**Plato's 'Republic': An Introduction** Sean McAleer 2020-11-09 It is an excellent book – highly intelligent, interesting and original. Expressing high philosophy in a readable form without trivialising it is a very difficult task and McAleer manages the task admirably. Plato is, yet again, intensely topical in the chaotic and confused world in which we are now living. Philip Allott, Professor Emeritus of International Public Law at Cambridge University This book is a lucid and accessible companion to Plato's Republic, throwing light upon the text's arguments and main themes, placing them in the wider context of the text's structure. In its illumination of the philosophical ideas underpinning the work, it provides readers with an understanding and appreciation of the complexity and literary artistry of Plato's Republic. McAleer not only unpacks the key overarching questions of the text – What is justice? And Is a just life happier than an unjust life? – but also highlights some fascinating, overlooked passages which contribute to our understanding of Plato's philosophical thought. Plato's 'Republic': An Introduction offers a rigorous and thought-provoking analysis of the text, helping readers navigate one of the world's most influential works of philosophy and political theory. With its approachable tone and clear presentation, it constitutes a welcome contribution to the field, and will be an indispensable resource for philosophy students and teachers, as well as general readers new to, or returning to, the text.

**The Allegory of the Cave** Plato 2021-01-08 The Allegory of the Cave, or Plato's Cave, was presented by the Greek philosopher Plato in his work Republic (514a–520a) to compare "the effect of education (παιδεία) and the lack of it on our nature". It is written as a dialogue between Plato's brother Glaucon and his mentor Socrates, narrated by the latter. The allegory is presented after the analogy of the sun (508b–509c) and the analogy of the divided line (509d–511e). All three are characterized in relation to dialectic at the end of Books VII and VIII (531d–534e). Plato has Socrates describe a group of people who have lived chained to the wall of a cave all of their lives, facing a blank wall. The people watch shadows projected on the wall from objects passing in front of a fire behind them, and give names to these shadows. The shadows are the prisoners' reality.

Democracy and Education John Dewey 1916 John Dewey's *Democracy and Education* addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, *Democracy and Education* is regarded as the seminal work on public education by one of the most important scholars of the century.

**The Philosopher's Plant** Michael Marder 2014-11-04 Despite their conceptual allergy to vegetal life, philosophers have used germination, growth, blossoming, fruition, reproduction, and decay as illustrations of abstract concepts; mentioned plants in passing as the natural backdrops for dialogues, letters, and other compositions; spun elaborate allegories out of flowers, trees, and even grass; and recommended appropriate medicinal, dietary, and aesthetic approaches to select species of plants. In this book, Michael Marder illuminates the elaborate vegetal centerpieces and hidden kernels that have powered theoretical discourse for centuries. Choosing twelve botanical specimens that correspond to twelve significant philosophers, he recasts the development of philosophy through the evolution of human and plant relations. A philosophical history for the postmetaphysical age, *The Philosopher's Plant* reclaims the organic heritage of human thought. With the help of vegetal images, examples, and metaphors, the book clears a path through philosophy's tangled roots and dense undergrowth, opening up the discipline to all readers.

Pathfinders Felipe Fernández-Armesto 2006 Presenting the subject on a truly global scale, historian Fernández-Armesto tracks the pathfinders who, over the last five millennia, laid down the routes of contact

that have drawn together the farthest reaches of the world. From the maritime expeditions connecting Queen Hatshepsut's Egypt to the exotic land of Punt in the second millennium BCE, through the merchants and missionaries of the ancient Silk Roads and the great Iberian explorers of the fifteenth century, to the nineteenth-century explorations of the polar regions, interior Africa, North America, and the South Pacific, Fernâandez-Armesto spins a narrative full of character and story. Embedding these explorations in the cultures, politics, and technologies of their times, he creates a history with depth and breadth.--From publisher description.

Symposium By Plato 2019-06-14 Symposium is a philosophical text by Plato. It concerns itself at one level with the genesis, purpose and nature of love, and is the origin of the concept of Platonic love. Love is examined in a sequence of speeches by men attending a symposium, or drinking party. Each man must deliver an encomium, a speech in praise of Love (Eros). The party takes place at the house of the tragedian Agathon in Athens. Socrates in his speech asserts that the highest purpose of love is to become a philosopher or, literally, a lover of wisdom. The dialogue has been used as a source by social historians seeking to throw light on life in ancient Athens, in particular upon sexual behavior, and the symposium as an institution.
