The Symbolist Movement in Literature Arthur Symons 2019-02-14 The Symbolist Movement in Literature is a highly influential work of criticism and served to introduce the French Symbolists to an Anglophone readership. This work had a formative influence on modernist writers such as Joyce, Eliot, Pound and Yeats, helping to shape the role of the Image in modernist writing. Without symbolism there can be no literature; indeed, not even language. Symbolism in literature really is a form of expression, at the best but approximate, essentially but arbitrary, until it has obtained the force of a convention, for an unseen reality apprehended by the consciousness.

Rhinoceros Eugene Ionesco 1960 The sublime is confused with the ridiculous in this savage commentary on the human condition, a staple of every theatre classroom and 20th century drama. A small town is besieged by one roaring citizen who becomes a rhinoceros and proceeds to trample on the social order. As more citizens are transformed into rhinoceroses, the trampling becomes overwhelming, and more and more citizens become rhinoceroses. One sane man, Berenger, remains, unable to change his form and identity.

The Wretched of the Earth Frantz Fanon 2007-12-01 The sixtieth anniversary edition of Frantz Fanon's landmark text, now with a new introduction by Cornel West First published in 1961, and reissued in this sixtieth anniversary edition with a powerful new introduction by Cornel West, Frantz Fanon's *The Wretched of the Earth* is a masterful and timeless interrogation of race, colonialism, psychological trauma, and revolutionary struggle, and a continuing influence on movements from Black Lives Matter to decolonization. A landmark text for revolutionaries and activists, *The Wretched of the Earth* is an eternal touchstone for civil rights, anti-colonialism, psychiatric studies, and Black consciousness movements around the world. Alongside Cornel West's introduction, the book features critical essays by Jean-Paul Sartre and Homi K. Bhabha. This sixtieth anniversary edition of Fanon's most famous text stands proudly alongside such pillars of anti-colonialism and anti-racism as Edward Said's *Orientalism* and *The Autobiography of Malcolm X*.

Modern Art, 19th & 20th Centuries Meyer Schapiro 1978 Traces the evolution from cultured artists who added literary and historical elements to their paintings to the painters who relied on sensibility alone, with a discussion of the social meaning of abstract art

In Defiance of Painting Christine Poggi 1992-01-01 The invention of collage by Picasso and Braque in 1912 proved to be a dramatic turning point in the development of Cubism and Futurism and ultimately one of the most significant innovations in twentieth-century art. Collage has traditionally been viewed as a new expression of modernism, one allied with modernism's search for purity of means, anti-illusionism, unity, and autonomy of form. This book - the first comprehensive study of collage and its relation to modernism - challenges this view. Christine Poggi argues that collage did not become a new language of modernism but a new language with which to critique modernism. She focuses on the ways Cubist collage - and the Futurist multimedia work that was inspired by it - undermined prevailing notions of material and stylistic unity, subverted the role of the frame and pictorial ground, and brought the languages of high and low culture into a new relationship of exchange.

Elements of Structural Syntax Lucien Tesnière 2015-02-11 This volume appears now finally in English, sixty years after the death of its author, Lucien Tesnière. It has been translated from the French original into German, Spanish, Italian, and Russian, and now at long last into English as well. The volume contains a comprehensive approach to the syntax of natural languages, an approach that is foundational for an entire stream in the modern study of syntax and grammar. This stream is known today as dependency grammar (DG). Drawing examples from dozens of languages, many of which he was proficient in, Tesnière presents insightful analyses of numerous phenomena of syntax. Among the highlights are the concepts of valency and head-initial vs. head-final languages. These concepts are now taken for granted by most modern theories of syntax, even by phrase structure grammars, which represent, in a sense, the opposite sort of approach to syntax from what Tesnière was advocating. Grassroots Literacy Jan Blommaert 2008-06-03 What effect has globalization had on our understanding of literacy? Grassroots Literacy seeks to address the relationship between globalization and the widening gap between 'grassroots' literacies, or writings from ordinary people and local communities, and 'elite' literacies. Displaced from their original context to elite literacy environments in the form of letters, police declarations and pieces of creative writing, 'grassroots' literacies are unsurprisingly easily disqualified, either as 'bad' forms of literacy, or as messages that fail to be understood. Through close analysis of two unique, handwritten documents from the Democratic Republic of the Congo, Jan Blommaert

considers how 'grassroots' literacy in the Third World develops outside the literacy-saturated environments of the developed world. In examining these documents produced by socially and economically marginalized writers Blommaert demonstrates how literacy environments should be understood as relatively autonomous systems. Grassroots Literacy will be key reading for students of language and literacy studies as well as an invaluable resource for anyone with an interest in understanding the implications of globalization on local literacy practices.

Beauvoir in Time Meryl Altman 2020 "Beauvoir in Time situates Simone de Beauvoir's *The Second Sex* in the historical context of its writing and in later contexts of its international reception, from then till now. The book takes up three aspects of Beauvoir's work more recent feminists find embarrassing: "bad sex," "dated" views about lesbians, and intersections with race and class. Through close reading of her writing in many genres, alongside contemporaneous discourses (good and bad novels in French and English, outmoded psychoanalytic and sexological authorities, ethnographic surrealism, the writing of Richard Wright and Franz Fanon), and in light of her travels to the U.S. and China, the author uncovers insights more recent feminist methodologies obscure, showing Beauvoir is still good to think with today"--

French Ecocriticism Daniel Finch-Race 2017 This book expounds fruitful ways of analysing matters of ecology, environments, nature, and the non-human world in a broad spectrum of material in French. Scholars from Canada, France, Great Britain, Spain, and the United States examine the work of writers and thinkers including Michel de Montaigne, Victor Hugo, Émile Zola, Arthur Rimbaud, Marguerite Yourcenar, Gilbert Simondon, Michel Serres, Michel Houellebecq, and Éric Chevillard. The diverse approaches in the volume signal a common desire to bring together form and content, politics and aesthetics, theory and practice, under the aegis of the environmental humanities.
