The Evolution of the Euclidean Elements W.R. Knorr 2012-12-06 The present work has three principal objectives: (1) to fix the chronology of the development of the pre-Euclidean theory of incommensurable magnitudes beginning from the first discoveries by fifth-century Pythagoreans, advancing through the achievements of Theodorus of Cyrene, Theaetetus, Archytas and Eudoxus, and culminating in the formal theory of Elements X; (2) to correlate the stages of this developing theory with the evolution of the Elements as a whole; and (3) to establish that the high standards of rigor characteristic of this evolution were intrinsic to the mathematicians' work. In this third point, we wish to counterbalance a prevalent thesis that the impulse toward mathematical rigor was purely a response to the dialecticians' critique of foundations; on the contrary, we shall see that not until Eudoxus does there appear work which may be described as purely foundational in its intent. Through the examination of these problems, the present work will either alter or set in a new light virtually every standard thesis about the fourth-century Greek geometry. I. THE PRE-EUCLIDEAN THEORY OF INCOMMENSURABLE MAGNITUDES The Euclidean theory of incommensurable magnitudes, as preserved in Book X of the Elements, is a synthetic masterwork. Yet there are detectable seams in its structure, seams revealed both through terminology and through the historical clues provided by the neo-Platonist commentator Proclus.

Behind the Walls of Terra Philip Jose Farmer 2012-07-16 Behind the walls of Terra lay a secret no man could be allowed to learn. But Kickaha - the Earth-born adventurer of the tiered worlds - had to uncover that secret, or watch his home world destroyed. Kickaha was returning to Earth from the World of Tiers, the many-levelled universe of the god-like Lords, that he had entered many years ago as Paul Janus Finnegan. Now he had returned to a world he no longer knew, to find it ruled by Red Orc, a Lord jealous of his personal domain and hostile to intruders. Yet Kickaha had to stay alive in order to defeat the deadly enemy that threatened Earth and the other worlds of tiers - the 'Beller', the malignant creature that was the mind-essence of a rebel Lord.

Lost Downtown Peter Hujar 2016-02 It's a vanished world, and Peter Hujar was right there in it. The Lower East Side between 1972 and 1985 -- filled with artists, wannabe artists and hangers-on -- was a community of the misbegotten gathered from every town in America and relocated in the mean streets between Broadway and the Bowery. Nothing but their talent, their flamboyance, their rank gender-bending mockery and their arch irony supported them. Some made their names. Many came to grief. A few made art. In those days, the gutted streets of the Lower East Side looked like a war zone. Everyone lived and worked on the extreme outer margins of money and art, penniless and unknown. As a community, Downtown was a counterstatement to the rich New York of the banks, museums, media, corporations ... and the art world itself. That Downtown is forever gone. Time, gentrification, disease and death have taken their toll and turned this vibrant epoch into a chapter of art history. But before it vanished, its extravagant cast sat for Peter Hujar's camera -- and is now alive again in front of our eyes. Featured among others: Joe Brainard, William Burroughs, Remy Charlip, Edwin Denby, Divine, Ray Johnson, Fran Lebowitz, Charles Ludlum, Susan Sontag, Paul Thek, John Waters, Robert Wilson, David Wojnarowicz.

No Natural Weather WeatherWar 101 2017-05-24 Once upon a time, all over the world, we saw fluffy white clouds in a blue sky. Today we see white lines and streaks, and many of us, in many countries, live under a layer of white haze. Children no longer know what real clouds look like, as the three basic cloud types are no longer seen. Remember the high-altitude cirrus, feathery and white, made of ice crystals? I have not seen real cirrus clouds for 15 years. What occurs now is what NASA calls "man-made cirrus" or "jet cirrus" - an actual admission of something unnatural and artificial. "No Natural Weather" is a clearly written simple tutorial about weather modification and much more, designed for newcomers to the concept, but also full of explanations and clarifications that will add to the research of those who are already aware. Start at the beginning and let this narrative take you on a journey from soup to nuts, A to Z. Share the series with your family and friends! There is no better time than now to educate yourself to what is and has been going on, and the thoughtful guidance provided by this seasoned researcher is the best company you could have on such an alarming journey. For yes, it is alarming to learn that our planet is being altered in ways that it may never recover from. It is time for us all to voice our collective power, but no one can do so until the actual knowledge has been given and shared. Thank you, WeatherWar101, for your immense contribution!
