Firestarter Ben Stokes 2016-09-22 Ben Stokes is not cast in the same mould as the vast majority of English cricketers. Fiery, combative, gladiatorial - he plays the game hard and with great gusto. He is an all-rounder who bats, bowls and fields at full throttle. Some opponents feel threatened by his physical stature and aggressive brand of cricket. Stokes simply doesn't back down, smashing the next ball for six, bowling his 90 mph "chin music", or taking a breathtakingly full-stretch catch at backward point. Whether it's thrashing the fastest ever Test century at Lord's or the quickest ever Test double-hundred by an Englishman (against South Africa at Cape Town, in January) or destroying the Australian batting at Trent Bridge, Stokes plays the game he loves with his heart on his sleeve and with 100% effort and commitment. Cricket fans adore him for it. His very first book focuses on the pivotal moments in his life and career so far. These episodes are vibrant, emotional, poignant - revealing the man in three dimensions, red in tooth and claw. From being forged as a young boy in New Zealand, to moving to Cumbria at the age of 11, to playing county cricket for Durham and then onto the England team, this book provides a riveting insight into one of the most exhilarating figures in sport today.

What Sport Tells Us about Life Ed Smith 2008 'Sport is a condensed version of life - only it matters less and comes up with better statistics.' In a defining moment of modern sport, football legend Zinedine Zidane executes a vicious head-butt on Italian defender Marco Materazzi in the closing minutes of the World Cup final. During the weeks that follow the whole world asks 'What the hell was he thinking?' Making the reader think completely afresh about the incident, Ed Smith argues that it comes down to this: great athletes, like dictators, have a sense of their own destiny which is entirely alien to mere mortals. And when that destiny goes unfulfilled, frustration burns at fever pitch. In other words, Zidane's head-butt was his angry message to the gods. *What Sport Tells Us About Life* casts an eye over a spectacular range of topics in sport and culture. In one chapter Smith extols the virtues of amateurism in today's professional world; in another he explains why there'll never be another sportsman as dominant as Don Bradman. He unearths the hidden dimensions of England's 2005 Ashes win, examines the impact of the free market on cricket and football, argues that cheating is not always as clear-cut an issue as it might seem, and wonders whether athletes can learn from beauty queens. Captain of Middlesex, and a brilliant writer,, Smith brings his special kind of insight to these conundrums. The result is a scintillating and entirely original book which shows sport to be a mirror image of the world at large.

Tony Greig David Tossell 2011-09-20 Tony Greig, the captain who "e;betrayed"e; England by signing with Australian media tycoon, Kerry Packer, remains one of cricket's most controversial figures. Through extensive research and multiple interviews-including with Greig himself-this biography examines whether history has been fair to one of England's most successful cricket players, or if his achievements are condemned to be forever overlooked.

Playing Hard Ball E.T. Smith 2014-09-04 PLAYING HARD BALL is a unique sports book, a cultural comparison of two national games - cricket, English in origin and American baseball - written from the viewpoint of a top-class practitioner of both codes. Ed Smith - the young Cambridge University and Kent batsman - has spent the winters since 1998 in Spring Training with the New York Mets baseball team. It has enabled Ed to contrast and compare arguably the two most iconic of sports from the inside. In fact, baseball had a thriving following in Britain until the Great War: Derby County's former stadium was called the Baseball Ground; Tottenham Hotspur was at first a baseball club. Apart from learning two very different techniques, Ed learned that the sports' ultimate heroes, the Babe and the Don - Babe Ruth and Don Bradman - might as well have come from different planets, whilst baseball's pristine Hall of Fame in Cooperstown is a far cry from the ramshackle cricket museum at Lord's. Ed Smith's PLAYING HARD BALL draws on these intriguing comparisons to paint a two-sided portrait of sports most illustrious 'hitting games'.

Crickonomics Stefan Szymanski 2022-05-26 "Fascinating" The Observer "Illuminating" The Times "Crickonomics is packed with sufficient statistical analysis to have the most ardent cricket geek purring with pleasure" Mail on Sunday "An insightful, Hawk-Eye-like analysis of the numbers behind cricket" Financial Times An engaging tour of the modern game from an award-winning journalist and the economist who co-authored the bestselling *Soccernomics*. Why does England rely on private schools for their batters - but not their bowlers? How did demographics shape India's rise? Why have women often been the game's great innovators? Why does South Africa struggle to produce Black Test batters? And how does the weather impact who wins? *Crickonomics* explores all of this and much more - including how Jayasuriya and Gilchrist transformed Test batting but T20 didn't; English cricket's great missed opportunity to have a league structure like football; why batters are paid more than bowlers; how Afghanistan is transforming German cricket; what the rest of the world can learn from New Zealand and even the Barmy Army's importance to Test cricket. This incisive book will entertain and surprise all cricket lovers. It might even change how you watch the game.
