The Sorrows of Young Werther, of exquisite lyric poetry (set to music by Schubert and Mozart), and of a bewildering variety of other plays, novels, poems, and treatises, Johann Wolfgang von Goethe also excelled as an administrator in the cabinet of Carl August, Duke of Saxe-Weimar. Considered by Nietzsche to have been 'not just a good and great man, but an entire culture', Goethe was as vital a part of late eighteenth- and early nineteenth-century German social and political life, as he was its cultural nucleus. However, as this perceptive biography shows, the originality of his art lay in his complex distance from his times.

Character, Narrator, and Simile in the Iliad Jonathan L. Ready 2011-04-11 Jonathan L. Ready offers the first comprehensive examination of Homer's similes in the Iliad as arenas of heroic competition. This study concentrates primarily on similes spoken by Homeric characters. The first to offer a sustained exploration of such similes, Ready shows how characters are made to contest through and over simile not only with one another but also with the narrator. Ready investigates the narrator's similes as well. He demonstrates that Homer amplifies the feat of a successful warrior by providing a competitive orientation to sequences of similes used to describe battles. He also offers a new interpretation of Homer's extended similes as a means for the poet to imagine his characters as competitors for his attention. Throughout this study, Ready makes innovative use of approaches from both Homeric studies and narratology that have not yet been applied to the analysis of Homer's similes.

The Columbia Granger's Dictionary of Poetry Quotations Edith P. Hazen 1992 Why do smokers claim that the first cigarette of the day is the best? What is the biological basis behind some heavy drinkers' belief that the "hair-of-the-dog" method alleviates the effects of a hangover? Why does marijuana seem to affect one's problem-solving capacity? Intoxicating Minds is, in the author's words, "a grand excavation of drug myth." Neither extolling nor condemning drug use, it is a story of scientific and artistic achievement, war and greed, empires and religions, and lessons for the future. Ciaran Regan looks at each class of drugs,

describing the historical evolution of their use, explaining how they work within the brain's neurophysiology, and outlining the basic pharmacology of those substances. From a consideration of the effect of stimulants, such as caffeine and nicotine, and the reasons and consequences of their sudden popularity in the seventeenth century, the book moves to a discussion of more modern stimulants, such as cocaine and ecstasy. In addition, Regan explains how we process memory, the nature of thought disorders, and therapies for treating depression and schizophrenia. Regan then considers psychedelic drugs and their perceived mystical properties and traces the history of placebos to ancient civilizations. Finally, *Intoxicating Minds* considers the physical consequences of our co-evolution with drugs -- how they have altered our very being -- and offers a glimpse of the brave new world of drug therapies.
